GEO. L. DEHL & Co., wooden mantel manufacturers, of Toronto, have assigned. Liabilities \$25,000.

MONCTON, N. B., city council have made an offer of \$30,000 for the Gas Light and Water Co.'s property.

THE Brampton, Ont., gas works have been wrecked by fire. The cause of fire is unknown. No insurance.

THE wooden bridge over the river Speed, at Hespeler, Ont., will be replaced by an iron one and tenders are being advertised for.

THE work of building a new First Baptist Church at Yarmouth, N. S., will be commenced as soon as sufficient funds are in hand.

THE Dominion Bridge Company, whose works are at Lachine, Que., have the contract for building an iron bridge at Granby, Que.

SUDBURY, Ont., is voting on a by-law to introduce systems of waterworks, sewerage and electric lighting, at a total cost of \$35,000 or \$40,000.

THE binder twine factory at Kingston, Ont. Penitentiary is now running, about two tons per day being the output. Forty convicts are employed.

THE Robb Engineering Co., Amherst, N. S., have the order for a supply of machinery for a large new creamery and cheese factory at Middle Musquodoboit, N. S.

THE mechanical shops at the Vulcan Iron Works, Winnipeg, which have only been partially working during the winter, have now renewed full operations in all departments.

THE New Glasgow Iron, Coal and Railway Co.'s (Ferrona) 75-ton furnace produced one day last month 106 tons of iron in twenty-four hours. The average is 95 tons per day.

GEO. B. BURLAND, of Montreal, proposes to establish a paper factory in St. John's, Que., to employ from 50 to 100 hands. He asks for a bonus of \$15,000 and exemption from taxation for twenty years.

THE proprietors of the St. John's, Que., Stone Chinaware Co. ask to have the duty on white granite and chinaware restored to 35 per cent. It is reduced in the new tariff to 30 per cent, and the potters are afraid of Scotch and English competition.

A PETITION came last month before the Montreal city council asking that a bonus of \$40,000 per annum for twenty years be granted the Montreal Bridge Company, to provide for the building of a bridge from Longueuil to some point in St. Lawrence Ward.

CIVIL ENGINEER PAPINEAU is taking levels for St. John's, Que., drains to ascertain whether they can be conducted into one reservoir, and then discharged about a mile and a-half below the town and under the canal. At present the drainage is discharged into the canal.

JOHN RUSSELL's brick works in East Toronto were almost completely destroyed by fire a short time ago. Some valuable machinery was spoilt, and the whole damage amounted to about \$20,000. The loss would probably have been much less had the firemen had sufficient water facilities.

AFTER a recent examination made in Montreal by the water committee, it was stated that the cut wall of the new aqueduct was in a bad condition. About \$116,000 will be needed for the erection of a new engine, boiler house and engine house in connection with the low level reservoir.

JOHN CARNEGIE bought the Peterborough, Ont., Milling Company's property at public auction for \$57,000. He will probably lease it at once to a tenant who will put it into operation as soon as possible. The machinery, which is said to be of the most approved and modern form, cost the company between \$70,000 and \$80,000.

THE St. Croix mill of the Canada Colored Cotton Mill Co. has been closed for the summer, owing to a strike following on a recent reduction in wages.

ADAM WALKER, for several years with Sylvester Bros. of Lindsay, Ont., is moving to Moosomin, N. W. T., to start a machine shop there on his own account.

THE Burrell-Johnson Iron Co., Yarmouth, N. S., recently fitted up a 50 h.p. engine for the Buckler Brick Co., Annapolis, N. S., whose brick-making machinery they have also overhauled.

THE Canadian Engine and Locomotive Works at Kingston, Ont., have the contract for lock gates on the Sault Ste. Marie Canal. The price is stated as being somewhere between \$30,000 and \$50,000.

THE Oakville Cap and Tarpaulin Company's premises at Oakville, Ont., have been burned down. The fire is supposed to have originated spontaneously amongst some tarpaulins. Loss about \$4,000, mostly insured.

F. LLOYD, of Chemainus, B. C., is starting a new saw mill at Hall's Crossing with a capacity of about 20,000 feet per day. Two high pressure boilers have been put in, together with a good deal of high-class modern machinery.

WORK is progressing favorably on the new Montreal incinerator. "Hard pan" has been reached only a few feet from the surface of the ground, which renders the task of erecting the chimney easier than was expected.

A COMPANY is being incorporated at Pictou, N. S., under the name of the Cairo Polish Co., to manufacture all kinds of polishes, pastes, &c., for domestic, toilet, or culinary purposes. They will also manufacture bricks, tiles, pipes, paints, etc. Capital \$10,000.
