Council turned Langton's name down, and now the only question before them is whether they will have a commissioner or not, no name being mentioned. There is no doubt about a commissioner being favordoubt about a commissioner being favored and unless a nomination is made in council and the appointment made, Col. Langton will be again recommended, as a majority of the controllers favor him. There is a movement afoot, however, to make Ald. David Spence commissioner, and it is said that the whole question has been purposely kept open so that there might be time enough to get a two-thirds majority in council to elect Ald. Spence. This may or may not happen on Monday, but many of the aldermen think that Ald. Spence would make a good commissioner. They say he is a good business man and has shown his interest in public affairs by the time he has given to the city's interests.

The note of President Wilson to the German Government divides editorial attention in the London papers today with the Italian crisis. It is thought also that certain head-quarters on Broadway that have been taking a more philosophic interest in the activities of German warships, the return to Germany of some of, her reservists and forwarding of contraband supplies, besides flooding the country with printed matter and news items of all kinds, will find their opportunity for business to approximate hereafter conditions on the New York Stock Exchange as they were on August 3, 1914.
