SPORT NEWS OF A DAY;
AT HOME AND ABROAD

Bowling

K. of C. League.

The Knights of Columbus bowlers are getting into their swing, and last night's scores were better than made on the opening night. The team captained by Louis J. McDonald, took three points from that led by P. J. Fitzpatrick. The matches are played on the Victoria alley, Charlotte street. McDonald led his team last night with 84 and Frank O'Neill was high man for the losers with 77. The scores were:—

No. 4.	No. 4. Won.	Total.	Avg.
H. O'Neill	81	72	85
U. Sweeney	78	72	82
McGivern	87	82	82
McDonald	74	83	83
Cronin	70	79	79

No. 3.	Total.	Avg.
P. Fitzpatrick	80	71
Owens	72	81
Griffiths	61	70
F. O'Neill	63	69
Dever	70	72

On Black's Alley.

At Black's bowling alley last night the Miners defeated the Shamrocks by four points to 0. The score follows:—

Total.	Avg.
Miners	69
Landy	78
McGowan	78
Colgan	82
R. Colgan	82
McGowan	75

Shamrocks.

Total.	Avg.
Crowley	69
Dwyer	69
T. Collins	81
C. Collins	64
M. Collins	74

The Maple will play the Shamrocks to night.

Bert Gilmore Won Weekly Roll-off. The weekly roll-off in Black's alley last evening was won by Bert Gilmore with a score of 88. Two league matches will be put on tonight. In the Commercial T. McAvity & Sons, Ltd., and Macaulay Bros. & Co. will meet, while in the City League the Shamrocks and the Miners are to play.

The entries for the Brunswick Ball Colander trophy are coming in very well and it is expected that more teams than ever will compete. Already Fredericton, Halifax, Sussex, Y. M. C. A. and Black's have entered and others are expected within the next few days. The trophy is at present held by Black's team.

Y. M. C. A. League

The Bulgarians took three points from the Beavers in the opening match of the season on the Y. M. C. A. alley last night. Stevens of the Beavers with a line average of 85 was high man. Sloum led the winners with 92. The scores were:—

Hockey Intercollegiate.

Frederickton Gleaner:—Will the Intercollegiate Hockey League be reorganized this winter? That is the question in which the students at U. N. B. are interested at present.

Beavers.

ago. The students are anxious to have the

DODD'S

Hockey

Fredericton Glaciers—Will the Intercollegiate Hockey League be reorganized this winter? That is the question which the students at U. N. B. are interested at present.

The interest in baseball at U. N. B. is not as great as it used to be a few years ago. The students are anxious to have the

hockey league revived, and they will divert their whole attention to hockey.

Both Acadia and Mount A. are anxious to have a league and it only remains for one of the three colleges originally in the league to take the initiative in forming the league this winter.

Last year the league passed out of existence owing to the representatives of the faculties voting against its continuance. That action on the part of the faculties, particularly as hockey is Canada's national sport, was most unpopular and the faculties will probably not object to the league being revived.

At the time of the Mount A.—U. N. B. game at Sackville this fall, the Mount Allison boys were also anxious to have a hockey league formed, and when the Acadia football team was here the Acadia players were unanimous in their statements that Acadia would enter a team in the hockey league if one was formed.

One of the most important questions to be decided when the league is re-organized is whether Kings College should be admitted. The U. N. B. students are anxious to have this college in the league and at the time of the Kings-U. N. B. football game here this fall the Kings boys were anxious to get in the league.

Another question is with regard to the schedule. U. N. B. is anxious to have a double schedule, that is home and home games with each team. This would mean three home games for each team and not only would it add interest to the league but it would also be better financially for all the colleges. The prospects of intercollegiate hockey in this city are very bright at present as there is hardly any likelihood of a local team being formed this winter, the U. N. B. being a thing of the past.

The Intercollegiate Hockey League is to be re-organized this winter and the Fredericton High School team will make another bid for the championship and hope to retain the title they won last winter.

The Ring

Wolgar and Ritchie.

San Francisco, Cal., Nov. 18.—With articles signed and forfeits posted for their twenty-round match on Thanksgiving Day, Ad Wolgar and Willie Ritchie have made plans to begin training at once for the battle.

The match will be held in Cudworth's arena at Daly City. The Michigan lad gets \$15,000 for his end of the battle, win, lose or draw. What Cudworth has promised Ritchie is kept secret.

Athletic

International Federation.

New York, Nov. 18.—An international athletic federation or congress for the interest of olympic games is proposed in resolutions recommended at the 29th annual meeting of the Amateur Athletic Union here today. It was voted to appoint a committee of five to meet in 1915 with representatives of foreign countries to organize such a federation if possible. The trouble over the water polo championship at Pittsburgh last March led to the adoption of a resolution declaring that the water polo championship for 1912 be cancelled and recommending that the rules governing water polo be abolished and those of the International Swimming Association be substituted.

The rules for A. A. U. boxing were revised, the most important change being the lengthening of the rounds to three minutes each. Three three minute rounds will be allowed under the new rules, with an extra two minute round if the referee so decides.

President Kirby regretted the wide spread of professionalism among amateur athletes. He said the duty of every honest loving person who knows of a violation of any rule of the A. A. U. to report to the officers so that they might have information instead of gossip to work on. He declared that the United States was now the object lesson of the world for athletic supremacy and that the olympic competitions were doing more to promote world peace than even the Hague conference.

PLANS FOR GOOD WORK
BY EVERY DAY CLUB
DISCUSSED LAST NIGHT

It was more than an old-time meeting of the Every Day Club that was held last evening. It was an old-time meeting with a new inspiration. Many of the old members were present and there was a general and hearty discussion of the proposed new programme of work.

Walter Brindle, who had ten years' experience as a missionary in England, and is active in good work in this city, made some very valuable practical suggestions. Before the meeting closed, C. F. MacTavish, Walter Brindle, C. S. Humbert, R. H. Collier and George Scott were appointed a committee to meet this evening to further consider the proposed constitution and report back to an organization meeting next week. In the meantime the hall will be open every evening. Messrs. MacTavish, Collier, Sheppard, Scott, Titus, Humbert, McCosh and others took part in a very animated and interesting discussion of the club's opportunity as a social centre for useful and effective work.

Newer, bigger, and better Gem tomorrow.

EASY CONSCIENCE OF
THE TORY HEADSMANLiberal Loses Job on Ground That
He Asked Man at Meeting Why
He Did Not Cheer

(Sydney Record).

Captain Charles E. Ormiston, sub-collector of customs at Gabarus, was dismissed a few weeks ago and his position given to Ephraim McGillivray.

Mr. Ormiston was hailed before the lord high exchequer, at Sydney. A man named William Bagwell, the only witness to appear against him, Bagwell swore that he saw Captain Ormiston at a public meeting at Gabarus addressed by J. W. Madden, and that he heard Captain Ormiston say to Mr. Grey, "Why don't you cheer?"

On cross-examination the witness could not remember if any cheering was going on at the time, or if there was any occasion for cheering. No other evidence was submitted.

Captain Ormiston made the statement that to the best of his knowledge he never made the statement attributed to him, and did not remember seeing either Bagwell or Grey at the meeting. On returning to Gabarus he saw Mr. Grey (who is a thoroughly reliable man) and he could testify that he had not heard Captain Ormiston make the remark about cheering, as stated by Mr. Bagwell.

On evidence such as this, honest, reliable officers in His Majesty's customs and other services of this country are daily deprived of their means of livelihood.

THE SEGREGATION OF
BACKWARD CHILDREN

(Victoria Colonist).

The suggestion has been advanced in several of the newspapers of British Columbia of late that conditions as actually found—by no means theories—will ere long necessitate the establishment and maintenance in this province, either by the government or through a committee of a co-operative character to be entered into by the various city schools, of a special industrial school for incorrigible children or little folks whose home surroundings are the reverse of favorable.

It is suggested that in such a school the pupils may be trained in useful arts and crafts by skilled instructors, while through the supervision of good disciplinarians many erring children might be converted into good citizens.

Hon. Dr. Young, the provincial minister of education, cannot in the light of present information on the subject, repudiate the proposal as especially practical. It is in effect, he points out, similar to the principle of the parental school advocated by Vancouver shortly after the visit of Judge Ben Lindsey of Denver to this province.

For a school of this kind, provision for similar schools has been made in legislation for all cities—possessed such extremely wide powers as to virtually remove from parents the control of their offspring, and the authorities are convinced that any determined attempt to carry out the letter of the law would excite the most determined and emphatic objection, not without foundation.

"What must become necessary in this province before long," remarks Hon. Dr. Young, "is an institution in the nature of a segregation school, in which the backward pupil, the mentally deficient, may be given special and scientific attention, with a view to mind as well as body being built up and backward mental grasp stimulated and developed. As conditions necessarily are, at present, the system operates adversely to the satisfactory development of the so-called stupid pupil, and the advancement of the remainder of the class."

Electrified Water

Electrifying water for use in irrigating plants has brought promising results in a crop test by the inventor this past summer, excellent yields of vegetables being obtained in very poor soil on Long Island.

The discovery is an evolution from efforts to kill locusts by spraying. The original apparatus was erected in Argentina, the inventor being spurred to success not only by the rewards offered by the government, but by the suffering of the people through the destruction of their crops by huge swarms of locusts.

When the locusts had been effectively disposed of, there was suggested the utilization of the same apparatus for spraying the plants with water, and when success followed this work the inventor found that much greater crops could be obtained by electrifying the water, and this he proceeded to do with remarkable results.

Popular Mechanics.

Wife to her husband who is arranging his papers—"What have you got here in this parcel, Thomas?"

Husband—"They are the dear reminiscences of our honeymoon."

Wife—"Oh, how delightful! Pray, what kind of reminiscences are they?"

Husband—"They are hotel bills!"
