

No Political Axes to Grind

The Christian Science Monitor—the international daily newspaper—has no political axes to grind. Its concept of its responsibility is not limited by partisan affiliations. Its endeavor is to support and protect every righteous activity expressed individually or nationally. It is also ready to risk the displeasure of even the most humanly powerful interests and systems, in order that the light of publicity shall penetrate their motives and actions.

The Christian Science Monitor is on general sale throughout the world at news stands, hotels and Christian Science reading rooms at 3c a copy. A monthly trial subscription by mail anywhere in the world for 75c, a sample copy on request.
