FREE RAILROAD ROUND TRIP FOR

Here are lands that are near railroads, nearly all within ten miles of an up-to-date railroad, to be offered at auction. They have been retailing at \$10 to \$15 per acre, but there are many tracts that would be bargains at \$20. The Saskatoon & Western Land Co. Ltd., prefers to wholesale 250,000 acres of its holdings in the heart of Saskatchewan, and will therefore offer for sale this number of acres at this important sale.

Who knows but that some of these rich, fertile acres may be yours on a low bid! You do not have to live on this land to get the big bargain value. The market is rising. These lands are a big paying investment for the city man as well as the farmer.

Make your plans to go now. Arrange your business so you can be in Regina Oct. 12, when The Saskatoon & Western Land Co.'s Sale starts. Or go to Regina and get on the land a few days previous to Oct. 12, so as to get acquainted with the great tract and determine what location you prefer. So far as is possible, we will accommodate buyers by putting up at any time any special quarter, half or whole section. We supply free maps of every acre we own in the heart of Saskatchewam.

Large Map and 90-Page Book Free Our map shows each and every section we own. It gives you a true picture of our holdings. It shows just how we selected the most fertile and best located acres available in the entire Province of Sakatchewan. It shows how ideally the lands are situate—how near Regina, how convenient to Winnipeg and the grain and stock markets, and the excellent railroad facilities. Free. Write for the map to The Saskatoon & Western Land Co., Ltd., Regina, Saskatchewan, Canada.

Our book is a storehouse of information on Western Canada grain lands. Contains ninety pages, and many faithful photographs of land,

The Saskatoon and Western Land Oo.'s
Land is Extra Choice Grain Land.
You Get Title From the Crown
—An Indisputable Title

The Saskatoon & Western Land Co. Ltd., had the pick of 3,000,000 acres of best Saskatchewan prairie lands. We took in our grant extra choice acres—not all in one continuous piece, but a section here and there, so as to get the most fertile, the deepest soil, ground free from boulders, with best water, near railways—in fact, land ready for the plow, ready to yield the golden harvest and make profits from the very first. Think of it! 250.000 acres of these lands to be offered at public auction.

THE AUCTION

The Saskatoon & Western Land Co.'s auction will be held at Regins, Saskatchewan, Canada. Nowhere else. It will be held in The Saskatoon & Western Land Co.'s own pavilion—nowhere else. It will be held Oct. 12, 13, 14, 15, 16, 17. Remember those dates. Don't get there late. Be on hand early. Don't buy, under any circumstances, of anyone until the auction is on—no matter what you hear. The Saskatoon & Western Land Co.'s land is extra choice. Don't take somebody else's word that they have land "just as good."

This land was especially selected—its title is from the Crown. The terms of payment will be the fairest. You will be dealing with a wealthy company that will always stand behind every promise and give you the most liberal treatment you can ask.

io per cent. of the purchase price at time of sale, balance of regular first payment of \$3.00 per acre in ten days, remainder in eight equal annual installments, with interest at 4 per cent. Survey fees of 10 cents per acre, payable with last installment and without interest. Upon a parcel being knocked down, the bidder shall immediately make the deposit of 10 per cent. of the purchase price with the Clerk of Sale. Otherwise the parcel may be put up again or withdrawn from sale.

One Crop Will More Than Pay For the Land

Figure it out yourself. The average Saskatchewan yield is: Wheat, from 20 to 25 bushels per acre; Oats, from 30 to 45 bushels per acre; Barley, from 20 to 30 bushels per acre—and so on.

Free Railroad Fare to Buyers

Every purchaser of 160 acres or more of The Saskatoon & Western Land Co.'s land will have the entire price of his railroad transportation paid back to him. You buy your ticket on the very low homeseekers' rates all the roads give, and we pay it back. That is an inducement for you to come to the auction and to buy now.

When purchasing your railroad ticket, get a regular railroad receipt from the railroad agent showing the point from which you start and the amount paid, also the name of the railroad company, the date purchased and the signature of the railroad agent.

Railroad Rates, Excursions, etc. On Sept. 29 railways issue homeseekers' excur-sion tickets for \$35.75 from points in Ontario and Quebec to Regina, Sask. Ask your ticket agent for particulars.

DETROIT CAPITALISTS ARRIVE.

World Office,
Saturday Evening, Sept. 26.
The market for Cobalt stocks during the week was fairly active, tho value of the shares purchased, not including to-day's trading, being nearly \$70,000. After so sharp an advance as has occurred, it was natural that there should be somewhat of a settling down process, but in no instances were there any marked reactions. Crown Reserve, which showed some tendency to sag, closed the week with a spurt and is now selling again above, the \$1.70 level. Undoubtedly, the features of the week have been the strength of La Rose and Trethewey. The former reached the \$6.50 level in to-day's transactions on the New York curb. The fact that it has been consistently strong since the dividend declaration on Wednesday, indicates confidence that the dividend declaration on Wednesday, indicates confidence that the dividend is not only to be maintained, but increased. Trethewey is looked upon as one of the sterling morning investments and the buying is of excellent chafacter. The shares reached \$1.58 to-day, on very brisk buying. Chambers-Ferland touched 80, and Silver Leaf was practically higher on good, active trading.

Why London is Not Following Rew York maney and York's Pase.

NEW YORK, Sept. 26.—The Post's London cable says:

Newspaper comment here on the Wall-street markets of the week is caustic. Speculators in "Americans" who like excitement, they remark, are getting full value for their money. Financial interests here expect more "election scares" on your stock exchange, but will take them no more seriously than they are taking the sudden recovery in prices of the past few days.

This attitude is based, no doubt, on the fact that our sober financiers still look on Bryan's election as impossible. But, while holding this attitude on your polities, they make the unhesitating comment that such financial and economic power as America possesses is being simply wasted in holsting the price of shares, and would be better employed in fostering genuine trade improvement.

After your election we look for reaction and sagging prices in your market. That would go very much farther towards attracting the foreign investing public than another "boom." It is true that the recent Wall-street "slump" evoked fair huying of your securities from England and the continent, but profits were hastily snatched.

Inquiries are coming from your side as to what would be the result, from the European point of view, if Bryan were to be elected. The answer is, that its effect on the high credit now enjoyed abread by American bonds would be disastrous, and

to what would be the result, from the European point of view, if Bryan were to be elected. The answer is, that its effect on the high credit now enjoyed abroad by American bonds would be disastrous, and that the credit of the New York money market itself, would be gravely injured.

The "overnight buying orders" in American stocks at London, which last Wednesday put up prices a point or more above your level before the New York market opened, are becoming a matter of mere routine as a sequel to Wall-street "slumps." Where such orders do not reflect mere arbitrage transactions, they represent the manocurre of New York operators to create an appearance of great strength in London, on the basis of which they may sell stocks in their own market when it rises to London parity at the New York opening.

It does not mean English buying. As to that, your people must remember that, in any revival of the speculative spirit here, our own home markets are more attractive than yours, notably English rails and Kaffirs. The point on the railway shares is talk of closer working relations.

Continued strength in the wheat market is expected. Beerbohm remarks today that if anything was required to demonstrate the peculiar position of that market, and its fundamental strength as a result of exhausted supplies, it would be found in the rise of prices during a fortnight in which has occurred the largest movement ever known of American and Canadian wheat to market.

It is earnestly hoped that the Lancashire cotton trade strike will be soon ended, but if the price of cotton meantime rises, The Economist considers that one effect may be to draw gold from America instead of cotton.

Trade on the European commercial markets is still stagnant, but the outlook of India is better.
