

Table 18

Factor 1

SOCIO-CULTURAL NATIONALISTS

	<u>POSITIVE ASSOCIATION</u>	<u>NEGATIVE ASSOCIATION</u>
<u>DEMOGRAPHICS</u>	Residents of Quebec	Residents of B.C., the Prairies and Atlantic Canada
	Older people	
	Francophones	Upper income (\$50,000 +)
<u>POLICY ISSUES</u>	Prefer cooler relation with U.S.	
	Personally lose if trade barriers removed	
	Bad idea to enter into free trade agreement	
<u>SUPPORT/OPPOSITION TO FREE TRADE</u>	No free trade better for Canada	

This factor tends to be associated with older persons. They are more likely to reside in Quebec. Socio-cultural nationalists do not believe that free trade would be a good idea and would prefer that Canada distance itself somewhat from the United States.
