## WAR CLOUD HANGS OVER MOROCCO.

French Warships are in Readiness to Strike.

Morocco's Sultan Refuses to Release a French Subject From Prison—France May Recall Her Minister.

TANGIER, Morocco, Aug. 30.—The sultan has replied by letter to the minister that he continues to regard the recently arrested French-Algerian merchant Boudan, as a Moroccan subject and will refuse to comply with the demands of the French government for his liberation.

PARIS, Aug. 30.—The foreign office has issued an announcement to the effect that today or tomorrow the French minister at Fez, Strens Tallandier, will be able to address a final summons to the Moroccan foreign office relative to the release of the French-Algerian merchant Boudan. The minister at the same time will advise the Moroccan government of his intention to leave Fez if the demand for the release of Boudan and redress for his arrest be not complied with. M. Tallandier will be instructed to reach Tangier by the surest route and to take such steps as may be deemed necessary after his arrival there if in the meantime the demands remain unsatisfied.

Despatches from Toulon to the French newspapers announce that in view of the trouble with Morocco the cruisers Charnier, Bruix, Pothuau, Chanzy, Latouche-Tréville and Requin are being held in readiness.

## GALAIS SOCIETY FOOLED.

Young Englishman With a Bogus Title, Went From St. John and Fleeced Many People.

CALAIS, Aug. 29.—A young Englishman of education and refinement who in spite of the fact that he engaged in the humble capacity of farm hand succeeded in gaining passage to the local society, has disappeared under a cloud and, it is said, several persons who obliged him with sums of money are feeling just a trifle sore over the affair. The young man, who claims to be son of a lord, arrived on the border about two weeks ago, presumably from Manitoba, where he secured a grant of land after serving in the Boer war. Not liking the country out that way he came east to St. John and eventually landed in this city. He was a brilliant conversationalist and showed unlimited evidence of his excellent breeding and found little difficulty in establishing himself in the good graces of the summer colony at De Monts.

Letters and drafts from England continued his new friends of the validity of his claims and when funds were shy on account of the failure of his remittances to arrive promptly he experienced little difficulty in negotiating loans and having his checks cashed. Now he has departed and his erstwhile friends are saying mean things about him.

Jack Manners Temple, as the Englishman claims his name to be, is, according to his own story a brother to Sir Richard Manners Temple of London. A disagreement with his family is alleged as the cause for his roaming over the world, but he expects to return again to old England some day and claim his rights. Temple told certain parties that he was engaged in the manufacture of a path much in demand with piano and furniture manufacturers and stated that he had received big orders from various firms for the goods. He announced his intention of locating permanently in Calais and establishing a factory.

Of course everybody concerned in the introduction of Temple to society denies liability, and the subject is at present a rather delicate one to broach in some circles.

## VOLCANOS IN ERUPTION.

NAPLES, Aug. 30.—Mount Vesuvius is in full eruption and is throwing out an enormous mass of lava. Deep rumblings are heard in the interior of the crater, and lava is flowing the right side of the cone.

MESSINA, Sicily, Aug. 30.—The ancient crater in the island of Stromboli is in full eruption, and is ejecting a heavy mass of lava. Dense smoke hangs over the island. Panic prevails in the villages around the volcano, and the villagers are leaving.

## HEAVY TRAVEL DELAYS TRAINS.

The express from Boston was forty minutes late in arriving here today the delay being ascribed to the heavy travel caused by the Bangor fair. The Montreal or Atlantic express was three hours late, the delay in this case being caused by an accident to a locomotive when the train was near Greenville.

## BICYCLE CHAMPIONSHIPS.

NEW YORK, Aug. 30.—The American quarter-mile amateur bicycle championship was captured last night at the Valsburg track in Newark by Teddy Billington, of the National A. C. of Brooklyn. His clubmate, James Stearns, finished second. Iver Lawson, of Salt Lake City, was defeated in straight heats by Frank L. Kramer, American champion for the last four years.

## WITTE AS RUSSIA'S PRIME MINISTER.

High Office Awaits the Victor of Peace Conference---Treaty Being Drafted Today---British Comment.

PORTSMOUTH, Aug. 30.—Mr. de Martens and Mr. Denison will meet at 3 o'clock this afternoon at the navy yard to begin the work of drafting the treaty.

KING EDWARD CONGRATULATES MARINBAD, Austria, Aug. 30.—King Edward, upon receipt of the peace announcement immediately despatched his congratulations to the emperors of Japan and Russia, and to President Roosevelt, and also telegraphed to Queen Alexandra his joy at reaching such news.

SERVES RUSSIA RIGHT, SAYS PRINCE OUKHTOMSKY.

ST. PETERSBURG, Aug. 30.—"A great diplomatic victory for M. Witte, but a moral victory for Japan," is the verdict of Prince Oukhtomsky in his editorial in the Vedomosti today. He editorialized in the Vedomosti today. He editorialized in the Vedomosti today. He editorialized in the Vedomosti today.

NEW YORK, Aug. 30.—Wall Street—The local stock market failed to sympathize with the buoyant rise in the London market, a number of the international stocks opening here considerably below yesterday's closing. Losses were made in the first few minutes by St. Paul, Reading and Amalgamated Copper. Canada Pacific gained about as much, and there were gains in some other stocks. The market opened irregular.

## WHAT BRITISH PAPERS SAY.

LONDON, Aug. 30.—The evening papers follow the lead of the morning newspapers in the bestowing of praises on President Roosevelt, to whom they give the fullest credit for the outcome of the conference whose decision was entirely at variance with their daily predictions since the opening of the negotiations. Both papers and people were so astounded at the outcome of the conference that they felt that there is some thing in the agreement arrived at which has not yet been published, and that if this is not the case then the new Anglo-Japanese treaty has affected the result in some way. In this connection the Pall Mall Gazette says: "The enlarged treaty which England may have secured by her alliance with Japan, and his advisors that Japan's position in the Far East is now practically impregnable and that peace may be made without pressing for the payment of indemnity."

The paper adds: "Japan now stands in a position of impregnable supremacy in the Far East, and this supremacy could be disputed by a coalition against which her alliance with the greatest naval power in the world constitutes an absolute guarantee."

Arguing that Japan might after consideration feel more satisfied with having gained the points for which she took up arms, the Pall Mall continues: "Asia lies at her feet and particularly Westminister Gazette says: 'It needed only a moment's reflection to see how greatly her moral and material position must have been worsened if after having abandoned the substantial points for which she undertook the war, and the enormous assets that go with them she had taken the responsibility for renewing the war on the question of costs which could not in the long run have been recovered against an opponent who was determined not to pay. The policy of Japan is to concentrate herself upon the formidable task of developing what her victory has given her, and even a successful war which would have left her in possession of further territory must have dissipated her energies and weakened her position.'

WITTE AS PRIME MINISTER. This evening's Standard says "Russia has won one of the greatest diplomatic victories in the history of the world. Nor are we inclined to begrudge M. Witte his share of glory. He fought magnificently for Russia and thanks in a large measure to his tactical ability he won out."

THE SAME PAPER PRINTS A DESPATCH FROM ST. PETERSBURG, which says M. Witte will return the hero of the day, and that it is not impossible that he may become a sort of prime minister. "It is believed, however," says the despatch, "that he will refuse unless freedom of the press and personality are guaranteed."

## CANADIAN WRESTLER DEFEATED.

DES MOINES, Cal., Aug. 30.—Jack Carr, the Montana cowboy, defeated D. Pihores, Canadian champion, in a wrestling match here last night. Carr took the first two falls in 15 minutes and 20 seconds and 12 minutes, respectively.

## JOHN MITCHELL HURLS DEFIANCE.

Possibility of Another Coal Strike Intimated.

No Peace in the Anthracite Region Until Miners Gain the Day and Union is Recognized.

NEW YORK, Aug. 30.—A Tamaqua despatch to the American quotes President John Mitchell, of the United Mine Workers of America, as saying: "So far as I am concerned there can be no lasting peace in the anthracite region until the miners gain the day and the union is recognized by the operators." President Mitchell reiterated this challenge to the local camps last night at an enthusiastic meeting of miners of the Panther Creek Valley.

He also read out of the ranks all men who do not belong to the union, and declared that so far as he was concerned he would not raise a finger to aid non-union men to gain their rights.

## TROUBLE IN A. M. E. CHURCH

African Bishop of New York, Has Resigned on Account of Church Quarrel Based on Politics.

NEW YORK, Aug. 30.—As the result of a serious illness, brought about on account of worry over the treatment accorded him by the officials of a colored church, this city, and two churches in Brooklyn, Bishop Benjamin W. Arnett, has resigned as bishop of the New York diocese of the African Methodist Episcopal church. The bishop's council of the church yesterday relieved him of all work in connection with the Philadelphia, New Jersey and New England conference, which with the New York conference, comprise the first Episcopal district.

Bishop Arnett's appointment of Dr. S. Timothy Rice, as presiding elder of the New York conference is stated to have stirred up trouble.

Great pressure was brought to bear on the bishop to remove Dr. Rice, because of the latter's political affiliations but he would not consent and finally resigned his office, three of the churches having threatened to withdraw. Bishop Tanner has been placed in charge of New York and New England conference, and Bishop Levi J. Coppin, formerly bishop of South Africa, has been assigned to the Philadelphia and New Jersey conference.

## ORIGIN OF THE WORD "FARM."

The origin of the word "farm" is as follows: In the saxon word the estate which the lords of manors granted to the freemen were at first but for a term of years, with a render of a rent, which in those days was of corn and other produce. The leases so made were called farms, or farms, but times ensuing turned the produce into money and terms of years to terms of life and inheritance.

She—Not unless it's a—er—cloudy.

## CLOUDY WEATHER OBSCURED ECLIPSE.

Only Occasional Glimpses Seen in St. John.

New York and Boston Similarly Unlucky But Washington Had Good View—No Word From Labrador.

Those who had sufficient interest in the troubles of old soil to forsake their comfortable beds this morning at the early hour of six o'clock were poorly rewarded for their trouble. The eclipse may have been a success in Labrador or Arabia but as far as St. John was concerned it did not amount to much. It was not scheduled to be of much account here and to make matters worse the weather was cloudy, only an occasional indistinct glimpse of the shaded disk being visible.

(Special to the Star.)

MONTREAL, Aug. 30.—Owing to cloudy weather the partial eclipse of the sun was not visible here this morning, many people prepared to take observations being disappointed. WASHINGTON, Aug. 30.—The eclipse of the sun today was only partly visible at this point and for a part of the time of its duration the sun was obscured by clouds. Nevertheless the phenomenon was observed with interest at the United States naval observatory and by many amateur astronomers. The sun was never obscured to the extent of more than six tenths of its diameter and the obscuration attained its maximum at 6:30 a. m. The observatory astronomers used their five inch comet seeking telescope and were enabled to observe three spots on the sun. This was no discovery, however, as the presence of the spots had become known before.

CAMBRIDGE, Mass., Aug. 30.—Observation of the sun's eclipse at Harvard observatory today was impossible because of the clouds.

NEW YORK, Aug. 30.—The partial eclipse of the sun, which it was hoped could have been seen in New York early today was completely obscured by clouds and foggy atmosphere.

## ALMOST HUMAN.
