

SPRING OVERCOATS

at 20 Per Cent. Discount.
Saturday, May 1st, we start to reduce our stock of Spring Overcoats.

A backward season and late deliveries have affected our sales so that we have too many topcoats on hand now.

From May 1st to May 8th all Spring Coats except plain greys are offered at

20 per cent. cash discount.

Smartest styles and patterns, nearly all quarter lined with silk.

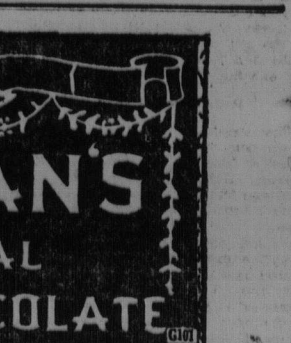

\$35 to \$65.

less 20 per cent. discount.

Gilmour's, 68 King St.

th conclusion of the war, was to receive Trentino, part of Southern Tyrol, Trieste, Istria, and Dalmatia. The four powers signatory to the document agreed not to conclude a separate peace. The declaration bears the signatures of Sir Edward Grey, then British Foreign Secretary; the Marquis Imperiali, the Italian Ambassador; Paul Cambon, the French Ambassador; and Count Benckendorff, the Russian Ambassador.

Dr. Murray MacLaren, C. M. G., left last evening for St. Louis, Mo., where he will attend the meetings of the American Surgical Association.

RECOMMENDATIONS DESIGNED TO PROMOTE UNIFORMITY IN LAWS RE WORKMEN'S COMPENSATION

Committees at Labor Conference. Recommend Thirteen Articles for Adoption—Also Suggestions Regarding Factories Act.

Ottawa, Ont., April 29.—(By Canadian Press.)—Recommendations designed to promote uniformity in laws respecting workmen's compensation and control of factories were made to the Royal Commission on the unification of labor laws at the meeting today. These matters had been referred to two committees, which spent the whole of Wednesday in their consideration. The recommendations regarding workmen's compensation number thirteen and one of them is to the effect that all provinces adopt the idea of exclusive state insurance, to be administered by a board. It is also recommended that all employees of provincial governments and of municipalities, including police and firemen, be included within the scope of the Workmen's Compensation Act.

With regard to the Factories Act, it is recommended that no boy under fourteen or girl under twelve years of age shall be employed in any industrial establishment. The committee also recommends inspection for all factories.

The reports were thoroughly discussed by the twenty-seven delegates on the commission, and after various amendments had been suggested, they voted upon the complete report as given below were adopted.

At the opening of the session, Mr. J. G. Macleod, of Toronto, employees' representative, wished to make it clear that his only idea in connection with the extension of the industrial accident investigation was in respect to having the personnel or machinery of the Act put in a better operating state than it has been found to be under existing circumstances.

Compensation Report.

The special committee on workmen's compensation legislation consisted of Messrs. Macdonald, McMillan, Harris, Lyall, Leckie, McNeill and McVey. Their recommendations as finally adopted were as follows:

1. That provinces adopt the idea of exclusive state insurance to be administered by a board.

2. That all workmen, not especially exempted under the Act, who work in an industry which comes within the scope of the Act, shall be under the Act, regardless of the amount of their remuneration.

3. That all employees of provincial governments and of municipalities, including police and firemen, be included within the scope of the Act.

4. That the scope of the Compensation Act be extended so as to be practicable to include industries not now covered by the Act.

5. That in all provinces contributions to the accident fund shall be borne exclusively by the employer.

6. That all medical, surgical and hospital attention be supplied in cases of injury or industrial accident.

7. That in every province there should be a time limit within which claims for compensation should be filed.

8. That, except in special cases, payment of compensation shall be made periodically direct to the claimant by the board.

9. That injuries due to disease or accident, arising out of and in the course of employment, should be considered as coming within the scope of the Act.

10. That the cost of administration of Workmen's Compensation in each province be borne by the government of that province.

11. That rules and regulations for prevention of accidents be made by the board in each province and safety committees, composed of employers and employees, be established in the various places of employment, and further that first aid appliances be installed at the various plants; all the foregoing to be under the direction of the board.

12. Where under any Compensation Act, the employer has the right to bring his employees under the Act by election, the employer should have the same right where a majority so decide.

13. That in cases of death or injury all provinces should adopt a uniform scale of compensation.

The committee's report was accompanied by a valuable comparative table of Workmen's Compensation legislation in the different provinces.

Factory Laws.

The special committee on factory laws consisted of Messrs. Logan, W. Robinson, Guyon, Riddell, McGrath, Somerville, McDonald and Mc

CONSTITUTION

or COSTIVENESS

Constipation, although generally described as a disease, can never exist unless some of the organs are deranged, which is generally found to be the liver.

There is nothing more productive of general ill health than constipation of the bowels, and a regular action is absolutely essential to general health. One of the most common, painful and troublesome troubles caused by constipation is piles, and unless the bowels are kept open by the use of a good laxative such as Milburn's Laxa-Liver Pills the whole system will be poisoned and many different complications of disease arise, so if you would be well, keep your bowels regular.

Mr. A. Roder, Hastings St., Vancouver, B. C., writes:—"I desire to express my thanks for what Milburn's Laxa-Liver Pills have done for me. I had been suffering from constipation for two years, and also had a bad cough and headache. I tried all sorts of cures and remedies, but got no relief until I was advised to try your pills. I got great relief after the first few doses."

Get Milburn's Laxa-Liver Pills when you ask them or send 25c, and they will be sent by return of mail by The T. Milburn Co., Limited, Toronto, Ont.

INSURGENT LEADER JOINS CARRANZA

Mexico City, April 29.—(The Associated Press.)—Gen. Miguel Samanago, leading lieutenant of General P. Elias Calles, commander of anti-government forces in Northern Mexico, has abandoned the Carranza revolutionists and proclaimed his services to the Carranza Government, according to an official statement issued late last night by General Calles, Chief of the Presidential Staff.

BLAME FOR THE HIGH PRICE OF PRINT PAPER

Placed Upon the Small Manufacturers, Brokers and Jobbers by Witnesses Before Senate Committee.

TAKING ADVANTAGE OF GREAT DEMAND

Brokers Have Brought About a Situation Calling for Gov't Interference—Canadian Mills Worked.

Washington, April 29.—Blame for the high price of printpaper was placed primarily upon small manufacturers, brokers and jobbers, although publishers themselves were held partly to blame by witnesses today, before a Senate investigating committee. Our failed consumption, in order to break the spot market pending increased production, was generally advocated as a remedy. Seven witnesses were heard by the committee, all of whom virtually agreed that reduced production of paper due to lack of understanding between the publishers and manufacturers, together with the rapid increase in advertising since the war, has resulted in a situation of which the brokers and jobbers take advantage. Because of the prevailing high prices, the witnesses said, manufacturers of paper specialties had been enticed into the manufacture of print paper, which had served to aggravate the situation. The regular paper manufacturers were defended and declared to have been reasonable in making new contracts. The witnesses, however, urged that papers should confine consumption of paper to the amount provided in the open market.

McAneny Misquoted

The testimony given yesterday by George McAneny, executive vice-president of the New York Times, was misunderstood in one important particular, and has requested a correction. I was quoted as saying that the supply of the New York Times is derived in part from contracts with "some Canadian mills," and that "contracts with the Canadian mills were made at prices varying from 64 to 84 cents per pound."

"The Times," he said, "has two minor contracts, one for 7,500 tons at 64 cents and one for 4,200 tons at 84 cents, an adjustable price which has varied up to 84 cents. Both of these contracts, however, are with New York mills, not Canadian, and I so stated. The paper that the Times has procured in Canada has all come from the mills of the Canadian Paper Company and for this the Times has not paid higher than the company's contract price of 44 cents."

MESSAGE FROM ROOSEVELT.

London, April 16.—(By Mail)—Peggy O'Neill, American comedienne, playing at the Savoy Theatre here, claims to have just received a spirit message from Theodore Roosevelt, bidding her to take a part as Rosalind in Shakespeare's "As You Like It."

"I received the message at a seance held following a luncheon last week," Miss O'Neill said today.

A DANGEROUS WARNING—BLEEDING GUMS

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhoea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhoea the gums become spongy, then recede; the teeth decay, loosen, and fall out—or must be extracted to rid the system of the infecting Pyorrhoea germs. These germs live in the body's vitality and cause many diseases.

You can keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhoea or checks its progress. It is used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

50c and 60c tubes in Canada and U.S. If your dentist cannot supply you, send to us direct and we will mail tube postpaid.

FOR THE GUMS

ARE YOU GOING TO HELP EUROPE OR STAND ASIDE?

Was the Question Propounded by Sir Auckland Geddes to United States Business Men.

AT ANNUAL CHAMBER OF COMMERCE SESSION

Expressed His Faith That the Republic Would Do Its Share in This Work.

Atlantic City, N. J., April 28.—Changes have been wrought by the war in Great Britain which "almost deserve the title of revolution," said Sir Auckland Geddes, British Ambassador to the United States, in an address tonight before the annual convention of the United States Chamber of Commerce. Vast new classes have been introduced, he said, and the working classes, strongly anti-Unionist, now hold "ultimate political power."

"They seek to the limit of the nation's power," Sir Auckland said, "to secure tranquility in Asia Minor, in Asia and Africa. Silently and without fuss the army has been reduced to strength which many think barely sufficient to police the Empire. The people are determined to deal with problems of health, housing and education. They see clearly that to secure their purpose they have to end the canons and autonomies that have torn Europe and brought her to the brink of disaster."

Reports of discussions between representatives of Britain and France, and France and Italy at San Remo were "fantastic," the Ambassador asserted to the Chamber. "The great question you have to decide," he continued, "is this: Are you going to stand by and wait for Europe's troubles to come after you, as they will, or are you going out to help Europe—and remember that excluding the European part of the British Commonwealth of Nations—to win through in reasonable conditions."

"I dare not presume to suggest what your answer should be, but I believe from the bottom of my heart, that all the nations of Europe, including Germany and Russia, have to be got back to work and solvency before the world is going to be safe and comfortable for democracy or business or trade, or that anything that makes the life of millions worth living."

"These are difficult times for all of us. We need sanity, courage, good will, the rooting out of suspicion, the dying away of anger."

"I know you as a nation well enough to prophesy that when the building of a new world is done you or your sons will be able to look back and say: 'We are glad that we took the larger view. This is our handiwork as well as theirs.'"

"I wonder if you know how great your nation is? I am not thinking of miles or dollars or population. I am thinking of the American spirit, one of the three or four great powers, the great forces of the world."

INDICTMENTS ARE SOUGHT AGAINST STRIKE LEADERS

New York, April 28.—Indictments charging violation of the Lever Act will be sought by the Government against leaders of the railroad strike from all corners of the country, according to a statement today by Assistant United States Attorney General C. B. Ames, at the close of an investigation he has been conducting into transportation strikes here.

Federal grand jurors in New York and Newark will be asked to proceed against the strike leaders, Mr. Ames said. He asserted that Department of Justice agents have fully established the identity of these leaders.

Joseph L. Bodine, assistant United States attorney for New Jersey, who was present when Mr. Ames made his announcement, said the New Jersey Federal grand jury is in session and ready to take immediate action.

None of the railroad strikers was summoned by the Government's investigators, it was stated. Mr. Ames said he was convinced that neither the brotherhoods of railroad employees nor the American Federation of Labor had been involved in the strike.

The outlaw railroad strike situation seems to be improving steadily, Mr. Ames said, "and I do not think it requires attention further than possible punishment for the violation of law."

Mr. Ames said the strike of harbor workers, and the charge of certain commercial interests that there is a combination of truckmen and fish handlers to boycott fish caught and consigned by union fishermen. Conferences with the commercial interests affected by the various strikes and with representatives of the strikers and their employees were held by Mr. Ames.

FEW COMPLAINTS BEFORE COMMISSION

Appointed to Look After Tenants Harassed by Pro-Tenants Landlords.

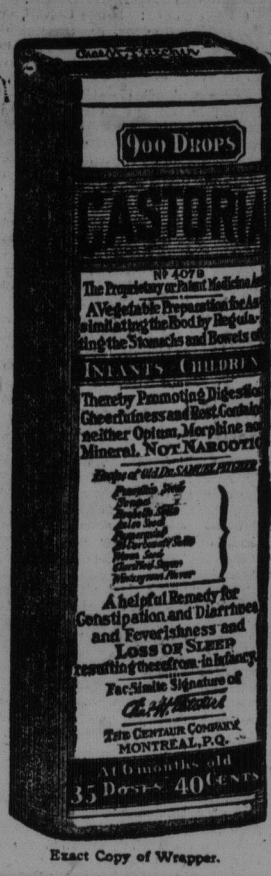

Montreal, April 29.—Although the Rental Commission to investigate complaints of profiteering by landlords, was formed about the middle of February by the Administrative Commission, so few complaints have been received that the rental commission may ask the Administrative Commission to abolish it. Members of the Charter Commission expressed the opinion that efforts, generally recognizing that the commission had very little actual power to compel landlords to adjust rents so that no business would be done to tenants, simply suffered the expenses made and sustained from taking any action in the matter.

Imitations Are Dangerous.

AN OHIO druggist writes to "The Practical Druggist," a prominent New York Drug Journal, as follows: "Please furnish formula for Castoria. All the formulas I have worked with are either ineffective or disagreeable to administer."

To this "The Practical Druggist" replies: "We do not supply formulas for proprietary articles. We couldn't if we wanted to. Your experience with imitative formulas is not surprising, but just what is to be expected. When Castoria is wanted, why not supply the genuine? If you make a substitute, it is not fair or right to label it Castoria. We can give you all sorts of laxative preparations for children, but not Castoria, and we think a mother who asks for Castoria would not feel kindly toward you if you gave her your own product under such a name."

Someone some day may try what this druggist was advised not to try, so beware. Remember that Fletcher's Castoria is safe and not an experiment.

Children Cry For Fletcher's

CASTORIA

Mothers Must Use Care.

Why do we so often call your attention to imitations of Fletcher's Castoria? Because it is a baby's medicine and imitations are always dangerous, particularly imitations of a remedy for infants.

Druggists generally, the great majority, are reliable and think only of the welfare of their customers. But there is the other kind, as seen above, whose only aim is the greater profit in handling spurious goods. Again we say: beware.

Your own judgment tells you that Fletcher's Castoria having for over thirty years at great expense held up its reputation, must jealously guard it. Then, it follows that this company must use the very best of material. Must employ experts in the selection of the herbs. Must retain skilled chemists in its manufacture.

Your same good judgment must tell you that these irresponsible imitators are trading on your credulity and the reputation built up by Mr. Fletcher, during all these years, for his Castoria.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

THE CENTAUR COMPANY, NEW YORK CITY.

CAN'T MOVE LIQUOR FROM WINTER TO SUMMER HOME

New York, April 28.—Interfering liquor laws removed by the owner from a winter to a summer residence without violating the law, according to a regulation under the Volstead Act.

Persons can have liquor transported if moving from one place to another, permanent, by obtaining a permit from the State Prohibition director.

The owner can have liquor stored in both summer and a winter home, but cannot transport the goods from the winter home to the summer home, subject to arrest and prosecution.

The law is very clear on these points," said James S. Shevlin, Superintendent of the Prohibition Enforcement Agency.

"We are receiving hundreds of inquiries from persons who have summer homes in New York and New Jersey and also have liquor stored in their winter residences."

"They wish to transfer their liquor from winter home to summer residence. This cannot be done unless a person takes up a permanent residence from a former home by the complete removal of all furniture and effects."

The regulation reads: "Any person who legally possesses intoxicating liquor in his private dwelling under the conditions set forth in the law and changes his personal residence may have such liquor transported to his new permanent residence."

Despite the reading of this regulation, there has been much discussion and disagreement over its terms. Federal Prohibition Commissioner Kramer says:

"Liquor cannot be transported from a winter to a summer residence. Such transportation is only permissible from one permanent home to a new permanent home. It makes no difference, either, whether the summer or winter home is within or without the state."

The Hacking Cough Strains The Lungs.

The terrible, hacking, lung-wracking cough that sticks to you in spite of everything you have done to get rid of it is a great source of danger to your health, and the longer it is allowed to stick the more serious the menace becomes.

You can easily get rid of the cough or cold at its inception by using Dr. Wood's Norway Pine Syrup, a remedy that has been universally used throughout Canada for the past 30 years.

Mrs. Samuel Matthews, Portage, P. E. I., writes:—"Last winter I caught a heavy cold, and was laid up for some time. I had such a hacking cough I could not sleep at night, and did not think I could ever get over it. One day a friend dropped in to see me and brought me a bottle of Dr. Wood's Norway Pine Syrup. I was surprised to see how well it worked. I had taken two bottles, my cough was all gone, and I was able to get to bed. I do not think there is anything to equal it."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, 3 pins and 50c. Price 25c. and 50c. Manufactured only by The T. M. Wood Co., Limited, Toronto, Ont.

PUBLIC WILL JOIN IN BIG CANCER DRIVE

Series of Open Meetings to Increase Knowledge of Mysterious Disease.

New York, April 28.—A great medical offensive against one of the most horrible scourges of mankind, cancer, will be launched in this city May 13 and will be pursued until May 29, in a series of thirty-two public meetings. The whole medical profession, led by the most eminent of the members, will spend two weeks and a half
