## Deafness and Catarrh Cured

By No Method Until "Actina" Was Discovered

Ninety-five per cent. of all cases of deafness brought to our attention is the result of chronic catarrh of the throat and middle ear. The air

passages become clogged by catarrhal deposits, stopping the action of the vibratory bones. Until these deposits are removed a cure is impossible. The inner ear cannot be reached by probing or spraying, hence the inability of aurists or physicians to always give relief. That there is a scientific cure for deafness and catarrh is demonstrated every day by the "Actina" treatment. The vapor current generated by "Actina" passes through the Eustachian tubes into the middle ear, removing the catarrhal obstructions as it passes through the tubes, and loosens up the bones (hammer, anvil and

stirrup) in the inner ear, making them respond to the slightest vibration of sound. "Actina" has never failed to stop ringing noises in the head. We have known people troubled with this distressing symptom for years to be completely cured in three weeks by this wonderful invention. "Actina" also cures la grippe, asthma, bronchitis, sore throat, weak lungs, colds and headache; all of which are directly or indirectly due to catarrh. "Actina" is sent on trial, postpaid. Write us about your case. We will give free advice and positive proof of cures. A valuable book—Professor Wilson's 100-page Dictionary of Disease, Free.
