FINANCIAL and COMMERCIAL

BILLIONS MELTED AWAY DURING THE LAST YEAR

(New York Journal of Commerce.)

The extent of the declines in many instances can scarcely be realized. The very first stock on the list, Allis-Chalmers, has dropped from 27 1/4 to 4 for the common and from 51 to 25 for the preferred. American Can, which sold up to 35, is down to 24 1/4. Ice securities has slumped from 36 to 25. Woolen preferred from 110 1/4 to 75. Colorado Fuel preferred from 115 1/4 to 35. Federal Mining from 190 to 85 1/4. Air Brake from 105 1/4 to 55 and so on. The following table gives the high price since 1906, the low up to Friday evening, the capital outstanding and the difference between the market value at the top and the bottom:
