Sir Arthur Currie

Dear Sir,

No doubt you have read recently a statement made by Sir Alexander Gibb to Canadian newspapers that Mr Bennett asked him to come to Canada and look over some of its harbors.

Apropos of this statement would you be kind to let me know if there available any graduates of McGill University who would be equally capable of doing this job, or if you know of any graduates of any Canadian University who could undertake to prepare such a report?

Your reply will be very greatly appreciated

Yours sincerely,

George C. McIntyre

W. R. Brown

Can you think of any graduates capable of doing this job?
