

TO WATEROUS GETS CONTRACT FOR NEW FIRE ENGINES

Will Be Fitted With Quick Heating Appliance—Assessments in the Fifth Ward.

The board of control yesterday awarded the contract for two steam fire engines to the Waterous Engine Company of Brantford at \$13,400 each. The specifications call for rubber tires and a capacity of 1200 U. S. gallons per minute. The Waterous Company was not the lowest tenderer, the Canadian Fire Engine Company of London having set a price of \$13,400 on the engine, but Chief Thompson reported that this company had not built a machine of the capacity required by the city, while the Waterous Company had. It was also decided to install water heaters in the engines in order to have steam up at all times. The contract for the two hose wagons was given to J. A. Darch of Toronto for \$1884 each.

Chairman Fleming of the fire and light committee asked for ten extra firemen at once. He had instructed the chief to prepare a report on each individual member of the department. They were five men short and on an average had five or six years' experience. The chief said that five men were not enough on a hose company and there should be six as in United States cities. The matter stands over until Wednesday.

Remembering Endorsed.
The board endorsed Ald. Harrison's proposition to have the city remembered on the block sign for the fire committee had adopted it in so far as it related to third streets and its report was sent back for further consideration.

The proposal to purchase the John Macdonald property on Collins street, 444 feet frontage and 173 feet deep, at \$30 per foot, was adopted, and \$500 granted for cutting the burdock on and grading Ramsden Park. The application of the Purdy Manufacturing Company to erect a soap factory on Birch-avenue was held over till Wednesday.

G. F. Shepley, K.C., was retained in the appeal against the judgment in favor of the electric light companies. The report of the assessors of the fifth ward shows an increase in the assessment similar to that made in the other wards. The values of land are greater by \$283,546; of buildings, \$767,093; of personality, \$276,200, and of income \$1000, or a total of \$1,316,839. The population has increased by 1579, or 2.73 per cent, a greater increase than is shown in any other excepting the first ward. This is taken to show that the centre of the city is fully settled, and the people are forced to the outlying districts.

The increase in the land assessment was made principally in the district north of Arthur and Dundas-streets. The rise in values is almost entirely confined to residential streets. While in 1901 there were 214 parcels of land in arrears for taxes, 73 per cent, there have been paid up since and fifty-eight lots are now so situated.

There are 3125 dwellings in the ward occupied by their owners and 4054 by tenants. 296 have been built since last year, and 187 are in course of erection. The increase on personality is due to the assessment of plant and machinery, which were formerly exempt.

Exemptions Increase.
There are twenty-six churches in the ward assessed for \$275,000, which are exempt from taxation, as well as various missions valued at \$25,000. The total exemptions are \$37,379 greater than last year. The value of the Methodist Church, valued at \$25,000, was taken down and the Bathurst-street school, \$45,750, has been turned into a factory, but Harvard-street Methodist Church, valued at \$25,000, has been added and church property has increased \$34,129 in value. There are thirty-five factories employing 2528 hands and 147 stores occupied by owners and 262 by tenants. Two stores have been completed and seventeen are now in course of erection.

BLAME AND PRAISE.
Board of Steamboat Inspectors Report on Steamboat Disaster.

New York, Sept. 23.—The board of steamboat inspectors who have been investigating the General Slocum disaster, report that the licenses of William H. Van Schaick, master and pilot; Edward Van Wart, pilot, and Benj. F. Conklin, chief engineer, be rescinded because of negligence on this occasion by Mr. Everett Brandow, second engineer of the steamer, in the performance of his duty, who remained at the throttle of his engine answering all bells promptly. His services were no longer required, this notwithstanding the commotion and panic on the steamer at the time without observation from his post in the engine room what the chances might be of saving his own life.

The report also commends the captain and crew of the Franklin, the Massachusetts, the Walter Tracy, the Warden, the Director and the Golden Rod for saving lives from the Slocum.

Stampede to Get Work.
Chicago, Sept. 23.—The nine-month struggle of the miners and boiler-makers of the Chicago Lake Shore and Eastern Railroad against a 10 per cent wage reduction is at an end. The company announced it would reinstate as many of the former employees as possible at the lower wages. The result was a stampede of more than half of the 400 strikers, which caused fighting and brought out the police.

Deaths on Liberia.
London, Sept. 23.—Sir Harry Johnston, the well-known traveler and former consul-general for the Uganda protectorate, who recently returned here from a visit to Liberia, is quoted in an interview as saying there is no doubt that France is endeavoring to take advantage of the boundary dispute, a portion of the territory of the Liberian Republic.

HOW THEY GET CONSUMPTION
Do you know that seventy-five per cent of the "lungers" contract consumption because their power of resistance falls so low that favorable conditions are provided for the bacilli to develop. In a vigorous healthy system consumption can't take root. But in the presence of debility and weakness it finds an easy victim. In other words, weakness is your real tuberculosis.

Nothing so far discovered equals Ferrozone in building up the weak in developing strength, in forming nutritious blood and enduring nerves. It's hard to credit the appetite it gives, its power to digest and convert food into the kind of nutriment the system needs. Ferrozone supplies exactly what the man verging on consumption requires. If tired and weak, try it. 50c per box, or six boxes for \$2.50 at all dealers or Folson & Co., Hartford, Conn., U. S. A. and Kingston, Ont.

SATURDAY MORNING

THE TORONTO WORLD

SEPTEMBER 24 1904

TO THE TRADE:

We are now ready to supply your requirements for Fall Trade, our stock of seasonable lines being very complete. Our travellers are now all on the road and will wait upon you at an early date. Our values are exceptional, and being the **STANDARD GOODS** of the Canadian market, it will pay you to handle only our lines of Brushes, Brooms and Woodenware, and thus avoid carrying what is commonly termed "dead stock." We pay special attention to **Quality, Durability and Finish**, thereby ensuring entire satisfaction to your customers.

Boeckh's and Bryan's Brushes

Are made in all suitable lines requisite for painters, artists, household, factory and stable use—in short,

"A Brush for Every Known Use."

They are the best made, and consequently the best selling lines—bar none.

Boeckh's Standard Brooms

Are made from corn personally selected by our buyer right in the broom corn belt, thus enabling us to secure first quality materials at prices which make it possible to give exceptional values to our customers.

Made in all weights suitable for household, store or factory use. Our bamboo handle broom is far the best line for first-class trade. It pleases the ladies every time.

Boeckh's Whisks and Toilet Brushes

Comprising a complete line of household, factory and store whisks, hair, tooth, nail, bath and shaving brushes.

Special care is used in the preparation of our brush corn for whisks, giving them that silky, soft top, which dust is easily removed from the clothes.

Cane's Newmarket Pails and Tubs

Are noted for their durability and extra finish. Only selected materials are used in their construction.

The Wire Hoop Tub and Pail is especially attractive, and is practically indestructible, owing to the hoops (which are electrically welded) being sunk in grooves, which makes it impossible for them to fall to pieces.

Cane's Newmarket Washboards

All are good, some better than others. We specially recommend the **SUPERIOR SOLID BACK GLOBE**.

It is a good general purpose board, strong, made, and never fails to give satisfaction. It has been long tried and has stood only the best.

Cane's Wood Packages

Requisite for candy, lard, spices, pickles, oysters, jams, cobanaut, stock foods, paints, varnishes, shells, etc. When printed are a good advertisement as well as the most convenient and best package on the market.

Are you acquainted with our wire hooped goods? If not, write us for particulars. It pays you to handle only the best.

Cane's Newmarket Clothespins

Are put up loose in boxes or in 4 and 6 dozen cartons, which are very attractive and suitable for first-class trade.

We guarantee every pin a perfect one and full count in every case. It pays you to handle only the best.

Our lines are stocked by the principal Wholesale and Retail Hardware, Paint and Oil, Grocery, General Store, Saddlery and Drug Trade.

OUR NAMES AND BRANDS ARE ON ALL LINES OF OUR MANUFACTURE.

WARREN SUCCEEDS FACKENTHAL

As Receiver of the Michigan Lake Superior Power Co.

President C. D. Warren of the Lake Superior Corporation was yesterday appointed receiver of the Michigan Lake Superior Power Company. Benjamin F. Fackenthal of Pennsylvania, having retired. The move is made toward straightening out the tangled due to the collapse of the Consolidated Lake Superior Company. All properties are being brought under one management to decrease expenses and increase profits. Mr. Warren is spending a great portion of his time at the Soo, and it was considered by the directors that under his supervision and that of the general manager the matter could be handled a good deal better than thru a foreign official.

PET BEAR ATTACKS BOY.
Incident on Dundas-Street, the 'Son of Which is Not Yet Known.'

While a gang of men were at work in a mill on Dundas-street a few days ago they heard the screams of a child in agony, and rushing to the scene saw a four-year-old Arthur Quinn in the grasp of a pet bear kept by A. W. Nixon of 559 Dundas-street. The animal had sunk its teeth into the child's leg and was clawing and scratching the little fellow. Quinn was walking up the street with a lad named Bailey, and as they passed the bear's abiding place Bailey took the little fellow's hat off the bear made him. Arthur climbed over the fence to recover his hat, and when the father heard about the story he started out to slay the animal. The magistrate issued an order to have the animal destroyed. Two policemen went to shoot it, but Nixon was out. When they found him he threatened to shoot any man who tried to kill his pet, and may have to answer charges of disobedience of the order of the court.

Killed by a Ton of Coal.
Port Arthur, Sept. 23.—(Special.)—Last night shortly after eight, while the last of the Midland King's cargo of coal was being taken from the hold at the C.P.R. coal dock, Port William, about a ton of coal dropped from the top of the derrick, striking full upon the head of Mitro Grogolinsky, killing him instantly.

Death Sat at Banquet.
Frontenac, N.Y., Sept. 23.—(Special.)—Last night at the banquet of members of the Western Union of Fire Underwriters last night, H. M. Magill of Cincinnati, while responding to a toast celebrating the 25th anniversary of the organization, fell forward and died soon afterward.

Died in London.
Chicago, Sept. 23.—A cablegram received here announces the sudden death of apoplexy in London of Dr. Samuel Lewis Carstairs, senior professor of the Chicago Theological Seminary, and a leading Presbyterian churchman of the west.

Russian Goes West.
Kingston, Sept. 23.—A C. C. Rutten, son of Henry Rutten of this city, has been appointed manager at Winnipeg for the extensive western interests of the grain firm of James Richardson & Sons, in succession to Edward O'Reilly, deceased.

Lady Curzon Critical.
London, Sept. 23.—The condition of Lady Curzon of Kedleston, wife of the Viceroy of India, who was taken ill two days ago, is still critical, but was slightly improved this morning.

CANTERBURY IN A WRECK

NONE OF PARTY INJURED

Special Train Crashed Into Vagrant Engine While Going 60 Miles an Hour.

East Brookfield, Mass., Sept. 23.—A special train conveying the Archbishop of Canterbury from Bar Harbor, Maine, to Washington, was wrecked on the Boston and Albany Division of the New York Central Railroad near the station here this morning. The archbishop was not injured, although considerably shaken up. J. Pierpont Morgan of New York, who was also on the train accompanying the archbishop, was also shaken up but not hurt.

The special, running at the rate of 60 miles an hour, was just passing the station when a detached locomotive, which had been drawing a train on the North Brookfield branch, ran on to the main line. The engineer of the special sighted a danger signal, but owing to the high speed of the train and the slippery rails due to the mist of early morning he found it impossible to more than slightly reduce the speed of his locomotive. The engineer of the train engine heard the on-rush of the special, but had not time to move out of the way.

The archbishop's train struck the North Brookfield engine with a terrific crash and demolished it. The locomotive of the special was thrown from the rails and landed across the east-bound freight train. The cars did not leave the rails.

With the archbishop, besides Mrs. Davidson, Mr. Morgan, were Rev. Hyla Holden and Rev. J. Ellison and attendants. It was rumored that a limb was hurt, but her injuries were not held to be serious. Traffic on the road was blocked for some time.

On to Washington.
The Archbishop of Canterbury's special train, with a new engine, resumed its trip to Washington just before 10 o'clock.

None of the occupants had left their berths except Mr. Morgan, who was at the breakfast table when the crash came. Large plate glass mirrors in the cars were broken, as were also several of the breakfast dishes. Mr. Morgan was thrown forward but was not pitched from his seat. The members of the archbishop's party were also badly shaken up, but none except a maid, who was slightly bruised, were injured.

CANTERBURY AT ALBANY.
Albany, N.Y., Sept. 23.—His Grace the Archbishop of Canterbury arrived here at 12 o'clock this afternoon, four hours later than the time he was expected. He and his party, including J. Pierpont Morgan, were met at the Union Station by Bishop Doane and

Couldn't Prove an Alibi.
Harry May was convicted yesterday afternoon at the sessions on a charge of having broken into John Moses' cigar factory and having stolen 34 boxes of cigars, which he immediately disposed of. May and his wife tried to prove an alibi, but could not convince the jury.

Fire in St. Kitts.
St. Catharines, Sept. 23.—About 2:30 this morning a fire broke out in Jean's confectionery store and burned fiercely, threatening the departmental store of McLaren & Co. The firemen succeeded in confining the flames to the rear part of the building.

Wood's Phosphorine.
The Great Relief Remedy, which cures all forms of Nervous Weakness, Indigestion, Rheumatism, Impotency, and all effects of abuse or excess, the excessive use of Tobacco, Opium or Stimulants, Mental and Physical Exhaustion, and all other ailments, is sold in the Dominion of Canada, and is recommended as being the most reliable and most effective of all remedies.

Colds Come Suddenly
You haven't time to hurry to the drug store. Croup develops, the lungs are inflamed, and you are in a bad way. Keep Catarrh on hand. It cures a cold instantly. Something magical about the way it cures catarrh and all bronchial trouble. Catarrh cures in a moment, cures in nature's way. But the 25c, and guaranteed—that's Catarrh.

SMOKE OUT OFF ESCAPE

BUT DANGER SOON OVER

Noon-Day Fire in Gooderham-Worts Building Was Exciting—Firemen Suffer From Falling Glass.

Falling glass at a fire in the Gooderham & Worts building, Church and Front-streets, yesterday, injured several firemen. Foreman Sweatman of Bay-street chemical, while descending a ladder, was struck on the head and sustained a scalp wound necessitating six stitches; Fireman Beasley of aerial No. 2, who was on the ladder, was struck by the knuckle bone being cut away, and Fireman Dixon of the same truck had his arm cut, while several others received minor injuries.

The blaze occurred at 1 o'clock, thru the sudden flaring up of an alcohol stove in the office of the Standard Chemical Company on the fourth floor. When the fire department arrived the smoke and flames were pouring out of the building, and the fire was in the fifth floor, where Mrs. Nelson, wife of the caretaker, and her little girl seemed in danger from smoke, while the 50-foot ladder from the Bay-street truck was being used to reach the fire.

By the time the fire was under control, the fire had spread to the second floor, and the firemen were fighting the fire on the second floor. The fire was in the fifth floor, where Mrs. Nelson, wife of the caretaker, and her little girl seemed in danger from smoke, while the 50-foot ladder from the Bay-street truck was being used to reach the fire.

IRISH RACE PASSING.

John Redmond Warns Audience of Fate of the Celt.

Chicago, Sept. 23.—To a big audience of his countrymen John E. Redmond, Irish Nationalist, has uttered this warning: "Our race is slipping from its moorings—it is dying. If we are passive and inactive Ireland will cease to be the home of the Celt. There are more old men and little children and fewer young men and women than there was in any other country on earth. The death of the race can only be averted by action by the living. We must not neglect an opportunity."

Then he made this prediction: "We shall see our opportunity. Before the oldest man in this audience is dead Ireland will have won a good measure of self-government."

Mr. Redmond declares he wanted to take back to Ireland with him fifty thousand subscribers to the Irish Nationalist. Following his plea, Chicago Irishmen already had subscribed \$4000.

Resolutions were adopted declaring that the "certain, fixed and positive demand of the Irish people is, and forever shall be, 'Home Rule for Ireland.'"

It was explained that by "Home Rule" was meant the vesting of the government of Ireland in a parliament assembled upon the soil of Ireland independent of all influence.

In the Police Court.
James Ball, upon his own authority, struck Louis Lyons (fellow-workman) in the eye because he thought Lyons needed to be chastised. It cost him \$5. Religious scruples prevented S. B. B. from kissing the Book. He would not swear by a Christian Bible. The magistrate became irritated and bade him stand down. Consequently his charge of assault against the defendant was dropped.

Smith during the exhibition and that a stroll with her resulted in the disappearance of \$20. The case will come up again.

STRAINED HIS BACK WHILE LIFTING
Was in a Bad Way Till He Used Dodd's Kidney Pills.

They Removed the Bad Effects and Now William Sharram is as Well as Ever Again.

Murray Harbor South, P.E.I., Sept. 23.—(Special.)—Hurt through straining his back while lifting, William Sharram, general storekeeper here, got so weak that he could scarcely hold up. To-day he is enjoying the best of health once more, and when asked how he got his health back he enthusiastically answers, "Dodd's Kidney Pills."

"Having strained my back with heavy lifting," Mr. Sharram says in telling his story, "it brought on Urinary and Kidney Trouble. I got so weak that I almost fainted and could scarcely hold up. I was terribly troubled with having to get out of bed so frequently to urinate."

"After using many medicines with no good results, I tried Dodd's Kidney Pills. I have used ten boxes in all, and now I can sleep without being disturbed by my old trouble has vanished."

Dodd's Kidney Pills cure the Kidney, Cured Kidneys cure numerous diseases, including Rheumatism, Dropsy and Bright's Disease.

Doctors to Examine Him.
The moment that George Kennedy, who came up before the general sessions on a charge of assault, mentioned that he had recently spent nine months in the Hamilton Insane Asylum, the court refused to accept his plea of "not guilty." Kennedy is answering a charge of manslaughter a constable after he was fined for trespass in the police court at Toronto Junction last Friday. The jail doctor will make an investigation into his sanity.

HIT A LIVELY CAN.
Port Arthur, Sept. 23.—(Special.)—A peculiar accident happened at Schreber yesterday. A number of trainmen were engaged in a contest, using tin cans as marks. An old dynamite can was shot at and hit dynamite. A piece of the can struck Engineer Air in the neck, inflicting a serious wound. He was brought to the hospital here.

IN TRYING TO SAVE, WAS KILLED.

Mrs. Pendleton, a Widow, Thrown From Car—Companion Injured.

In an endeavor to save her young companion from a fall while alighting from a car at the corner of Howard and Sherbourne-streets on Thursday night Mrs. Pendleton, a widow, in the employ of Hon. George E. Foster, Rochester, fell to the road and was severely injured that she died yesterday morning.

Mrs. Pendleton and Miss Mabel Smith, boarded a car and were standing on the platform when the car started. They realized in the lower step, made a movement to get off, but Mrs. Pendleton tried to stop her. The result was that both were pitched to the ground. They were taken unconscious to Crutenden's drug store, at the corner of Howard and Sherbourne.

Mrs. Pendleton's injuries were a fractured skull and concussion of the brain. Miss Smith, suffering from a concussion and is now at the General Hospital, where it is thought she will recover.

LIGHT IN THE DARKNESS.
Toronto Telegram: The political situation is not exactly comfortable. We have three seats vacant, the parties tied at the magic number of 37, the government majority consisting of the speaker alone, and two protests yet to be heard from.

Under such circumstances public attention naturally, even if grudgingly, goes to the representative of the crown, the lieutenant-governor.

And the lieutenant-governor, who is reported to consider it a most outrageous impertinence for the papers to approach the lieutenant-governor of the province on a question of duties, is also reported to offer the following words of soothing import:

"I know very well what I shall do when the proper time comes."

The people are entitled to be satisfied at that. No question on that score is raised. Nor is there any question of the propriety of the lieutenant-governor's action in such a situation.

We have it on the authority of an ancient saw that a cat may look at a king. To seek to obtain a lieutenant-governor's "views on his duties" may not be a wisely planned enterprise, and for a lieutenant-governor to hand out program of his action in such a situation in advance would be less wise.

But the face of a peculiar political situation the minds of the people of Ontario may, without impertinence, entertain the thought, "What is the lieutenant-governor going to do about it?" or "Will the lieutenant-governor do anything?"

The innocent curiosity on the part of the people takes for him the newspaper attentions to which the lieutenant-governor objects. His honor quite properly keeps his own counsel as to what he is going to do, but the honest curiosity of the people is not to be denied. It is a curiosity which is scarcely what would be expected from a public man.

AWARDED \$4500 DAMAGES.
For the death of her husband, who was killed by a G. T. Z. train some time ago, Mary Ann Hockley got \$4500 in the amount of damages. Her infant child got \$1500.

The sum of \$208 was awarded to Albert Dyer in whose wagon Mr. Hockley was driving when the train killed him.

Killed Deformed Son?
Binghamton, N.Y., Sept. 23.—Charles B. Hotelling was indicted by the grand jury here to-day, charged with killing his three-year-old deformed son in the Town of Vestal, a few months ago.

Bad Case of Granulated Lids Cured
by Prof. H. T. Schlegel's Magic Eye Lotion.
