INTRODUCTORY.

To get a perfectly correct directory in a City of 30,000 people, and where the moves range from three to four hundred per month, is almost an impossibility, but I have spared no pains to bring to as near the acme of perfection as possible this my first number of what will be an annual production if our worthy citizens and business people will extend to me that measure of support which will warrant me giving my time wholly to the regular annual production of a City directory. I wish to thank those who have materially assisted me in my project, and

those who have kindly promised me their patronage; also the public generally for their kindness and courtesy in assisting me to the best of their ability to attain accurate data with which to carry out my project. I have delayed the publication over a month in order to furnish as far as completed the revised numbers of houses, and have obtained them for Mount Pleasant from Bridge street eastward, also for Granville, Howe, Hornby, Burrard and portions of Richards and Seymour.

It is my present intention to publish annually if the sale of copies warrants my doing so.

Respectfully,

ROWLAND E. GREEN.

VANCOUVER
