

enter into this "pet scheme" of the Czar, with the ultimate object no doubt of compelling, or at least inducing England to commit herself to a line of policy which would rob her of a great portion of her military power; however beneficial such a scheme might be to humanity at large, it would scarcely be politic on the part of England to abandon her traditional mode of warfare, particularly at a time when Russia is casting her covetous gaze towards the possession of India.

Taking everything into consideration, there must be some significance attached to the visit of the future King of the British Empire to India for the purpose of interchanging courtesies with the native Princes, with the view of securing their good will and thereby to cement their relations more firmly together. This visit to India no doubt is dictated as an opposite move to what the Russian Czar may seem fit to adopt. But the prominent power of Europe at the present time is doubtless Germany. Emerging so suddenly from an insignificant power to that of a leading one, she seems to have become intoxicated, and has already shown by acts her willingness to spring a religious war upon the world. Her attention is directed towards France, and should the latter country place upon the throne a descendant of the ancient Kings, there is no saying how soon another conflict might take place between them. France is steadily recovering herself from the effects of her recent defeat, and while Germany is sowing dissensions at home by her conduct towards her faithful Catholic subjects, France on the other hand is cementing her hitherto discordant elements, and should Germany ever attempt a war with France again, there is every reason to believe that instead of having a disunited nation to fight against, she will have to contend against a mighty power which France can wield when united. From what we have already stated it will be seen that Russia, Prussia, France and England must soon come to blows, and it is scarcely possible that should hostilities take place it will be the signal of putting nation against nation in Europe.

We cannot hide the fact that the times are pregnant with grave consequences and seems to bear out the opinion that the world is on the eve of some mighty change. In proportion to the population of the world, there is more irreligion to-day than ever there was, and with the Church on one hand persecuted, and the absence of just sentiments from the heart of the rulers of the nations of the earth, we may be prepared for some extraordinary event which will prove to the world that the Lord reigneth as of old.

His Grace the Archbishop of Toronto has issued a pastoral convening the first Provincial Council of the Ecclesiastical Province of Toronto for the 26th September. The Province includes the dioceses of Toronto, Hamilton, London, Kingston and Sault Ste. Marie.

We have been favoured with a copy of the Acts of the Parliament of the Dominion of Canada, passed in the Thirty-eighth year of the Reign of Her Majesty Queen Victoria, and in the second session of the third Parliament, to which is prefixed Treaties between Her Majesty the Queen and Foreign Powers.

ESQUISSES POSTHUMES, par M. de Narbonne-Lara, Montreal: Eusebe Senecal. This book forms the second volume of the works of M. de Narbonne-Lara, who is well-known in his native land as a poetic writer of more than ordinary excellence. Some of these "Esquisses" although now written at an early age, display considerable power, and they are all distinguished by deep poetic feeling, patriotism, love of natural scenery, and high moral and religious sentiment. One of the prettiest pieces in the book is that addressed to the "Fleur des Champs, humble clematis," which displays as pure a love for the simple glories of the flowery field as Burns' immortal verses to a faded daisy. There is enthusiasm in several of the poems, such as "La Gloire," and the "Hymne a la Poésie," and a sad contemplativeness in others, such as "The Holocaust," which, as well as "The Refugees" and two other poems is written in English. The latter language is as much at M. de Narbonne-Lara's control, as his own French speech. We welcome these "Esquisses Posthumes," which are dedicated to Mme. La Comtesse de Benjumeau, Nantes, France, as a highly creditable contribution to our adolescent Canadian literature.—Gazette.

THE ABORTION CASE IN TORONTO.

Few more painful cases have come before the public than that which has been the subject of general discussion during the past week, in connection with the death of the girl Gilmour, in Toronto. The particulars we need not give. They are familiar to all newspaper readers. But the moral to be drawn from the occurrence cannot be too strongly dwelt upon. Much outcry is made about the crime of abortion, and its increasing frequency in Canada. Nothing too strong can be said in its condemnation. But there is just the danger that in denouncing it, sight may be lost of the preceding immorality which makes abortion desirable, and, as many think, necessary. Of the

INCREASING IMMORALITY IN CANADA

there can be no doubt whatever. Talk with old ministers, or even with those not much beyond middle life, and they will tell you that for years upon years they never had in their churches a case of discipline in reference to breaches of the Seventh Commandment, and that when such a case turned up the parties concerned were so much condemned in the neighbourhood as to be glad to leave. Not a single minister of any denomination can tell the same story now. The bold, forward bearing of many of our young women in their intercourse with youths of the other sex, is notorious, as it is general, and no wonder at all therefore, that the number of falls should be steadily on the increase. In cities and towns the behavior of very many young women is more like that of common street walkers than of modest virtuous girls, and the excuse that they are

FOND OF FUN AND PROLIC

is a poor one. Let any one go along Yonge street of a Saturday or Sabbath evening, and he would fancy that the inmates of all the brothels of the country had broken loose. Nor is Toronto, for its size, worse than other places. A large portion of our young women are apparently such fools, if nothing worse, that they do not understand and will not be taught that no man, however rude and uncultivated, ever uses undue liberties with the woman whom he loves. If woman could only understand that it is an insult of the most deadly kind for any man to say or do or look, anything approaching to indecency in their presence, and if they would but resist accordingly, it would be something. But they don't. Afraid of being thought prudish, they become mere tom boys, and are

RUINED IN REPUTATION

before, it may be, they are ruined in fact. If women could be made to understand that never since the world began has there been a case of a woman seduced by the man who loved her, and never will be, it might put her on her guard. Many women, we doubt not, have fallen because of their love for those who had become to them all in all. But there never was a man who defaced and degraded the object of his sincere and honest affection. Every true man could tell that in the nature of things it is impossible. There may come pity for his victim afterwards, and remorse for the wrong he has done, which may lead him to make all the reparation possible, but there was and there is in all that not love. Nay, in the midst of all his contrition there will be a certain feeling of contempt for the woman that lacked so much of maiden modesty and

INHERENT SELF-RESPECT

as that it should be possible that she could be seduced. She is not a true woman to whom indecent proposals could be made, and every man who makes such, declares that he believes that she is not. But the giddy young fools who are to be the wives and mothers of coming days would not believe this, and the result is the scandal and desolation of which almost every day is witness. God forbid that we should say a word in defence of the seducer. He ought to be lashed with a whip of scorpions out of all decent society. But if the bearing of a great number of young women of all ranks were most modest and womanly, would it not train young men to respect them more than now, with chivalrous delicacy and unwavering propriety?—British American Presbyterian.

DOMINION ITEMS.

TAKING THE VEIL.—An interesting ceremony came off on Thursday, 19th inst., at the Church of the Good Shepherd, Quebec, seven young ladies made their vows and became Nuns, four of them taking the black veil and three the white; Grand Vicar Cazneau officiated, and a large number of friends and relatives of the ladies were present.

The ceremony of blessing and laying the corner stone of the new Catholic Church in course of erection at Grafton was performed by the Right Rev. Dr. O'Brien, Bishop of Kingston, who was assisted by the Rev. Dr. Chisholm, of Perth; Rev. Mr. McCarthy, of Brockville; Rev. B. Coyle of Emily; Rev. Jos. Browne, of Port Hope; and Rev. M. Timlin, of Cobourg. There was a large gathering of people present, many being from Port Hope, Cobourg, and other places at a distance, as well as those of Grafton and vicinity.

The visit to Quebec and the Dominion generally of Captain Kirwan, the general secretary of the Home Rule Confederation of Great Britain, is announced. He comes out to this country more particularly to recruit his health, but has, at the request of the Home Rule League of Dublin, consented to represent that body while in Canada.

PRESCOTT, Aug. 21.—This morning a horrible act of cruelty to animals was discovered in a pasture near this town. Twelve cows, owned by citizens of this place, were found with their tails cut, several almost being cut off, while others were badly hacked. The authorities have strong suspicions of the parties connected in this disgraceful affair.

The Prescott Telegraph learns that Mr. John Mooney, fishery overseer of this district, has received instructions from the Department of Marine and Fisheries to notify the mill owners of the South Nation River to build fish pass slides at their several mills to be completed this season.

The Monck Reform Press says:—The water supply in the river is rapidly falling, and the grist-mills depending on water-power have suspended operations for the present. The mills of Mr. Sherk, of this village, and Messrs. Drake & Schofield, in Haldimand, are using steam-power.

The Listowel Banner says:—The harvest promises to be unusually good. The spring grains are looking excellent, and the fall wheat has not yet sustained much damage from the late rains. Farmers will have to congratulate themselves on their good fortune, if fine weather only continues a few weeks.

Says the Brockville Monitor.—We doubt very much if the prospects of good fall crops were ever better in this section of Canada than they are at the present season. The hay was light owing to the dry time in May and June, but root crops of every kind now look superb, while nothing can be better than the after-grass and pastures generally, which insure a fine fall production of butter and cheese, the great staples of this part of Canada.

St. John, N. B., Aug. 21.—Information was received to-day of the wreck of the bark Gen. Wolseley, from London to St. John. Steves Bros., of St. John, managing owners. She went ashore on Gull Rock, Briar Island, in the Bay of Fundy, and will be a total loss. The bark was 720 tons register and valued at \$12,000, of which five-eighths is insured. General cargo for St. John merchants; also an organ for St. John Catholic Cathedral valued at \$6,000.

Two men, named Collins and Flanagan, were accidentally killed on board ships, on Friday, 20th inst., at Quebec.

THE MENNONITES IN MANITOBA.—Eighteen hundred Mennonites have arrived at the Dufferin emigrant sheds, Manitoba, this season.

Reports from the Ottawa district state that the crops are suffering severely from the late continuous rains.

CIRCULATION AND SPECIE.—The circulation for the week is \$10,909,370.31, being an excess of specie over the amount required to be reserved by law of \$43,111.

The farmers in the vicinity of Hamilton are now busily engaged in harvesting their grain. A farmer of Barton has threshed 50 bushels of barley to the acre.

HALIFAX, Aug. 20.—O'Connor's paper mills at Bedford was destroyed by fire last night. Insured for \$8,000 in the Royal Canadian and in an English office.

At the last meeting of the Galt Town Council a by-law was passed for the levying of a rate of eighteen and a half cents on the dollar to meet current expenses for the present year. The total amount required will be about \$20,000.

The assessed value of the township of Brock the present year is \$1,615,742, and the taxes 62 cents on the \$100 assessed value; the amount to be levied for county, township, and railway purposes for the current year being \$10,113 12.

SERIOUS ACCIDENT AT A RIVET FACTORY—GASANOQUE, Aug. 20.—Last night, about ten o'clock, Mr. M. F. Mullen had his left hand torn off and his arm broken above the elbow while attempting to put on a belt in the rivet factory of Farmer & Bullock.

It is now lawful to shoot till the 1st of May, snipe and water fowls, which are known as mallard, grey duck, black duck, wood or summer duck, and all kinds of duck known as teal, may be killed without fear of legal penalty till New Year's Day.

TAVISTOCK, ONT., Aug. 21.—The building of the Port Dover and Lake Huron Railway is being pushed rapidly forward in this vicinity. Thirty cars of rails have arrived here, and been distributed in the section between Tavistock and Stratford. A large number of men are grading the East Zorra section.

Advices by the *Iberian* from Newfoundland show no new improvement in the fisheries. The catch in all sections of the Island has been small that fears are entertained of great destitution next winter among the fishermen.

A special telegram from Philadelphia to the *Ottawa Citizen* brings the information that 3,000 square feet of space has been allotted Canada at the Centennial exhibition, Canada is permitted the use of its own flag, and to be represented by its own Commissioners.

A brutal wife murder has been committed at Bear River, N. S., by one Robbins, an old man of fifty-five. He first shot his wife, then beat out her brains with a mallet, and, after setting fire to her bed, fled to the woods. He is said to have been preparing for the murder for some days previously, and to have been of a malignant disposition and given to drink.

That was an honourable action of one F. McCracken, who some little time ago resided in Ingersoll. He left in debt owing to ill-health and lack of employment, but a few days ago sent money to the telegraph agent to settle his numerous little debts and pay ten per cent. interest thereon. Such honesty deserves commendation, especially these days when the air is thick with rascality.

The excessive rain of the last few weeks is the wonder of the times. From the opening of the present month about 7 inches of rain have fallen in Quebec. Haymaking has been completely stopped and unless fine weather sets in immediately, the potatoes will rot in the ground. All the wells in this vicinity are filled to overflowing, and our streets have been very much cut up by the torrents, which flow through them daily. And yet we believe that these rains are principally local.—Quebec Budget, Aug. 21.

QUEBEC, Aug. 20.—In the Parish of Casimiere, Portneuf, three children named Lord, aged respectively four, two, and one years, were burned to death, having, it is supposed, while playing with matches, set fire to the house in which for safety their mother had locked them whilst attending to some work at the farm. Two children were accidentally drowned in the same vicinity—one, named Bussiere, by falling into a well, and the other, named Domville, by falling into a stream.

Notwithstanding the frequent legal decisions that a railway passenger ticket is good until used, irrespective of anything to the contrary expressed on the face thereof, the Great Western people have continued to refuse to recognize tickets after the lapse of the date for which they were issued. Mr. Sheriff McEwan objects to such a policy, and has entered an action against the Company for refusing to receive from him a ticket of the kind described, and compelling him to pay his fare over again. It will delight many travellers if the Sheriff obtains a favourable judgment.

A daring mail robbery was committed on Friday August 22d on the M. & P. railway. When the stage with the mail for the west was a few miles above Assemetunguen the driver was accosted by a man who asked for a passage. The driver took him on, and after proceeding a short distance the man pulled out a revolver and pointing it at the driver's head, ordered him to stop. He then compelled him to cut the bags, and when this was accomplished he told the driver to jump out. The robber then drove off with the bags. The bags, with their contents rifled, were found next morning about seven miles distant from where the driver was stopped. Active efforts are being made to trace and arrest the robber.

QUEBEC, August 21.—At a meeting of the City Council held last night, it was moved by Alderman Denning seconded by Councillor Woods, and carried unanimously, amid enthusiastic applause—That this Corporation, by its subscription of a million dollars to the capital stock of the North Shore Railway Company, has given indisputable evidence of the deep interest it has taken in the construction of the North Shore Railway. That in view of the said Company having declared its inability to continue the construction of the said road, under existing arrangements, no further payment be made to it by this Corporation, but in lieu thereof the Provincial Government be respectfully informed that should they take steps to insure the early completion of such road, this Council will pay to them the balance unpaid by its subscription to the stock of said Company, as provided by law, on the express condition, however, that in no case shall this Corporation be called on for the payment of interest in the stock issued, and to be issued, in virtue of its said subscription, before the road will have been constructed throughout the whole distance between the cities of Quebec and Montreal.

WANTED—A FEMALE HEAD TEACHER for the Roman Catholic Separate School, Belleville, duties to commence 1st September. A liberal salary will be given to a first class Teacher. Applications, with testimonials, can be made to the undersigned; those holding Normal School Certificates preferred.—By Order, M. J. GRAINGER, Sec.-Treasurer.

Birth.

In this city, on the 22nd inst., the wife of Joseph McCaffrey, Printer, of a daughter.

Died.

At Uptergrove, Ont., on the 6th inst., Mr. T. Byrnes, a native of Wicklow, Ireland, aged 64 years. The deceased is much regretted by a large circle of friends and acquaintances, having been a resident of the Township of Mara for over 15 years, during which time he exercised the function of a school teacher, and at the time of his death occupied the position of Post-master of Uptergrove.—R.T.P.

At his residence in St. Antoine Abbee, Co. Chateaugay, on the 10th inst., after a severe and protracted illness, borne with christian fortitude, comforted by the last solemn rites of Holy Church, John McGill, Esq., J. P., aged 66 years. Deceased was a native of County Donegal, Ireland; he emigrated to Canada in 1835, establishing himself in the County of Chateaugay, he engaged in mercantile pursuits, which proved alternately prosperous and adverse, he experienced numerous vicissitudes, but through wear or vice his ardent charity was ever conspicuous. Being possessed of an extraordinary and prepossessing intellect, he might have, as a politician, (were it his ambition,) attained celebrity; he took a prominent part in the public affairs of the County; but his zeal for the welfare of his adopted country did not in the least diminish his love for the dear land of his birth. He was a true Irishman, never actuated by a mercenary impulse, and years ago, when the question of "repeal" was being agitated here, he gave by word and deed liberal evidence of his patriotism. But the most impressive characteristic in his life is, that whilst being lauded by all creeds and nationalities for his worth as a citizen, he never omitted his duty as a Christian. Catholic reader in your charity breathe one fervent orison to an all merciful God for the happy repose of his soul.—Com.

At Richmond, P.Q., on the 17th inst., Mrs. John Mulvena, aged 86 years, deeply regretted by a large circle of friends.—R.T.P.

At Ste. Mary de Monnoir, P.Q., on the 18th inst., Lawrence Murphy, Esq., a native of the Co. Tipperary, Ireland, aged 73 years. The deceased was one of the earliest settlers in Ste. Mary, having lived there for the last 48 years. He was father of the Rev. James Murphy of Carleton Place, and Mr. L. Murphy of Senfouth, Ont.—R.T.P.

At Kemptville, Ont., on the 18th inst., Rev. W. Harty.—R.T.P.

At Dundee, Province of Quebec, on Friday, 20th August, Duncan B. McKee, aged 93 years and 8 days; he was born at Kintail, Rosshire, Scotland, and immigrated to this country in 1821.—R.T.P.

CATHOLIC COMMERCIAL ACADEMY OF THE CITY OF MONTREAL.

PLATEAU AVENUE, No. 699 ST. CATHERINE STREET. The Catholic Commercial Academy will re-open on Wednesday, the 1st of September.

The course of studies in the Polytechnic School, established with the support of the Provincial Government, embraces three years studies. A preparatory class will be formed for those not proficient enough in mathematics to be admitted at once. The curriculum of studies shall be sent on application.

In the Commercial course, none of the most approved methods in use in the European commercial schools to impart to pupils a thorough knowledge of business shall be omitted. A Business Class, nearly equivalent in its workings to a regular merchant's office, will be open in the evening from 8 to 10 o'clock to young men prevented by daily occupations to attend the commercial school, and diplomas will be awarded to them after a satisfactory examination.

For particulars and details apply to the Principal at the Academy.

U. E. ARCHAMPAULT
Principal.

THE SISTERS OF THE CONGREGATION OF NOTRE DAME, MOUNT ST. MARY, (Cor. Guy and Dorchester Sts.)
