

PAGE OF INTEREST TO WOMEN

SOCIAL and PERSONAL

TELL IT TO THE SOCIETY EDITOR.

Mrs. Lorne N. Marlett and small son Ronald of New York are visiting Mrs. Isaac Marlett, 35 Worthington road.

Miss Pauline Dudley, supervisor in the accounting department of the board of commerce, Ottawa, is spending her vacation with her parents, Mr. and Mrs. M. J. Dudley, Thornton avenue.

The engagement is announced of Miss Mildred M. Lawton of Philadelphia, Pa., to Mr. Walter H. Arthur, youngest son of Mr. and Mrs. James Arthur, Lorne avenue, the marriage to take place quietly in Palo Alto, Cal., on July 29.

Mr. and Mrs. Benjamin Parker of Watford celebrated their golden wedding anniversary on Wednesday evening. An interesting feature of the celebration was the fact that their marriage of 50 years ago took place in the house next to that which they now occupy on Erie street. Mr. Parker was born in Wiltshire, England, and came to Canada at the age of 11. Fifteen years later he was married to Miss Ann Clark of Watford. Seven children and twenty-one grandchildren were present, and many friends of Mr. and Mrs. Parker also gathered to offer congratulations and good wishes.

JOHNSON-BYRAM.
Miss Kathleen Byram of Toronto.

TALKS ON HEALTH

BY WILLIAM BRADY, M. D., Noted Physician and Author.

A Safe Vacation—Specific Wound Infections.

The prevention of ordinary wound infection (septicemia or "blood poisoning") described in our last conference, brought the victim up to the interesting point at which we suggest that he consult a physician. It always makes some readers angry when that old gag is pulled here. However, when a wound begins to pain or feel uncomfortable, it certainly is advisable to see a doctor about it, because there is no telling whether the discomfort is merely that produced by unskillful dressing or the incipient stage of wound infection.

This common "blood poisoning" or septicemia manifests itself at any time after the occurrence of a wound, and is usually accompanied by increasing discomfort about the wound—tension, swelling, burning, throbbing—and also swelling about the lymphatic channels. The lymph nodes connected with the lymph channels draining the wound area become enlarged and sore—"knots" in the arm, the groin or elsewhere. Perhaps small redish or dusky lines are seen running up the arm or leg along the lymphatic channels. The victim feels a little chilly, probably has a headache or general aches—so that someone is sure to imagine he is "taking cold." All these are danger signals which call for immediate surgical attention. But

the poisoning is INvariably produced by invading germs, not by rust, dyes, verdigris or any ordinary irritant.

Once in a while the germs happen to be tetanus bacilli (lockjaw germs). Especially is this likely when the wound is sustained in or about a barn or barnyard or a garden where manure is distributed. For the tetanus bacillus is a normal inhabitant of the intestine of domestic animals and is commonly present in the soil and dust of barnyard, barns and gardens. Lockjaw infection manifests itself from four to twelve or more days after the slight wound, by an increasing nervous tension, a feeling as though coming down with a "cold" or "flu," but not necessarily any marked changes of the wound itself, though the injured part usually feels "tired" or "aches." If a dose of anti-tetanic serum is administered shortly after the wound is sustained, as should be done in the treatment of all suspicious wounds in hot weather, lockjaw will not occur.

Another specific wound infection sometimes suffered on vacation is rabies. The bite of any animal may possibly infect the victim with rabies ("hydrophobia"). The animal may show no indications of being "mad," and the season may be winter or summer. If the animal can be caught, confined and kept under the observation

of a veterinary for two weeks, by the end of that period the veterinary can assure the victim that the animal did not have rabies. This is much more satisfactory to a sane person than shooting the animal and spending the next few weeks worrying over eventualities. Nowadays any physician anywhere may, if necessary, administer the anti-rabic serum to the patient in his own home, so that no expensive journey is any longer required.

QUESTIONS AND ANSWERS.

Infected Tonsils and Headaches.
Would infected tonsils, from which pus can be pressed by the doctor, be likely to cause a chronic headache for which no other apparent cause is discoverable? Would removal of such tonsils be advisable, in the hope of curing the headache, the patient suffering no other evident ill effect? The tonsils are scarcely visible, that is, they are embedded and not enlarged. The patient is a woman, aged 33 years. (P. J.)

ANSWER.—A considerable number of cases of chronic headache are so produced, and cured by removal of the tonsils.

Blackheads.
Will you please give a treatment for blackheads? (R. W.)

ANSWER.—After a prolonged bath of hot water containing a tablespoonful of boric acid in the quart, dry the skin and express the blackheads by gentle pressure with the fingers covered with a clean towel. Then apply this lotion over night, repeating the treatment every second day for a week and resting for a week. Sublimed sulphur 4 drams Alcohol 6 drams Compound tincture of lavender 4 drams Camphor water 8 drams

Yeast is Not a Cure-Ail.
I have heard that yeast is an excellent remedy to take. Please tell me how to take it. (M. G. A.)

ANSWER.—Yeast is a good food, containing vitamins, rich in protein and readily digestible. It is helpful in the treatment of some conditions. You fail to mention what condition you purpose to treat with yeast. (Copyright National Newspaper Service.)

WHAT'S IN A NAME

MELINDA.
Though not generally listed in English nomenclature and regarded rather as a product of the imagination, Melinda has in reality an interesting history dating back to Spanish ballad lore. In the story of the Moor, it was undoubtedly Melinda, and first appeared as the name of the wife of Don Gawayne, who was taken captive by the Moors on the occasion of the feast that were represented by the puppet shows in which Don Quixote took an unfortunately lively interest.

Another Melinda was the Princess Melisande, who carried the uneasy crown of Jerusalem to the House of Anjou. It was a most natural step to eliminate the over-abundance of syllables and contract the name to our present-day euphonious Melinda. For some inexplicable reason, it caught the fancy of the south, and its popularity there is still unquestioned.

The name is Melinda's talismanic stone. It is the most mysterious and fascinating of all gems, and is believed to bestow upon its wearer the charm which comes from brilliancy, restlessness and ever-changing moods. It will prove for Melinda a talisman against sorrow. Monday is her lucky day, and her lucky number.

CLEVERNESS WAS REQUIRED.

[Life].
Mrs. De Bohrer, think Professor Brayney is perfectly charming. He knows so much, and yet in conversation he doesn't make one feel like a fool.
Miss Suppley—Yes, isn't he clever?

MRS. ELIZABETH KENT, MACDONALD COLLEGE.

CLEANING WHITE STRAW.

This is the year when we are making things do, but nobody can wear a soiled white straw with any self-respect, and sending it to the cleaner costs almost as much as new ones. Therefore, let us use a nail brush to get into all the tiny crevices. The lemon juice must not be allowed to touch any ribbon or other trimmings, as it will take out the color as well as the dirt.

The hat may then be dried in the sun in a very few minutes. Men's straw hats are especially easy to clean this way, and certainly need it once or twice during the season, especially if they are where soft goods give up on account of mistakes.—Dwight L. Moody.

Query—Re Divorce and Marriage.
Dear Miss Grey—I have often thought of writing, but didn't have enough of courage. I take great pleasure in your page, and get a lot of good help. Now for one question, which I won't like to know. Can a person that has been married in the States and doesn't get married? I have heard they cannot.

ANS.—No, not here.

Advertiser Pattern.

Owing to the pattern manufacturers increasing the price of patterns to read our old patterns advertised from this date will be 15 CENTS EACH.

One-half cup of preserved raspberries, 1/2 cup of sugar, 1/2 cup of baking syrup, 1/2 cup of butter, 1/2 cup of sour milk, 1 teaspoon of baking powder, 1 teaspoon of soda, spices to suit. Put any filling you wish between the layers.

Bean Pickles.
One-half cup butter beans, boil for about an hour in salty sugar water as for table use. Dressing for beans: 1 1/2 pints of vinegar, 1 1/2 pounds sugar, 1 cup mustard, 1 cup celery seed, 1 tablespoon turmeric powder. Boil dressing and stir while boiling. When it thickens stir the beans through once, so as not to break them up. Let the mustard, flour and turmeric be mixed to a paste in the vinegar. Seal in jars.

With best wishes to Miss Grey and the readers of the page.
JENNIE WREN.

Veranda Chats.
I have been reading your column for some time, and have been very much interested, besides taking some useful information. Please find enclosed 10 cents for hospital fund. Please send me the stocking-foot pattern.

MISS CALIFORNIA.
Ans.—Thank you very much, Miss California, for hospital fund and your expressed appreciation.

We are very much interested in your daily page in The Advertiser, and have used quite a number of valuable recipes contributed by the different Pages. Enclosed please find a note for the children's fund, and will be kind enough to send me your famous stocking-foot pattern, for which I enclose stamped envelope.

MRS. S. KOMOKA.
Ans.—Thank you for hospital contribution. Please send pattern to you.

Nice Crisp Pickles.
Dear Miss Grey—I have been an interested but silent reader of your page for some time, as I am an invalid, and have been confined to my bed for the past five years. I have never written you before. But like all the rest I have come for help.

I would like the stocking-foot pattern, if I may have it. Please find enclosed 10 cents for S. C. H. and may the dear children find help in the hospital.

is the wish of one who is afflicted herself. Please find stamped and self-addressed envelope enclosed. I see where someone was asking for a good pickle recipe. I am sending you one that we have used for years, and find it good also they keep well and are always nice and crisp.

Pickle Recipe.—Put in a three-gallon crock one gallon cider vinegar, one cup salt, two cups granulated sugar, one-third cup whole cloves, one-third cup mustard, two tablespoons turmeric, one teaspoon red pepper; mix all together. Drop in your pickles. Stir every day for a week then bottle them. I rather my cucumbers as they get ready and put them in until crock is full. You may add onions, cauliflower and beets if you wish. If I don't want to make so many I just half it. Hoping I have not written too much, I will sign myself GRANDMOTHER NO. 3.

Ans.—Thank you for dime and splendid recipe. Grandmother No. 3. It was very kind of you to take the trouble to copy my method. We are sorry you are a shut-in, but glad you enjoy the Mail-Box chats and that you joined our circle.
