T. EATON CO. GANADA'S GREATEST STORE

EARLY CLOSING!

This store will close to-day and every day next week at six o'clock. We open regularly at Eight a.m.

Useful and Sensible Gifts For the Men

"What shall the present be?" That's the all-important question of the hour. For a gentleman the most sensible gift would be some dainty article for wear; if that is your opinion too, don't fail to visit our Men's Furnishings Department. As a matter of fact, you can't afford to spend a cent without first seeing what we have to offer; and to see is to convince you that it is much to your advantage to spend your "gift" money at this store. The following suggestions from this department-some of which are illustrated in the accompanying cut-

We seem to have fairly captured the hearts of the little folks with our splendid mines. In this connection The Review display of Toys, Games and Dolls on the First Floor. How the youngsters are de- seys: "It has even been proposed to lighted with all there is to see! As for the parents, they experience as much pleasure because the and it need not excite surprise of the uniformly small prices attached to the different things they have to buy. Is it any wonder then that we are kept busy all day? These are some of the things that help to make aba, or Marquette may ultimately give

business brisk. The Toy Department is situated on the First Floor, It's within reach of all and easy to get at. Bring the children when you can, but come with them before noon.

190 YONGE STREET. - -

ONE CENT MORNING PAPER. No. 83 YONGE-STREET. Toronto.

NOT LOYAL TO TORONTO. and capitalists of Toronto some good and stocks is quite true. The tendency craze. Toronto people want to get rich for sudden riches that possessed the Ten years ago everyone in Toronto showing the increasing popularity of the double his money in a few months. Tocentred on mines, on street car franchises, on financial deals, all of which at Toronto for vessels and for the railreach the public through the stock and mining exchanges. These ventures are and Midland and Toronto, there will all right enough in their way, and the further be a much greater diversion of the probability is that large sums of money will be made through them, especially by those who use a little common sense in their deals and who do not allow themselves to be carried away by the crease the income of but a few score are many industrial enterprises that ought to be started in Toronto. Among them we might mention factories for the There are good and substantial reasons why Toronto should share in the maclinery trade of British Columbia and Western Ontario. Toronto capital is \$5,00.
Men's Smoking Jackets, in navy blue, garnet and drab beaver cloth, silk braid edges, with three rows of stitching, pockets and cuffs neatly trimmed, frog fastenings, sizes 36 to 44 inches chest (cut No. 302), \$5.
Men's House Coats or Smoking Jackets, in plain green and brown broadcloth, silk faced collar and down front, quilted, silk trimmed edges, cuffs and pockets, lined with Italian cloth, sizes 36 to 44 inches chest (cut No. 315), \$7.50.
Men's Smoking Jackets or House Coats, in drab and fawn Venetian cloth, silk cord edge trimmings, collar and lapels silk-faced to bottom of coat (cut No. 315), only plain coilar, \$10.
Men's House Jackets, fancy brocaded silk, black ground, with green thread and black with red thread, black satin sleeve and body linings, braid trimmings and frog fastenings. \$15.

As soon as this policy is decided on the establishment of a nickel refinery in establishment of a nekel refinety in Ontario will become an absolute and immediate necessity. The capitalists and business men of Toronto can secure the location of this refinery for this and business men of Toronto can secure the location of this refinery for this city if they bestir themselves and make up their minds to have it. A big hotel we should have. No one investing in such a venture would lose a cent. Other projects, which mean more for the welfare of Toronto than coke ovens in British Columbia and tramways in Birmingham, are the building of elevators and docks in Toronto harbor, with a view to diverting the traffic from the Northwest through this city. Scores of projects might be mentioned that could be successfully located in Toronto. Every other quarter of the globe, however, seems to have the call on our capitalists in preference to the city vhere they reside and carry on their operations.

THE TRADE QUESTION.

In the course of his speech Thursday evering, Mr. Mulock said: "The trade question, once so important, is for the time being out of the arena of party collisies". We seek the call on our copitalists in preference to the city vhere they reside and carry on their operations.

THE TRADE QUESTION.

In the course of his speech Thursday evering, Mr. Mulock said: "The trade question, once so important, is for the time being out of the arena of party Laundried White Shirt, short bosom, open front, linen bosom and bands, imported goods, all sizes, \$1 each.

Open Front Dress Shirts, imported make, linen bosom, cuffs or wristbands, \$1 and \$1.50 each.

Fine Colored Cambric Shirts, latest fall and winter patterns, all sizes, 75c to \$1.50 each.

time being out of the arena of party politics." We are not so sure of that, if by the trade question Mr. Mulock nicans, as we suppose he does, the tariff question. It will depend upon whether the Liberals, new and old, can and will intelligently—we had nearly said herestly, but that word would be out of place in such a connection-carry out the Conservative policy they have range from 10c to \$1.50 each, comprising: so brazenly appropriated, and upon whether they will scrupulously refrain from fulfilling any of the tariff pledges to which by the mouths of their leaders and the solemn resolves of their conand the solemn resolves of their convertions they bound themselves. It will derend also, and in no small degree. derend also, and in no small degree, upon whether they possess enough of intelligent statesmanship to enable them to properly apply the policy they have stolen to constantly changing industrial conditions.

BRITISH IRON PRODUCTION. In view of the diminishing supplies of iron ores now available to the iron and steel producers of Great Britain, The London Iron and Coal Trades Review refers to the possibility of supplying the should it come about that an all-water to this country those very ores at almost as low a price as they are now, via a long railway haul and with broken bulk, delivered to Pennsylvanin fur-

out of twenty that there is more trouble than headache. There is probably some un-healthy condi-tion of the delicate organism

women suffer.

There are two great remedies specially adapted to these ailments invented by the chief consulting physician of the famous Invalids' Hotel and Surgical Institute of Buffalo, N. Y., Dr. R. V. Pierce. His world-renowned "Favorite Prescription" is the most successful medicine ever known for the cure of distinctly feminine ailments and his "Golden Medical Discovery" is the one supremely effective cure for digestive difficulties.

Taken in conjunction they completely

ery" is the one supremely effective cure for digestive difficulties.

Taken in conjunction they completely rejevenate the nervous system of weak and debilitated women; giving health, strength and capacity to the nerve-centers; renewed power to the blood-making glands and energetic force to the entire body.

A lady living in Coshocton Co., Ohio, Mrs. W. T. Stanton, of Blissfield, writes: "I had female weakness very bad for nearly three years. Had dragging down pains in and above my hips and such dreadful pains in the back and top of my head (just as though someone was lifting me by the hair). Had no ambition, would try to work a few days then would have to lie in bed for a long time. No tongue can express the suffering I endured. I had much pain at monthly periods. I doctored most of the time with as good a physician as there is in the state, but had no ease only when I was quiet and off my feet and then I had more or less pain in my head. When I began taking Dr. Pierce's medicines I weighed 102 pounds, and was very pale and weak. I took twelve bottles of the 'Favorite Prescription' and seven of the 'Golden Medical Discovery.' Now I feel like a different person. Have no pain in my head, can do all my work for self, husband and one child; am gaining in fiesh. I feel it is through God's mercy and your wonderful medicines that I am cured."

Where constipated conditions exist Dr. Pierce's mild and agreeable "Pleasant Pellets" should be occasionally used in connection with the "Prescription."

harbor even a last lingering doubt as to dry, compressed peat being all they claim for 't, as a first-class, ideal ruel—they would hardly adopt a policy which makes every dollar of profit to them dependent upon its complete success ar of profit to them dependent upon its complete success.

The World understands that already a number of local capitalists have entered into negotiations with the company for the establishment of peat manufacturing plants in various parts of Ontario, and that there is every probability of the new fuel being very commonly in use before the next century begins in 1901. Peat manufacturing plants, like Rome, are not built in a day, however, nor do they grow up in a night, like Jonah's gourd, and those who may contemplate beginning the manufacture in various sections should lose no time in getting ready.
