HENRY GEORGE'S DEAD.

The Single Tax Apostle Taken Off Yesterday by Apoplexy.

MAYORALTY CAMPAIGN WAS TOO HEAVY.

He Had Not Been in Good Health for the Past Three Years.

Retired Late Thursday Night After Having Addressed Several Meetings—Mrs. George Was With Him in the Last Moments, So Was His Eldest Son—The Death Illness Only Lasted Half an Hour—Alfred Henry Lewis Was a Wonderful Change in Him—Comments of the New York News-papers—Henry George, Jr., Accepted Nomination in His Father's Stead and Will Fight the Campaign—All the Opposing Candidates Express Profound Sympathy.

New York, Oct. 29.—Henry George died at the Union Square Hotel about 5 o'clock this morning. Mr. George retired late last night after addressing several large meetings. His room was on the first floor of the Union Square Hotel. Mrs. George was with him.

About 3 o'clock this morning Mrs. George was awakened by the convulsive movements of her husband. He was moaning faintly. Jumping up, she found him in a dying condition. She immediately rang the bell, and Night Clerk E. A. Warner responded. He sent for a doctor to West 34th-street. It was over 20 minutes before the doctor arrived.

Mr. George was not an old man in the matter of years, but he was never rugged. He was an extremely gentle man in his countenance and physical structure, and those who knew him best feared for the results of an exciting canvass such as that which is now in its last hours was sure to be.

UNCLE OLIVER (in dismay): Oh! dear me, if I'd known it was going to go downhill like that I wouldn't have let go.

CAN'T CATCH COLEMAN.

The Former Toronto Man in Hot Water in New York—A Wall Street Broker Who Couldn't be Located.

New York, Oct. 29.—Deputy Sheriff Whoriskey has received an attachment against James F. Coleman, formerly of No. 88 Wall-street, for \$3000, in favor of Daniel F. Horner. Mr. Coleman endorsed a note made by W. A. Freeman in Toronto on Feb. 29, 1894, to the order of Mr. Coleman, who delivered it to Mr. Horner.

Mr. Coleman had an office at No. 88 Wall-street, where he was said to be the principal man in the stock brokerage firm of Cornwall, Berke & Co. A. B. Robertson, a process server, called there many times in the last two months, but never could find Mr. Coleman in, although he came there often, but would slip out.

SAYS HE'S THE SNEAK THIEF.

Who Has Been Prying Open Back Windows With a "Jimmy"—Goods Recovered.

The man who crawls into the houses of unsuspecting citizens through the back window, who has been prying open with a jimmy, and then ransacks the premises, has been a frequent nuisance to the community, and the detectives recently, but the officers think they have him now, and that the depredations will cease.

SEMPAGHA PASS TAKEN

An Important Victory for the British Troops in India

UNDER GENERAL SIR WILLIAM LOCKHART.

The Position of the Enemy Was Very Strong, But It Was Carried.

British Officers Were Killed and Wounded—The Advance Began Before Daybreak—Main Force, With Six Batteries, Moved Straight On the Pass—The Enemy Could Not Face the Fire of the Batteries and After About Four Hours of Fighting the Gorkhas and West Surrey Regiment Arrived at the Summit—Another Fight Took Place There, Lasting Three Hours, and the Battle Was Won.

Sinala, Oct. 29.—The British forces under General Sir William Lockhart captured the Sempagha Pass at 11.15 o'clock this morning.

General Lockhart, in command of the second brigade, led the advance upon the enemy's position, which was of the strongest description. The casualties among the British officers, already reported, are Captain DeBatta of the Artillery, who succumbed to wounds received during the engagement, and Major Handford Flood of the West Surrey Regiment, who is among the wounded.

According to despatches from Gundaki Sir William Lockhart explained his plan of attack to his officers late evening, and the advance from Gundaki commenced in the darkness, about 5 o'clock in the morning. The main force, with six batteries, moved straight on the pass. Detachments were sent to operate against the villages on the flanks.

When day dawned all the troops were in position at the foot of the pass. The enemy's position was very strong, and his approaches were greatly exposed, but until now the resistance had been trifling, the tribesmen having been easily expelled from the villages of Nazeen and Kundahis.

Three batteries opened the attack on the pass between 7 and 8 o'clock, the artillery being supported by the main force. The enemy could not face the fire, and General Gaselee, who led the infantry spiritedly, had a comparatively easy task.

The pass was found to be a series of steep rises, affording much dead ground for the batteries. The troops, under the cover of a mountain battery, captured height after height, and finally the 4th Gorkhas and the West Surrey men arrived at the summit together at 11.30 a.m.

The enemy now opened a well-directed fire at the troops on the summit, but were effectually cleared from the surrounding heights in about three hours. The total casualties did not exceed 20.

With the expected capture of Arhangga Pass to-morrow, which is within 13 miles of the Afghan frontier at Safoed Koh, the work of the column will be practically completed, for the main body of the Afghans, having the Peshawar force, and the West Surrey Regiment, will be compelled to sue for peace or to seek the inhospitable retirement of the Safed-Koh range.

The British forces under General Sir William Lockhart captured the Sempagha Pass at 11.15 o'clock this morning. The main force, with six batteries, moved straight on the pass. Detachments were sent to operate against the villages on the flanks.
