ELEGANT AND INVALUABLE ARTICLES FOR THE TOILET.

BOGLE'S HYPERION FLUID,

FOR RESTORING, PRESERVING, AND RENDERING THE HAIR.

The following Certificate, from Dr. Holmes, of St. Louis, one of the most eminent Physicians of America, will show the estimation in which it is held by the scientific and learned, being not only of world-wide celebrity, but the only one ever awarded.

St. Louis, Feb. 15, 1847.

Mr. Wm. Bogle,—Sir,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and cleans the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well known patented compounds.

WINSLOW LEWIS, M.D.

It is no indispensable article for the Ladies, as it keeps the hair in place and order, and the skin or parting of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the Amole, or "soap plant" of California, an article used by the natives of that country for washing; and then the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the dressing case of the polished gentleman, or the toilet of the most fastidious connoisseur.

BOGLE'S HEBEAIONA,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is equally efficacious in protecting the skin from the hot sun of summer, and freezing blasts of winter, and is the most fragrant and delicious article to be found at the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

WISTAR'S BALSAM OF WILD CHERRY.

We have not unfrequently called attention to this article in the columns of our paper, and we have done so with the full confidence that it was a good one, and deserving the patronage of the public. We have had a chance to witness its effects upon some of our friends, which, in addition to the high encomiums passed upon it by our brethren of the press, put to quiet rest all doubt in honest, candid statements, from having derived a benefit themselves, makes us doubly sure of advising all those who have occasion to resort to a remedy for pulmonary affections, to avail themselves of it. We have no more confidence in Mr. Fowle, the general agent, to believe he would thrust this, or any other medicine, upon the community, unless he had full faith in its efficacy—its confirmation of which the proprietor offers a mass of testimony from the most unquestionable sources. Neither would we be understood as saying that this will always cure consumption after it is seated, although it seldom fails to relieve the worst cases—but at this season of the year almost every body is liable to a cold, which, if neglected, will lead to fatal results—by taking this medicine, you think that many lives may be saved.—[New Hampshire Washingtonian, Boston.

From the Eutawan (N. Y.) Spirit of the Times.

This is one of the very few patent medicines of the day which we can recommend with confidence, to all who are afflicted with Coughs, Colds, or Consumption, or who are predisposed to the latter complaint. It has been used with considerable success in this section, and we learn from some of them, from the publication of Hunt's Analysis, have been fully confirmed by my experience of their beneficial effects.

I have found them a most agreeable and efficacious antacid laxative, and their continued use seems to answer the purposes of a tonic, by improving the digestive powers and increasing the appetite.

Sir,—Having recommended to my Patients in the Hotel Dieu Hospital of this city, the use of the Plantagenet Waters, I consider them to be very efficacious in allaying the great heat and thirst attending Fevers; also in cases where there is Acridity of the Stomach, in Rheumatism, Dropsy, certain Affections of the Kidney and Skin, and in cases of Costiveness. In all cases, Medical advice should be taken.

BALDNESS CURED.

The following is from Sumner F. Barrett, Saratoga Street, East Boston.

EAST BOSTON, Feb. 2, 1847.

Mr. William Bogle.—Dear Sir: For several years past, my wife has been troubled with baldness on the crown of the head, about six or seven inches in circumference,—After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, which, instead of restoring her lost hair, and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it in a more constant and more regular, I am convinced that the growth of the hair would have been accelerated. I am, Sir, yours respectfully,

SUMNER F. BARRETT,

I, the Mayor of the City of Montreal, in Canada, certify and attest, as being within my own knowledge, the facts hereafter mentioned:—

1. The physicians who have given certificates setting forth the virtues of the Plantagenet Waters are well known to me, as enjoying a large practice, and occupying a distinguished rank among the members of the Profession.

2. On my own behalf, I may say that I have experience in beneficial effects during the intense summer heats. I have often preferred this natural fluid to the Soda Waters and refreshing Syrups commonly in use for that purpose.

I think myself fortunate in being able to add my disinterested testimony to that of the physicians of this city, and confidently recommend to the public the use of the Plantagenet Mineral Waters.

In doing so, I believe that I fulfil a duty imposed on all good citizens, that of assisting in the maintenance of the public health.

Unless you protect it with this preparation.

In all cases of fever it will be found the most refreshing wash that can be used.—A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. PLANTAGENET WATER.

For the past eleven years I have labored under an impaired state of the digestive organs, from which I have found no relief, even by following the prescriptions given by the best physicians of Paris, of Beauvais, of Crepy, and of Gresy, on the Isere; but since I have made use of the Plantagenet Waters, I find myself much better. My health has sensibly improved, and I am quite inclined to believe that, by the means of these beneficial Waters, I can be radically cured.

MAURICE PROUX,
Priest.

Soulanges, 24th May, 1850.

My disease is a *Hypocondria*, which has become chronic. I feel an oppression and constriction in the articulations of the *Epigastre* upto the shoulders, where the contracting of the articulations is more especially felt. Since I drank of the Plantagenet Mineral Waters, it seems to me as though my stomach has been cleared of fifty *Kilogrammes*. Before I made use of your Mineral Waters, I never expectorated, now I expectorate a large quantity of slimy matters. I think that, for those who are troubled with vitiated humours, there is no better cathartic than the Plantagenet Waters, because they operate without debilitating or irritating the digestive organs. These advantages are never found with Pharmaceutick medicines, as experience as taught me; for after many false digestions, caused by a diet too sedentary, I have tried and used prerogatives of the Pharmacopeia—which have been the source of my severe illness.

Accept, Sir, the assurance of my great consideration,

MAURICE PROUX,
Priest.
