THE WESTERN CANNERIES, LTD.
IMPORTANT ANNOUNCEMENT.

The organization of this Company cannot fail to have an important hearing upon our future prosperity, and, if carried out upon the lines indicated, can be compared only in importance and magnitude to the changes effected by the construction and opening for traffic of the Canadian Pacific The possibilities and changes the operations of this Company will probably effect in our economic conditions are indeed great, and hardly realizable by the majority of our readers.

readers, and hardly realizable by the majority of our readers.

To give a slight idea of the magnitude of the operations involved, it may be mentioned that one Chicago packinghouse alone (and that by no means the largest) effected sales during the last year aggregating no less than two hundred amongst the ranching and farming community for the purchase of raw material is simply colossal.

The subject is so vast that we cannot do better than refer our readers to the prospectus itself, which is a very comprehensive and carefully-written document, containing much valuable statistical information, and should receive Western Canada at heart.

The Company appears to be organizing on the right lines, retaining the present and future control of this important matter in the hands of the Canadian shareholders.

We wish the Company every success, as it is unquestionably a move in the right direction.

Manitoba Free Press.

Manitoba Free Press. (Financial Column.) THE WESTERN CANNERIES, LTD. The Company in a formative condition has just made a very important announcement in the columns of The Free Press.

Press.

In so vast an expanse of country that is peculiarly well fitted for raising cattle it is somewhat surprising that packing-houses have not been started earlier. At various times they have been talked of, but no practical steps have ever been taken towards their establishment. This is all the more surprising in view of the obvious fact that the same business has created some of the largest individual fortunes in the United States. There is, or appears to be, no reason why the natural products of the luxuriant pastures of the west should not be turned to advantage to a greater extent than it hitherto has been, and this Company in course of organization offers an opportunity of so doing. It is a matter in which all Canadians are vitally interested, and the success or non-success of the proposal depends entirely on themselves. They have the raw material, and it remains to be seen whether they have the enterprise and the busineod ability to turn it into profit. The prospectus, which appears a sleewhere in this issue, should be carefully studied.

Other people notice your bad breath where you would not notice it at all. It is nauseating to other people to stand before them, and, while you are talking, give them a whift or two of your bad breath. It usually comes from food fermenting on your stomach. Sometimes you have it in the morning—that awful sour. billous, bad breath. You can stop that at once by swallowing one or two Stuart Charcoal Lozenges, the most powerful gas and odor absorbers ever prepared.

Sometimes your meals will reveal themselves in your breath to those who talk with you. "You've had onions," or "You've been eating cabbage," and all of a sudden you belch in the race of your friend. Charcoal is a wonderful absorber of odors, as everyone knows. That is why Stuart's Charcoal Lozenges are so quick to stop all gases and odors of odorous foods, or gas from indigestion.

Don't use breath perfumes. They never conceal the odor, and never absorb the gas that causes the odor. Besides, the very fact of using them reveals the reason for their use. Stuart's Charcoal Lozenges, in the first place, stop for good all sour brish and belching of gas, and make your breath and breath pure, fresh and sweet, just after you've eaten. Then, no one will turn his face away from you when you breathe of talk; your breath will be pure and fresh, and besides, your food will taste so much better to you at your next meal. Just try it.

Charcoal Josenges other wonderful and the properties of the well-belied of the properties. talk; your breath will be pure and fresh, and besides your food will taste so much better to you at your next meal. Just try it.

Charcoal does other wonderful things, too. It carries away from your stomach and intestines all the impurities there, massed together, and which causes the bad breath. Charcoal is a purifier as well as an absorber.

Charcoal is now by far the best, most easy and mild laxative known. A whole boxful will do no harm; in fact, the more you take, the better. Stuart's Charcoal Lozenges are made of pure willow charcoal, and mixed with just a faint flavor of honey to make them palatable for you. but not too sweet. You just chew them like candy. They are absolutely harmless.

Get a new, pure, sweet breath, freshen your stomach for your next meal, and keep the intestines in good working order. These two things are the secret of good health and long life. You can get all the charcoal necessary to do these wonderful but simple things by getting Stuart's Charcoal Lozenges. We want you to test these little wonderworkers yourself before you buy them. The football season is upon us, and those of us who don't play the game are still living. Pictures next Sunday cover the Argo-Vic and Argo-Junior-Trinity Thanksgiving Day games, and the game on the following Saturday, when the Tigers beat the Victorias 48 to 1. These are exceptionally good pictures of actual play—almost as good as moving pictures. Then there is a fine portrait group of the Tigers.
