---

Since 1877 a Commercial Department has been conducted in connection with Albert College, and with good success. During the present year enlargement became necessary, and the Department has been thoroughly re-organized. Large and well furnished rooms have been set apart for the work, and a complete set of offices equipped for the Actual Business Department.

The College is prepared to give a Practical Business Course combined with a thorough English Education, unexcelled by any Business College in Ontario, and at moderate rates.
