

WATER OF THE GEORGIAN SPRING.

I have made a careful quantitative analysis of a quantity of this Water, sent me by the Proprietor of the Spring. It is a Saline Water, containing earthly Chlorids, with portions of Bromids and Iodids, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphates, which are not often met with in Waters of this class in the Province. It has a specific gravity of 1008,78, and contains in one pound avordupois, the affixed quantities of the following substances:

	Grains		Grains.
CHLORID OF SODIUM, . . .	66,22000	CARBONATE OF LIME, . . .	2,08600
CHLORID OF POTASSIUM, . .	72800	CARBONATE OF MAGNESIA, . .	2,54016
CHLORID OF CALCIUM, . . .	31003	CARBONATE OF IRON, . . .	Traces.
CHLORID OF MAGNESIUM, . .	3,45982	SILICA,	14350
BROMID OF MAGNESIUM, . .	02016		
IODID OF MAGNESIUM, . . .	01204		
SULPHATE OF LIME, . . .	1,35044		
			76,87015

T. S. HUNT,

Office of the Geological Survey, }
Montreal, May 26, 1851. }

Chemist to the Geological Commission.

The Medicinal qualities of the Waters are such that there is never the least inconvenience experienced in making use of it. It does not weaken the system and is not followed by any bad effects as is often the case in using more powerful medicines. It is found to be pleasant and beneficial as a morning beverage, improving the appetite, cleansing and purifying the blood. In many diseases incident to Females it is unsurpassed. Families within a reasonable distance from the Springs will no doubt find it convenient to keep a cask of the water constantly on hand—it is of such a nature that it will retain all its qualities at least for twelve months, when kept in a cool place and the cask properly prepared by saturation.

Orders for the water by mail addressed to the proprietor, STEPHEN TUCKER, Petite Nation, C. E., punctually attended to at moderate prices. Casks will be supplied when ordered. Empty Casks sent to Barnum & Walker, Forwarders, Montreal, will be immediately forwarded to the Springs and returned.

Agents for the sale of the Waters wanted in Canada and the Northern States. Terms to Agents made easy. Persons desirous of taking the agency will please address Stephen Tucker, as above.

Petite Nation, Canada East, June 15, 1853.
