costly folly That is why foremost beauty experts of the world advise this simple daily rule in gaining the charm of natural loveliness.

THE modern way to beauty is well charted. Leading skin authorities urge it. Thousands of beautiful women employ it. To endanger your complexion with untried ways is a folly.

Before Palmolive came, you were told "use no soap on your face."
Because soaps then were judged too harsh.

Then came this famous creation. A soap made of rare beauty olls in expert blend. A soap made to be used lavishly on the skin. A soap that changed the beauty methods of the world.

Thus today the accepted beauty care is simply the balmy olive and palm lather of Palmolive used in this simple way. Beautiful complexions are too priceless for experiment.

They must be washed away.

Get real Palmolive

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

Try this one week . . . note the changes in your skin Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be

It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces.
