Rising and Setting of the Sun, Moon and Principal fixed Stars, the
Moon's Age, time of High Water, besides more
Calculations of the same Matter never published in an Almanack.

By ABRAHAM ZAGUTUS, A.P.

JOVE saw the Heavens in a little Glass ;
And Laughing to the Gods, the world did pass :
Come then the powers of mortal care to far ;
In little orbs, my Labours need are.
The Name of the Poles, the faith of things,
The Name of Gods, this Brunswickian brings
To our Art ; Spirits inclod attend
I have several spheres, and with such motion bend
The living work ; each year the signed Sun,
Each month returns the counterfeit Moon.
And showing now her world, bold Industry
Shall proud to know the Heavens his subjects be.
