## MARKET REPORTS

### STOCKS, BONDS AND PRODUCE

### STOCK MARKET VIOLENTLY UNSETTLED BY STEEL STRIKE NEWS

The Recuperative Power Displayed by the List Indicated That Much of the Early Upheaval Resulted More from Aggressive Short Selling Than from Liquidation of Long Holdings.

New York, Sept. 11.—The stock market was violently unsettled at the opening of today's dealings, popular shares breaking sharply on announcement that the steel labor leaders had issued a national strike order effective September 22.

Much of the loss was retrieved in the first hour with further recovery in the course of the session, rallies being accomplished for the most part on comparatively moderate but seemingly confident buying.

To observers the recuperative power displayed by the general list indicated that much of the early upheaval resulted not so much from liquidation of long holdings as from aggressive short selling.

Naturally, the stocks which experienced depreciation at the outset were the favorite steel issues. U. S. Steel reacted almost five points with as much for Republic Iron, Bethlehem dropped 8 and Crucible 11.

Oils and Motors came next at extreme of three to six points; Chandler motors showing a gross set-back of fourteen and a half, while ship-pings, rails, coppers, leathers, tobacco and food shares forfeited two to six points. Equipments, in which early losses were relatively light, featured the rebound, Baldwin Locomotive and American Locomotive representing the chief elements of strength with such affiliated issues as Studebaker, General Motors and high grade oils.

Another reaction toward the close attributed in part to profit-taking caused a general shading from maximum quotations but this was again overcome the net resulting few serious losses. Sales amounted to 1,150,000 shares.

Bonds were very heavy, the more severe reactions being confined to speculative issues, Liberty bonds and International Steadfast later. Total sales, par value, aggregated \$12,875,000.

Old U. S. bonds unaltered on call.

BRINGING UP FATHER

### MONTREAL MARKET IGNORED DECLINE ON NEW YORK

Montreal, Sept. 11.—At the opening this morning, there was some hesitation to see the effect the strike news in the Steel industry would have on the American market. The early decline there, however, was ignored in our market, except in a few issues.

Spanish River, opened weaker but made up all its loss, the Paper stocks were all active. Weymawack advancing from 2 1/4 to 2 3/4; Abt was also strong, selling up to 87 and closing with 89 bid. Trading was well distributed. Ames securities were very steady, although at the meeting today, the regular dividend was declared on the pfd. Steamships advanced in the afternoon to 55 1/2 and the pfd. was quiet, there are some large blocks offering slightly above the market and on any advance meets this stock. In the late trading, Forgings became active and sold up to 200. Atlantic Sugar was strong, opening at 50 1/2 advanced to 52 but reacted a point at the close.

The Victory bonds were decidedly strong, particularly the 1933's. There were several large blocks sold at 104, the final sales being at 104 1/8. The other issues were unchanged.

MARKET MADE  
GOOD RECOVERY  
(McDougall and Cowans.)  
New York, Sept. 11.—The recovery of the morning continued into the afternoon and many of the active industrial sold above Tuesday's closing. The Steel stocks played a considerable part in the rally but U. S. Steel held a point or more below the previous close as also B. S. B. C. made up all but a small part of its sensational break at the opening. The Street's fears over the labor situation were largely relieved by a statement of the President of the United Mine Workers to the effect that there would be no coal strike because a satisfactory adjustment of wages would be reached, and by Samuel Gompers' statement that labor was anxious to help the president establish industrial peace. C. M. Schwab's estimate that the railroads would need five million tons of rails over the next twelve months further assisted to bring the market back to normal.  
Barley, according to freight outside, malling, \$1.29 to \$1.34.  
Rye, according to freight outside, No. 2, nominal.  
Malt, according to freight outside, No. 2, nominal.

SMALLPOX IN  
YORK COUNTY  
Special to The Standard.  
Fredericton, N. B., Sept. 10.—Two cases of smallpox were reported yesterday afternoon to the Department of Public Health. The cases are at Maple Grove in the Parish of Stanley, and are both reported to be Indians who were working on the Florenceville Railway. The report came from Dr. C. J. Desmond, District Medical Officer, to go to Maple Grove and take charge of the situation. The York County Sub-District Board of Health ordered Dr. B. R. Moore, of Stanley, to attend to the cases. Every precaution will be taken by the Health Department to prevent a spread of the disease. All contacts will be ascertained and quarantined, and those suffering will be isolated to prevent the outbreak of more cases.  
Sidney Short was painfully injured at Victoria Mills at about 10.30 o'clock this morning. He was working in Fraser's mill, taking away slabs from the band gang, when his foot caught in the chain, breaking his leg as it was forced around the shaft.  
Wilson Snider, keeper of the Point Lepreau Light, his wife and daughter have returned home after an auto trip to Fredericton and Sheffield. At Sheffield they were guests of Miss Fannie Andrew.

LEADING FIGURES  
IN PARLIAMENT  
OF BRITISH  
Sir Robert Horne, Labor Minister, and Lord Robert Cecil Have Tremendous Power.  
London, Aug. 20.—(Correspondence of The Associated Press.)—In the opinion of the man in the street, the outstanding figures of Parliament are Sir Robert Horne, Labor Minister, and Lord Robert Cecil, who sits on one of the green leather benches in the House as an ordinary member.  
Sir Robert Horne, whose character may best be described by the nickname his friends have given him, "Hall Smiling Horne," gave up a law practice worth \$40,000 a year at the Scottish bar to become a member of the government at \$10,000. He won the confidence of Labor in numerous conferences, and recently has been responsible for the firm handling of the labor situation when the apostles of "direct action" gained the upper hand among organized workmen.  
Lord Robert Cecil is described by his friends as an "old member in a new coat," and since his return from the Paris Peace Conference has been adding almost daily to his reputation. They call him the "mystery man" of Parliament. Once looked upon as the type of Tory aristocrat in politics, he now seems ready to outdo the democrats in democracy. Among his followers is a large band of enthusiastic young Unionists, and the labor men had him as one after their own heart. Everybody is asking what party will he lead, which way will he turn.  
Two other men are pointed out as having added much to their reputation, Sir Donald Maclean and J. R. Clynes. Sir Donald led the lone little band of

Leaving Streets Strewn  
With Fallen Trees and Debris.  
Havana, Sept. 10.—(By the Associated Press.)—Five persons are known to be dead and several others are missing as a result of the cyclone which swept over the city last night, flooding the greater part of the city with huge waves from the Gulf, which swept over the sea wall. The waters receded, today, leaving the streets strewn with fallen trees and debris. The electric lighting and telephone systems are badly crippled, but it is impossible as yet to estimate the damage, which is very heavy.  
Detroit, Mich., Sept. 10.—Opposition to the One Big Union plan, and a Bolshevik agitation among labor men, was expressed by Canadian Labor Department and Labor organization officials, whose addresses occupied the entire morning of the convention here of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers today.  
Independent Liberals through the trying times of the session. At times he showed such qualities of leadership that some of the correspondents are of the opinion that he has given full hope to a party which no longer desires the return of Mr. Asquith to its leadership.  
Mr. Clynes made a reputation as food controller before entering the House, and since that time has been looked upon by the labor party as their most reliable leader.

## 3450 Insulators Insure "Plus Service"

Ten years of specialization—making spark plugs—striving always to produce better plugs. 3450 individual laboratory experiments, during that period, necessitating an enormous amount of research work, were amply justified in the performance of our number 3450 Insulators used in all

## Champion Dependable Spark Plugs

No. 3450 Insulators have "stood up" in tests of Champion Plugs that were far more brutal in punishment than any spark plug is ever required to stand, even in the emergency stages of ordinary usage.

It is because of the "plus service" quality of 3450 Insulators that Champions have the ability to resist, to such a marked degree, sudden temperature changes, vibration and explosive shock in the heaviest motor or engine.

MARKET MADE  
GOOD RECOVERY  
(McDougall and Cowans.)  
New York, Sept. 11.—The recovery of the morning continued into the afternoon and many of the active industrial sold above Tuesday's closing. The Steel stocks played a considerable part in the rally but U. S. Steel held a point or more below the previous close as also B. S. B. C. made up all but a small part of its sensational break at the opening. The Street's fears over the labor situation were largely relieved by a statement of the President of the United Mine Workers to the effect that there would be no coal strike because a satisfactory adjustment of wages would be reached, and by Samuel Gompers' statement that labor was anxious to help the president establish industrial peace. C. M. Schwab's estimate that the railroads would need five million tons of rails over the next twelve months further assisted to bring the market back to normal.  
Barley, according to freight outside, malling, \$1.29 to \$1.34.

LEADING FIGURES  
IN PARLIAMENT  
OF BRITISH  
Sir Robert Horne, Labor Minister, and Lord Robert Cecil Have Tremendous Power.  
London, Aug. 20.—(Correspondence of The Associated Press.)—In the opinion of the man in the street, the outstanding figures of Parliament are Sir Robert Horne, Labor Minister, and Lord Robert Cecil, who sits on one of the green leather benches in the House as an ordinary member.  
Sir Robert Horne, whose character may best be described by the nickname his friends have given him, "Hall Smiling Horne," gave up a law practice worth \$40,000 a year at the Scottish bar to become a member of the government at \$10,000. He won the confidence of Labor in numerous conferences, and recently has been responsible for the firm handling of the labor situation when the apostles of "direct action" gained the upper hand among organized workmen.  
Lord Robert Cecil is described by his friends as an "old member in a new coat," and since his return from the Paris Peace Conference has been adding almost daily to his reputation. They call him the "mystery man" of Parliament. Once looked upon as the type of Tory aristocrat in politics, he now seems ready to outdo the democrats in democracy. Among his followers is a large band of enthusiastic young Unionists, and the labor men had him as one after their own heart. Everybody is asking what party will he lead
