

Has Your Locality a Telephone System?

DO your neighbors and yourself enjoy the privileges and benefits of an up-to-date telephone system?

It's more enjoyable, more sociable, more business-like, and safer, living in a telephone-served locality.

You are always in touch with your neighbors. You can talk business with the creamery, the implement agents, the stores, the bank and your lawyer. You can call the railway station and learn if an expected shipment has arrived. In time of sickness you can summon the doctor immediately. You can call your neighbors to assist you in case of a fire, an accident, or an unwelcome visit by tramps

If there is no telephone system in your locality send for our famous book entitled

"Canada and The Telephone"

With this book, which shows by means of vivid pictures the necessity of rural telephones, you can quickly promote a local company, and enjoy the distinction of being known as the most progressive man in your locality.

Our Engineers will assist your company or any municipality requiring expert advice in planning con-

struction or solving operation problems. This service is free.

No. 3 BULLETIN

Our new No. 3 Bulletin gives a complete description of our telephones, which are the highest-class on the market to-day. It also tells how rural telephone lines are built, how equipped and how maintained. Write for this bulletin.

The Best Farm Locations

Productive lands, favorable climate, and abundant rainfall make farm locations in the Southeast the most profitable.

Land from \$18 to \$50 an acre close to the best markets. Wheat, corn, hay, all truck crops, give best returns. Conditions unsurpassed for dairying and live stock, hog and poultry raising. Beef and pork produced at 3 to 4 cents a pound.

Five to six crops of alfalfa per season grown. Good farmers make \$6 to \$100 bushels corn per acre. Home markets near at hand pay highest prices for dairy products and demand is unsurpassed. Apple orchards pay \$100 to \$500 an acre, and orchard lands cost only a fraction of those in other sections.

The Southeast Has Locations for Every Kind of Farming. The climate assures the finest results from intelligent agriculture, and makes the region unsurpassed as a pleasant and healthful home location. It is an open winter country, and is financially accessible. You can locate where there are good schools, churches, roads, rural delivery, and all other advantages. The Southern Railway and associated lines will help you find the location you desire. Our several publications, free on application, give full information. Address:

M. V. RICHARDS, Land and Industrial Agent, Southern Railway, Room 3D 1820 Pennsylvania Ave., Washington, D. C.

The B-T LITTER CARRIER

Has splendid features not found on other makes that are well worth noting. Its construction is simpler than any other.

Its parts are stronger and more heavily built. Only the best of materials are allowed to enter into the construction of the B-T Carrier.

In Lifting we use double purchase. The bucket can be tipped either way to discharge and can be wound up three inches closer to the track than any other carrier.

The windlass shaft is made of solid rolled steel, no gas pipe being used in the construction of the B-T.

The above are only a few of the points that have made the B-T Litter Carrier so popular and if you will let us send you a copy of our new catalogue, you will learn a great many more. It is free and will interest you. Write to-day to

BEATTY BROS.

FERGUS, ONT.

We also manufacture Steel Stalls, Stanchions and Hay Tools.

When The Cow Has Done Her Part

OF COURSE it's important that the cow do her part. But after that, it's up to your cream separator. If it doesn't get highest quality cream—if it doesn't skim to a trace—you are robbing your self of the profit that your cows have produced.

I H C Cream Harvesters get full value out of the milk, not for a few months only, but through years of constant service. They have proved their durability, close skimming, easy cleaning, and easy running advantages.

I H C Cream Harvesters Dairymaid and Bluebell

are the only separators with dust-proof and milk-proof gears, which are easily accessible. The frame is entirely protected from wear by phosphor bronze bushings. These separators have large shafts, bushings, and bearings; the flexible top-bearing is the strongest and most effective found in any separator. The patented dirt-arrester removes the finest particles of dirt from the milk before the milk is separated. I H C Cream Harvesters are made in two styles—Dairymaid, chain drive; and Bluebell, gear drive—each in four sizes.

The I H C local agent will be glad to point out the above features and many others, or, write to nearest branch house for catalogues and other information.

CANADIAN BRANCHES—International Harvester Company of America at Brandon, Calgary, Edmonton, Hamilton, Lebbell, London, Montreal, North Battleford, Ottawa, Regina, Saskatoon, St. John, Weyburn, Winnipeg, Yorkton.

I H C Service Bureau

The Bureau is a clearing house of agricultural data. It aims to give the best ways of doing things on the farm, and then distribute the information. Your individual experience may help others. Send your problem to the I H C Service Bureau.
