At once the ship's surgeon dressed my arm, but from the first, the burns took the wrong way, owing to a lot of coal dust and dirt from the pipe having got embedded in the flesh and setting up blood-poison. A large scab appeared, and from underneath the festering flesh matter cozed out. I was in fearful pain and didn't know how to get ease

"For weeks I remained under treatment, but the ordinary ointments proved no good for my arm. Indeed, I got worse, and I became alarmed at the spreading of the poison. I therefore obtained a supply of Zam-Buk and almost as soon as this was applied I got ease. From the very first application, healing commenced; and a few boxes of Zam-Buk healed my wound completely."
