

The work has enlarged considerably since it was started ; then it was kept up only during the summer months ; now it is maintained during the entire year, and when a special effort was made last year the sum of \$400 was subscribed by the students alone, of which \$255 was paid before the end of our financial year—Nov. 1st. Then \$58.36 was received from the societies, etc., mentioned above ; \$200 was given by the H. M. Board ; \$25 by the Quebec Government in aid of the schools ; \$44.13 was received in return for clothing ; and \$83 was the contribution of the Labrador people themselves, thus making, with \$87.51 cash in hand at the beginning of the year, a total of \$753. After paying all expenses in connection with the mission for the year a small balance was left in the hands of the treasurer.

This rough outline will give some idea of what it costs to run this mission from year to year. But it is our own mission, and we, as an Association, must feel the burden of responsibility resting upon us until it is safely transferred to stronger shoulders.

We feel that in Mr. Mont, who began work there as our missionary in October last, we have a man in whose hands, by the blessing of God, the success of the work is ensured for another year at least.

### KOREA.

---

THE steps taken by the Missionary Association to have Mr. Duncan McRae appointed missionary to Korea are already made public. Mr. McRae has an intense desire to go, and will be ready to start with Messrs. Foote and Grierson in May. The students covet the privilege of having him as their representative in the Foreign Field and offer to pay his salary. The Foreign Mission Board, however, fearing that the present condition of their funds would not warrant the additional expenditure, have postponed their decision till spring. They appeal to the people of the church to give their decision through their contributions. We hope the appeal will be carried to every member of the church and anxiously and prayerfully await their responses.
