OBITUARY

Mrs. Samuel Pollock
Mrs. Samuel Pollock, widow of Samuel Pollock, of Lakefield, fourteen miles from Sussex, died at her home on Sunday morning of heart trouble, aged 88 years. Five children survive, four sons and one daughter. The funeral will take place on Tuesday, interment at Clover Hill.

William F. Emery
William F. Emery, formerly of this city died in New York on Wednesday, the 11th. He is survived by his father, G. P. Emery, of Carleton, and two brothers, Dr. A. F. Emery and Charles Emery, and one sister, Mrs. William White of this city. Interment was made in New York.

John C. Beattie
John C. Beattie, one of the most respected residents of Carleton, and special agent of the S. P. C. A. at Sand Point, died at an early hour yesterday morning, aged seventy years. He had been in poor health for some years, and his condition had been causing anxiety to his family for the last eight weeks. The immediate cause of death was heart trouble. He was a native of Carleton, but had lived some years in Cambridge (Mass.), returning from there seven years ago. He is survived by his wife, who was Miss Margaret Mayes, daughter of the late Samuel Mayes; one son, S. Murray Beattie, manager of the branch of the Bank of New Brunswick, Fairville, and one daughter, Miss Elizabeth J. Beattie. There are four sisters who reside in Cambridge: Mrs. John Olive, Mrs. John Olive, Mrs. Charles Olive and Miss Josephine Beattie. Mr. Beattie's grandmother, Mrs. Bond, built a Seamen's Bethel, where the C. P. R. elevator now stands at Sand Point, where she used to preach to the sailors. This was really the first mission for seamen started in St. John. The funeral will be held Tuesday afternoon, the services to commence at 2 o'clock.

John A. Bannister
John A. Bannister, son of Mr. and Mrs. John C. Bannister of River Glade, died at the home of his sister, Mrs. Frank Lodge, Peters street, yesterday. He was a school teacher and had graduated from the Normal school in manual training. He had accepted a position in charge of the manual training department of Standstead College, in Standstead, Quebec, and came to the city and entered the general public hospital to undergo an operation. Besides his wife he is survived by his father and mother, five sisters—Mrs. Lodge and Miss Myrtle of this city, Mrs. Horatio H. Freeman, Mrs. W. Steeves and Miss Winnie of River Glade—and two brothers, Joseph of Petticoat, and Elvin of River Glade.

Philip Shaw
Philip Shaw died at the home of his daughter, Mrs. William Proctor, in Presque Isle, Me., on Jan. 11. He was born in Middle Simonds, N. B., 78 years ago, and was an industrious farmer. For the last three years Mr. and Mrs. Shaw have made their home in St. John. Mr. Proctor, the cause of his death was gangrene and his illness was brief. Besides his wife, he leaves two brothers, Edward, of Eastport, and Samuel of Limestone; one sister, Mrs. Whitfield Mangum of Mainstream, N. B.; six children, Mrs. Philip Shaw, Mrs. Neimiah White of Ludlow, Mrs. Dudley Smith of Danville, Mass., Mrs. William Proctor of Presque Isle, Maine, C. of Middle Simonds, N. B., and William, last heard of in Sherbrooke, Ont.

IN WALL STREET

Financial Firm's Views on the Outlook in the United States

New York, Jan. 14.—The iron business shows unsettled conditions and comparative small volume, mostly in small orders. The meeting of Steel representatives to discuss the situation resulted in no decision to cut prices. Probably the idea was that a cut would do little to jar consumers out of their hand-to-mouth methods, with consumption as low as it is at present. The opinion seems to prevail with the managers of the Steel Corporation that orders in volume must come some time in the future, and in view of this they are averse to price reduction. General business is following about the same lines as steel and iron.

The bond market is more cheerful and stocks have brightened up somewhat. With prospect of dividends being maintained through the year, investors may realize good income on good securities purchased now and held irrespective of more or less temporary declines.

J. S. BACHE & CO.

WAS TERRIBLY AFFLICTED WITH LAME BACK.
COULD NOT SWEEP FLOOR.

Three Boxes of Doan's Kidney Pills Cured Her.

It is hard to do housework with a weak and aching back. Backache comes from sick kidneys, and what a lot of trouble it causes.

But they can't help it. If you work as hard as I did, you will get a lame back, and what a lot of trouble it causes.

Weak back is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble.

Mrs. N. Larmour, Smith's Falls, Ont., writes:—I take pleasure in writing you, stating the benefit I have received by using Doan's Kidney Pills. About a year ago I was terribly afflicted with lame back and was so bad I could not even sweep my own floor. I was advised to try Doan's Kidney Pills, which I did, and with the greatest benefit. I only used three boxes and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble.

Price 50 cents per box, or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

HON. MR. PUGSLEY DESERVES THE THANKS OF ALL

His Great Work for St. John Attested in Resolution at St. Martins Meeting—Delegates to Convention

In St. Martins and Musquash on Saturday night delegates to the Liberal nominating convention were chosen.

In St. Martins F. M. Cochrane was elected chairman and W. E. Skillen secretary. The delegates chosen were: A. F. Bentley, M.P.P.; Robert Connely, F. Cochrane, John A. Howard, Patrick H. Nugent. The substitutes were: Thomas Hock, John T. Boyer, William J. Walsh, Robert Dunlop, Capt. J. J. Creamer, Capt. J. J. Creamer, P. H. Nugent, Robert Connely, John A. Howard, Dr. Gilmore and Thomas Hock.

A resolution, which was moved by Councillor Robert Connely, seconded by A. F. Bentley, M.P.P., and passed unanimously, is as follows:

"Resolved, that this meeting has entire confidence in the great Liberal administration of this country under the able, just and far-seeing policy of our beloved chieftain Sir Wilfrid Laurier, who has been at the head of the government since 1896, and whose master hand is still guiding the ship of state, and who most sincerely trust may be spared to do so for many years to come. As a statesman and gentleman he stands out brilliantly in the forefront of the empire's great men, past and present, honored and respected. With such a leader how can the party fail to obtain the support of the best thinking material in the dominion, whose overwhelming endorsement of his actions on every occasion speak louder than words. It can truthfully be said of Sir Wilfrid that he never in his life did keep a promise, as he never failed to keep it. He tried to keep the word of promise to the ear, and break it to the eye."

"The Hon. William Pugsley's name we include in this resolution, and our unanimous endorsement of the great work he has done, and is still doing for St. John, the largest and most important city in the Maritime Provinces."

"At a critical period of the city's history, possibilities presented themselves on the horizon that with materiality would mean so much to St. John and its future development and prosperity. Our worthy and respected member proved equal to the occasion and with ingenuity, tact and eloquence captured the prizes for the city. He deserves the noble work for the election of all classes, irrespective of party. Mr. Pugsley's services to the dominion as Minister of Public Works stand out prominently to his credit."

"We also place on record our deep appreciation of the Hon. C. W. Robinson, who as premier of the late government, and now as leader of the opposition, did, and is still doing noble work for this province; his keen and able judgment of the conditions and requirements of the province has tended materially to keep in check the wanton extravagances of the present government. We are certain that before long he will again be at the head of a solid Liberal administration at Fredericton."

In Musquash Charles Spiny and Herbert Mawhinney were chosen as delegates. The meeting voted in favor of the Young Liberals sending delegates to the convention.

TOURIST ASSOCIATION

The New Brunswick Tourist Association are holding their trade routes this afternoon at 4 o'clock. F. B. Ellis, in the report of the executive, advised that the association has been well up to the average. Many Americans did not come to St. John on account of the recent fire, but the association has been well up to the average. Many Americans did not come to St. John on account of the recent fire, but the association has been well up to the average. Many Americans did not come to St. John on account of the recent fire, but the association has been well up to the average.

Another large increase in the revenue from license fees was reported, the figures being \$41,019.19 as against \$38,181.19 in 1906. The grant from the provincial government of \$1,200 and that from the city of \$800 has enabled the association to value of \$296,144.00, and this year with carry on the work. Efforts were made to advertise the time of the departure and arrival of trains. Replies were received that the matter would be considered when making up the summer time tables.

The Evening Chit-Chat
By RUTH CAMERON

ACCORDING to the United States' latest census there are 4,883,000 women in the country who work for wages. That is one out of every five women is obliged to be a wage earner.

Don't such statistics impress upon you the big necessity for women to get out of the still comparative paths in which they have been kept, in order not to lower wages to starvation point by overcrowding these few occupations?

Don't those statistics impress upon you your duty to help our wage earning sisters by sending in to this column any hints as to unusual occupations at which women you know or have heard of have made their living or even home pin money?

I hope they do.

Here are a few suggestions that have come to me: I have heard that law publishing houses pay very good salaries to women to analyze, designate and classify decisions of the Federal and State courts. I should think such an occupation might be more profitable and more congenial to many women than school teaching or ordinary clerical work. I do not know whether the worker would have to have a full legal training or not. Doubtless any publishing house could furnish this information.

An interesting way in which a stenographer augmented her earnings was by advertising to take dictation over the telephone from people quarantined on account of contagious diseases. The work was done in the evening outside of her regular working hours, but a public stenographer of course could do it at any time and it seems to me this wouldn't be a bad plan for some extenographer bride, who would like to increase her income a bit. The profit to be made by raising hens has been mentioned before in this column, but perhaps the little story of another woman who succeeded in this way may be interesting.

Your request for the suggestion of profitable occupations for women induced me to tell you of mine—raising chickens—the males for "Spring fry" and the females for eggs.

The eggs to a regular customer at the door can be sold easily at forty cents per dozen the year around or at the highest market price. This is more interesting work than most people imagine. I have about fifty-five hens averaging four dozen eggs per day. A regular customer pays forty cents a dozen, and with his auto calls once a week for them. Food and supplies average \$8.80 per month, which you can readily see nets a clear profit of \$44.20 per month. How many shop girls' salaries exceed this?

A woman who lives near a jewelry factory, wrote this: "I have heard that law publishing houses pay very good salaries to women to analyze, designate and classify decisions of the Federal and State courts. I should think such an occupation might be more profitable and more congenial to many women than school teaching or ordinary clerical work. I do not know whether the worker would have to have a full legal training or not. Doubtless any publishing house could furnish this information."

Whether such work could be obtained in other localities, of course I do not know, but think it would do no harm for anyone who thought she would like such work, to write and inquire from some wholesale jewelry firm whose advertisement could be found in any paper or magazine.

THE FIELD CROPS OF CANADA

Supplementary Report from Ottawa Giving Comparison of Crops With Last Year, Including New Brunswick

The hoed and cultivated crops, comprising beans, have fallen off in area, products and value, the area this year being 1,137,417 acres, and the products 194,225,000 bushels with a value of \$88,006,200 compared with 1,180,005 acres, a product of 223,203,200 bushels and a value of \$89,737,500 last year. Fodder crops, which include fodder corn with hay and clover, show for this year an area of 8,737,369 acres, a product of 18,048,000 tons and a value of \$10,673,000, compared with 8,470,500 acres, a product of 14,656,800 tons and a value of \$10,403,200 last year.

The value of the yield of crops per acre this year compared with last year is as follows: Prince Edward Island \$18.29 to \$17.79, in Nova Scotia \$22.78 to \$24.80, in New Brunswick \$18.03 to \$17.31 to Quebec \$17.29 to \$17.20, in Ontario \$20.04 to \$20.03, in Manitoba \$18.58 to \$14.70, in Saskatchewan \$11.31 to \$16.80 and in Alberta \$8.17 to \$13.88.

Data are not available to make in this statement similar comparisons for British Columbia, but they will be procurable at yield of wheat, oats and barley this year next year's census.
