### STILL CHAMPION LIFTER.

Waltham, Mar. 22.—John Y. Smith of the Boston Y.M.C.A., champion heavyweight lifter of New England, successfully defended his title against Normal Taylor, the Waltham ice man, in Maynard Hall tonight. Smith won eight of the 10 tests decided, performing feats of strength that Taylor would not attempt.

Smith's best performance, which Taylor refused, was the lifting of a 225-pound dumbbell with his left hand and arising from a kneeling posture with a 104-pound bell in one hand and a 190-pound bell in the other. Other events which Taylor won were elevating two bells, on in each hand, above his head, and lifting a 90-pound dumbbell while standing on one foot. Patrolemann John McVicar of Boston was referee.

### Throat Becomes Diseased From Neglecting Colds

When Catarrh Sets Mucous Drops Into the Stomach, Coughing, Head-ache and Debility Follow.

The best method of curing catarrhal disease consists in using Catarrhazone, which is a new and powerful medicine, tablets, sprays and emulsions, which for the most part are of no practical value except to ease the cough for the time being. Often liquid cough remedies contain opium, morphine and cocaine. With Catarrhazone you take no drugs— you employ Nature's way—just inhale Catarrhazone's soothing healing vapor and relief and cure follow promptly.

Weak Throat, Racking Cough Cured. "For five years I suffered from a severe bronchitis. A harsh, dry, racking cough kept my throat in a raw condition from one year's end to another. Before going to sleep at night I always had a bad attack, and in the morning before each breakfast I suffered greatly. My voice was hoarse and raspy, and sometimes I found it difficult to make myself understood. Catarrhazone seemed to soothe and heal from the first day. It cured me, and now I wouldn't think of being without a Catarrhazone Inhaler—it means life to me."

The above experience is related by Mr. Alexander F. Savary of Hamilton, Pa., and proves the effectiveness of Catarrhazone, which will cure every cough, cold, bronchitis or catarrhal attack. The dollar size of Catarrhazone contains two months' treatment and is guaranteed. Smaller size 50c. sample size 25c. All dealers of The Catarrhazone Company, Buffalo, N.Y., and Kingston, Canada.

## FIRST PHOTOGRAPHS FROM BASEBALL TRAINING CAMPS IN SOUTH—OUTDOOR AND INDOOR PRACTICE WITH ATHLETICS AND GIANTS

On the left above is Connie Mack, manager of the Athletics, snapped as he was sitting in the grand stand at the San Antonio ball park watching his men at practice. On the right is Salomon, a recruit pitcher, who pitched three innings of the first Athletic practice game and who is a comer.

When the Giants cannot work on indoors on account of the weather they do practice stunts inside. Here a dummy such as football players use to learn to tackle is hung up to represent a batter and the recruit pitchers take turns in "throwing them over."

## BASEBALL

Steve White the old Red Sox pitcher, called at the club's headquarters yesterday for a conference with John I. Taylor.

Fred Tenney has been before the baseball public more than 20 years, or ever since he became known as a member of that famous Sexton-Tenney battery at Brown University. Should he elect to retire from the game, it will be with the best wishes of many hundreds of fans who ever will rank him among the best of the game's first basemen.

Just seven men last year knocked out home runs with the beses filled. They are Cobb, Jackson, Olsen, McNis, Cunningham, Hartnell and Laporte.

Hugh Jennings is instructing his Tigers in the art of bunting. This may mean that Hughes is thinking of mixing in the bunts with his old hit and run game, which has stood Detroit in such good stead so long.

Bob Hedges of St. Louis, says that the Browns will never train at home again, and that already he's on the lookout for a road camp in the south to use for 1913.

Hugh Duffy has his Milwaukee team working out at Calro, Ill. It was just 11 years ago that Duffy broke into the American league as manager of the Milwaukee team.

Arthur Devlin of the Giants, is making a serious effort to learn how to play first base and McGraw is allowing him time to do it.

Honus Wagner who has led the national league hitters for 8 of the last 12 seasons, was born Feb. 24, 1874.

Bob Ugliaugh, who will be with Baltimore again this year and who accidentally shot himself in the foot this winter, is still carrying the bullet in the injured member but says that it in no way interferes with his speed.

It seems definitely settled that Zimmerman will be the regular third baseman for the Cubs this year.

Ed Greninger, the former Boston National's third baseman, who took Jim Collins' place back in 1901, is building a team of young ball players at Montgomery, Ala.

## THE OLD RELIABLE NEVER CHANGING STANDARD

POSITIVELY GUARANTEED ALWAYS THE SAME HIGH-CLASS QUALITY!

SEE THAT YOU GET IT, WHEN YOU ASK FOR IT?

J. M. DOUGLAS and COMPANY, MONTREAL CANADIAN AGENTS

Billy Keeler says that he's not especially anxious to play baseball any more, but that he still is thinking about going to Japan to teach the college men there how to play the game. Willie says that the stories that he had received inducements to go to Japan emanated from no press agent.

Pres. Jim McAleer surely makes no bones about acknowledging that one of the Red Sox' chief assets this year is "Heinie" Wagner's throwing arm. LaJole is batting fourth in the Cleveland list again, and is doing his usual good work about second base.

Bill is playing that position for the Indians' Vanigans, while Olson at short, Hohnhorst at first base and Hendry at third complete the Naps' regular infield.

Frank Chance of the Cubs is having no end of trouble in developing his string of left-handed pitchers this Spring.

Bob Bescher, the speedy Cincinnati baserunner, has been handicapped by a lame ankle all spring, but is now coming round nicely.

The Giants will leave Texas the last of this week to start for New York with only a few exhibition games on the way.

JOCKEY HENRY SPENCER DEAD. Oakland, Cal., Mar. 22.—Henry Spencer, the once famous jockey, known to turf followers as the Ice man, died here today of consumption.

## GOODYEAR NON-SKID NO-RIM-CUT TIRES

### A Live Tread of Thick, Clinging Blocks

Prevents Skidding . . . Reduces Punctures Lessens Vibration

WHEN you buy tires, look to the construction of your treads. To get a tread that grips the road is not enough.

Get one that is alive—one that will not shake the motor out of adjustment.

See how the Goodyear Tread has added the clinging rubber blocks without deadening the tire. Deep blocks, cut diamond shape, with air spaces between them.

The angles and edges hold in every direction. The blocks spread out and distribute the weight of the car over the whole tread.

The extra thickness reduces the danger of puncture 30%.

But here is where the Goodyear differs from any other tread. It is perfectly resilient. The tire is just as springy as a plain tread tire and has the advantages of longer wear, fewer punctures, and freedom from skidding.

Non-Skid-Treads are vulcanized on to No-Rim-Cut Tires. These tires cannot rim-cut, and 23% of wrecked tires are due to rim-cutting.

They are 10% oversize—that adds 25% to the tire-mileage.

"How to Select an Automobile Tire," a book full of information for motorists, will be sent on request.
