

Promote improved environmental management at the municipal level, including through information exchange among local communities, the development of environmentally sound technology and the promotion of partnerships to facilitate, as appropriate, technology transfer, capacity building, including the strengthening of local institutions and services, and support for initiatives such as the World Bank Clean Air Initiative and IDB programs in this area;

Advance hemispheric conservation of plants, animals and ecosystems through, as appropriate: capacity building, expanding partnership networks and information sharing systems, including the Inter-American Biodiversity Network; cooperation in the fight against illegal trade in wildlife; strengthening of cooperation arrangements for terrestrial and marine natural protected areas, including adjacent border parks and important areas for shared species; support for regional ecosystem conservation mechanisms; the development of a hemispheric strategy to support the conservation of migratory wildlife throughout the Americas, with the active engagement of civil society; and the promotion the objectives and the implementation of the *Convention on Biological Diversity* and the *UN Convention to Combat Desertification*;

Promote the adoption of concrete and urgent actions towards the implementation of sustainable forest management; promote policies, practices, incentives and investment in support of sustainable forest management, building on existing hemispheric initiatives and cooperation, as well as support the UN Forum on Forests and its program of work;

Reaffirm our commitment to advancing environmental stewardship in the area of energy by advancing policies, practices, transference of and access to technologies, that are economically efficient and take the environmental impacts of energy development and use into account; and endorse and support the work of the Hemispheric Energy Initiative in this area;

Promote the development of environmentally sound exploitation and management of minerals and metals, recognizing the importance of the social and economic dimensions of the activities of the mining sector, and support the work of regional and international fora in this area;

10. AGRICULTURE MANAGEMENT AND RURAL DEVELOPMENT

Recognizing the fundamental importance of agriculture as a way of life for millions of rural families of the Hemisphere as well as the role it plays in the creation of prosperity as a strategic sector in our socio-economic system and taking note of the importance of developing its potential in a manner compatible with sustainable development that would ensure adequate treatment and attention to the rural sector:
