40

Ottawa, July 20, 1925.

Dear Mrs. Fallis:

I received your letter of the 17th Saturday. Have already taken this up with Dr. Telmie. He thoroughly approves your idea. Of course it consists mainly in adopting the "chapter" system and adopting a new name. These are the only differences from the ordinary associations. We both think the idea of trying it out in the county where it is first proposed is the best.

When I am writing please pardon me if I mention one thing. I hope you try to see at each point you visit that your organization meeting is attended by representatives from each township, and particularly that no part of the riding is omitted in spreading the woman organization. The ultimate end, of course, is to get some competent woman in charge (along with some competent man) of each individual poll.
