THIRD DOSE RELIEF! FIFTH DOSE! DIARRHOEA STOPPED

Diarrhoea does not need to persist for any length of time until the whole system is weakened and debilitated. No other disease so quickly undermines the strength and brings about a condition of prostration and very often total collapse.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effective in checking the diarrhoea, but at the same time acts as a stimulant, strengthens the heart and braces up the whole system, and one of its principal points is that it does not leave the bowels in a constipated condition.

Mr. W. H. Arnold, Fort Qu'Appelle, Sask., writes:—"A few years ago while out thrashing, I had a severe attack of diarrhoea. Nothing I took seemed to do me any good. I was getting weaker all the time. Hearing that Dr. Fowler's Extract of Wild Strawberry was good for diarrhoea, I went into town and purchased a bottle. After the third dose I felt relief, and after I had taken the fifth dose the diarrhoea had stopped. I always keep it in the house, and would not be without it."

See that you get the original "Dr. Fowler's." It has been on the market for the past 74 years. Substitutes may endanger your health. Price 35c. Put up only by The T. Milburn Co., Limited, Toronto, Ont.
