

Agricultural and Veterinary Instruction

A CLASS will be formed in Toronto for instruction in the Principles of Agriculture, and the Veterinary Art, specially adapted to the wants of young men engaged in, or intended for agricultural pursuits.—Professor Buckland will be assisted in the department of Scientific Agriculture by the Professors of Chemistry, Geology and Natural History in University College.—Mr. A. Smith, Licentiate of the Edinburgh Veterinary College, and consulting Surgeon to the Board of Agriculture for UPPER CANADA, will have charge of the Veterinary department.

The course will commence on *Wednesday, January 21st, 1863*, and continue for about six weeks. Three Lectures a day, and *no fees*.—The subjects treated of will comprise:—

The History, Breeding, Diseases, and Treatment of Farm Animals,—including their Anatomy and Physiology, with a course of instruction in Practical Dissecting.

Agriculture in its relations to Chemistry, Geology, Mechanics, Physical Geology and Meteorology, Botany and Zoology, including Farm Architecture and Engineering, the valuation and management of Landed Property, with special reference to Canada.

Pupils may enter and leave the Class without being subjected to an examination. But with a view of promoting Emulation the Board of Agriculture offer the following Prizes, the value to be given in suitable books:—First, \$20 to the Student who shall pass the best Examination in all the subjects at the end of the term; Second, \$15; Third, \$10; and Fourth, \$5.

Further particulars may be known by applying either personally or by letter to Professor Buckland, University College.
