KAISER IMPRISONS PRINCE Orders Two-Day Detention in Home for Breach of Etiquette.

LONDON, Feb. 7.—The Standard's Munich correspondent says according to information received from Berlin the Kaiser has condemned the Crown Prince to forty-eight hours detention in his own palace. His offence consisted in an insignificant, apparently harmless, mistake which is held to have compromised the honor and dignity of the imperial family.

It is customary in Germany when any royal personage goes to the theatre that a telephone message be sent in advance to the managers requesting that the royal box be reserved. The notice is not given in good time the royal box is sold to the first comer.

The crown prince appeared at the Theatre des Westens in Berlin without giving notice of his intention. When he arrived every box stall had been sold. As it was not possible to turn out the other theatregoers from the seats they had bought, the crown prince had to give up his anticipated entertainment. The Kaiser, on hearing of the incident, was greatly annoyed at his son's thoughtlessness and ordered the punishment which is known in Germany as *Stubenarrest*.

MINERS WILL GET INCREASE

That's the Opinion of President Lewis—Means Deeper Coal.

WHEELING, W. Va., Feb. 7.—President T. L. Lewis of the United Mine Workers of America is confident that the miners and operators, despite their failure to agree at the Toledo conference, will get together before April 1, when the present wage scale expires, and that the result will be a substantial wage increase for the miners all over the country.

In a statement tonight, President Lewis said, in part: "The prospect for a settlement of the wage scale between now and April 1 will be based entirely on the willingness of the operators to grant an advance in wages to the miners. An advance is due and a settlement can be reached unless it is granted."

"To me the outlook is not in any way gloomy," in my judgment, the miners of the country will be at work on and after April 1, and the wage contract will carry with it a substantial increase of the miners all over the country."

President Lewis says the wage scale set up not taken up by the operators because of the failure to organize the conference, but that the miners, despite their failure to agree at the Toledo conference, will get together before April 1, when the present wage scale expires, and that the result will be a substantial wage increase for the miners all over the country.

He declares that mining must be made profitable and he believes the operators would furnish more efficient safety appliances if it were not for the competition of industries and railroads to compel the operators to furnish material to railroads at a high price for their own use.

President Lewis says the operators will have to reach a higher price for their own use.

STRIKE BOOMS MEAT PRICES

That's Pittsburgh's Experience—Eggs Are Also Dearer.

PITTSBURGH, Pa., Feb. 7.—With the opening of the second week of the thirty-day meat boycott here, meat continued to rise in price. Eggs, too, entered on the verge of a rise. The store egg is fairly out of the Pittsburgh market, and the fresh article has not yet entered the field in sufficient quantity to make its presence felt.

Dunlop, who was badly cut and burned by a piece of red hot sheet iron from the side of the building.

The Agent's Delicate Task. The agent has a delicate task before him. His candidate always wants to be doing something novel. The other side are flooding the division with circulars in three colors. Why don't we send one out in five colors? and so on. It is all very well, but the agent ends meet at the finish, and he must always keep something in reserve for an emergency or a big final splash.

Keep in mind the dominant fact that mankind from its first appearance on the earth has been schooled by nature to look for signs
