

"RAPID-EASY" GRINDERS

Can do for you what they are doing for others—grind MORE grain with the SAME POWER than ANY OTHER GRINDER.

Made for use with Tread Power, Sweep Power, Wind-mill or Steam Engine.

PERTH, ONT., Feb. 26th, 1901.

I bought one of your No. 2 Rapid-Easy Grinders from your agent, Mr. John Dittick, and I must say that it more than pleased me, and exceeds my expectations. It is noiseless, RUNS EASY, grinds FAST; there is no bother with it. On one occasion we brought from our granary what we considered a good day's grinding, but to our surprise we were done BEFORE TWO O'CLOCK, and it took two men, doing ALL THEY COULD, to carry the grain fast enough to keep the grinder going. I do not say this for any blow, but am just speaking of the machine as I found it. I got the machine on trial. We have used other grinders, but NONE TO COMPARE WITH THIS.

JAMES MACLAREN.

[NOTE.—Mr. MacLaren is son of Senator MacLaren, of Perth.]

CHOICE SEED POTATOES.

Hovee.—Claimed to be the earliest of all, and one of the very heaviest yielders; in competitive trials it has outyielded all the early potatoes, and most of the late ones; the tubers grow very even in size, practically all being marketable, the quality perfect; on good soil, well cultivated, no other early potato compares with it. Early Ohio.—Very early, tubers almost round, flesh solid; cooks dry and mealy. Uncle Sam.—A medium late variety; is the handsomest potato grown; in cooking qualities is very superior; white, dry and floury; of luxuriant growth, being free from disease, blight, scab or rot; it out-yields all other varieties; in shape and size is wonderfully uniform. Sir Walter Raleigh.—A grand main crop; potatoes in most respects resembling the Rural New Yorker No. 2, but is more uniform, and yields practically no small tubers; it is one of the whitest-fleshed and finest grained potatoes, excelling even the Snowflake; the very best of Mr. CARMAN'S productions. One cent per pound.
