TRENCH TRAINING AT CAMP BORDEN

First Battalions Entered Into New Routine on Monday Morning.

FIRST BRIGADE SPORTS

Hamilton Highlanders First With Toronto Battalions Second and Third.

By a Staff Reporter. CAMP BORDEN, Ont., Aug. 28.—At 10 o'clock this afternoon the 147th and 156th Battalion, Lieut.-Col. G. F. McFarlane, commander, and the 27th and 147th St. Marie and Sudbury Battalions, Lt. Col. Jones commander, entered the two great areas of trenches at the northern end of Camp Borden and inaugurated a brand new method of training in Canada. The system of trenches is quite elaborate. These two battalions will occupy the trenches until 4 o'clock tomorrow afternoon when they will be relieved by the 122nd Muskoka Battalion and the 157th Simcoe Battalion. The 147th and 156th Battalions occupying the trenches tonight are now practically living under active service conditions as existing on the western front in France. The two units entered the trenches in full marching order, equipment and including blankets. Their entry into the area was unobtrusive, as instructions had been given by Colonel Bickford, general staff officer, that the soldiers were not to show themselves above the ground. They entered from the rear of each area. All that could be seen were the heads of some of the men bobbing just above the ground as they marched thru the communicating trench leading to the trenches facing on "No Man's Land." It is expected that every battalion in camp will spend one day in the trenches once every two weeks.

The opening contest for the first trophy cup to be presented by Sir John H. Macdonald, lieutenant-governor, for the championship bayonet fighting team, was held at the Camp Borden athletic grounds tonight. The team representing the 147th Battalion, Great-Comby, won from the Sportsmen's 180th Battalion by the score of six to four, leading to a final contest. The new administration building was opened today for the first time, the offices of the general staff and medical officers being transferred into it. The new building is a fine structure and is 25,000 sq. ft. in area. It is a fine example of modern architecture and is a credit to the military engineers who designed and built it. There are 233 cases in the camp hospital. Forty-three cases are being discharged as well today.

In the field sports of the first brigade, held this afternoon, the 173rd Hamilton Highland Battalion carried off the honor of competing against the 170th Mississauga and the 304th Beavers of Toronto. The results: 100 yards race—1, Pte. Winter, 170th; 2, Pte. Cox, 304th; 3, Lt. McKellar, 304th. Mile race—1, Pte. Sherry, 170th; 2, Pte. Conroy, 173rd; 3, Pte. Elcomb, 170th. 400 yards race—1, Wm. WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

the population of both cities will naturally complicate the problem of the Austrian defenders. Unless all signs fail, Italy's declaration of war against Germany and Roumania's opening of hostilities in Transylvania will speedily put an end to Greece's indecision. In this connection, the comment of The Lokal Anzeiger that Germany must expect the Greek Government to be influenced and that the central powers must keep on fighting, "no matter how many more new enemies," carries clear significance.

The Serbians not only continue to repulse Bulgarian attacks in the Lako Ostrovo region, but in Macedonia, west of the Vardar, they are making material progress in what is officially referred to as a "vigorous offensive." The Bulgarians continue to occupy various positions yielded by the Greeks west of Kavala. British monitors are taking advantage of the proximity of the enemy to the coast to drop an occasional shell in their midst. The French war office reports the bombardment of Bulgarian forces at the mouth of the Struma by British ships lying off shore.

The armies on the western front are still in the grip of stormy weather, and as a result only minor operations are reported. These include further slight progress east of Delville Wood and successful raids near Mouquet farm by the British, whose long range guns are being used effectively in bombarding enemy positions between Bapaume and Miraumont.

Repulse of a German attack on the right bank of the Meuse, east of Fleury, was the only outstanding incident on the French front.

On the eastern front the opposing armies are still marking time, broadly speaking, altho the Russians continue to make progress toward the Town of Halicz, on the Galician railway, while in the Dniester region, north of Mariampol, they have taken the wood east of the Village of Deleuv.
