Roads Will Be Oiled in an Effort to Abate Nuis-

Representatives of the board of education who attended the meeting of the city council last evening heard free opinion upon the enormity of their asking \$3,000.000 for new buildings and sites. The representatives were Chairman Hiltz, Trustee Hodgson and Superintendent of Fuildings Bishop, who were invited to be present to justify the expenditure cf \$3,000,000.

"Over \$400,000 is asked for tearing down schools that new ones may be built in their place," said Mayor Hocken, "altho the old schools would do for another year or two, when money will not be so tight. I don't know where we can sell \$3,000,000 of debentures today. Then \$100,000 is asked for an administration building, altho there is a building on the proposed site that would answer the purpose. Before the \$3.000,000 is voted there should be a conference between a committee of the board of education and a committee of the council." "A previous conference resulted in

our being asked how many thousands we would take off, and when we said

tions by members of the council. The questions showed that the council has no conception of the business and needs of the board of education.

A Strange Thing.

"It is a strange thing that the board of control recommended the appropriation of \$3,000,000 for new school buildings and stress and str ings and sites, and now the controllers declare that the school estimates are not justified in part or in whole," Ald-McBride remarked.

Ald. Hubbard put thru a motion that the school estimates be referred back

"We have appropriated \$30,000 for oiling the streets and ward seven will get its share." said Mayor Hocken. "But this practice is not always successful, and other methods then become necessary.
