ARMED GUARD FOR REMOVAL OF THAW

It is Feared That There Might be an Attempt to Kidnap the Notorious Harry - Precaution to be Taken.

[Canadian Press Despatch] SHERBROOKE, Que., Aug. 23.—While deprecating all the talk about "kidnapping," etc., which has been heard here and pointed out in the American press, it is known that authorities here are seriously contemplating providing Thaw with an armed guard when he is brought down from the prison to the court house next Wednesday. Sir Lomer Gouin, premier of the province, has invited Sheriff Aylmer to give an opinion as to whether adequate protection against a raid on the court house is possible. The sheriff is of the opinion that a raid on the court house is possible. The sheriff is of the opinion that a raid on the court house is possible.

When Mr. and Mrs. George Lauder Carnegie arrived here Wednesday night after Thaw's arrest at Coaticook as a fugitive from Matteawan, it was understood that they would take charge of his case, and that from them the court would receive instructions as to the desires of the Thaw family. Thaw at that time had been warned by relatives in lengthy messages not to appear in person at the court house, and it was understood that his lawyers were to ignore him in their efforts to thwart his deportation to the State of New York. But when Mr. and Mrs. Carnegie left Sherbrooke, Thaw resumed his old tactics, and his eight lawyers were in a quandary to-day as to who was chief counsel.

Dreary Financial Picture Not Supported By Facts

Mr. R. H. Reville, Now on Trip to the West, Writes Interesting Letter Regarding Conditions Around Winnipeg.

(By R. H. Reville). Winnipeg may well be called "The City of Optimism." We in the east, all Canadians, to the West. We have heard of the collapse of the land boom in the well nigh total extinction of the sub-divider. We have heard of bonded credits, both upon the part of wholesalers and bankers. We have heard of blue ruin stalking right and left through city, hamlet, and prairie. But a visit to Winnipeg this sunny morning August 22 doesn't seem to fit in with this dreary picture of western reverses, painted so vividly by the eastern financial artist. Winnipeg to-day is aglow with life. The streets are lined with people. The air is filled with the young, energetic forward side for one moment. She is still extending her borders and adding to her population by natural increase and by the adoption of thousands of newcomers whom the yearly makes good for and absorbs.

WHERE THAW'S TRIP IS DELAYED BY HAND OF CANADIAN LAW

The upper view is of Commercial street, looking north, in Sherbrooke, Que., where Thaw was arraigned. Arrow indicates court house.

The lower picture shows the court house in Coaticook, where Thaw was taken immediately after his arrest.

JACK JOHNSON'S TROUBLOUS TIME

His Appearance in English Music Hall Stirs up Much Criticism.

LONDON, Aug. 23.—Madie Scott, one of the performers scheduled to appear at the same music hall next week as "Jack" Johnson, cancelled her engagement to-day rather than appear on the same stage as the negro heavyweight. Henry Tozer, manager of the syndicate owning the music hall where Johnson is engaged said to-day that the decision regarding the cancellation of the Johnson contract had been postponed until to-morrow, adding: "There are two parties to a contract."

All this talk is due to jealousy because I defeated all the English-speaking champions. The newspapers continue their campaign by editorial progress and by their columns of letters to the editor. The Rev. F. B. Meyer, honorary secretary of the National Free Church, council, who took a leading part in preventing the fight between Johnson and Wells, says: "The engagement of Jack Johnson seems to me to be a thoroughly backward step and one which is likely to give a great setback to the tone of the music halls. Surely after the recent exposures in the American courts and the other associations of recent years with his name and doings, it is hardly worthy of the traditions of the English variety stage to put this man on. I only hope the masses of music hall frequenters will let the managers understand that they do not want an exhibition of this kind and I congratulate the variety artists federation for the splendid stand it has made. All who have the opportunity should use it to prevent the scandal of this exhibition. The licensing sessions next November ought to have something to say about it."

At the O. R. A. Matches Shooting in the Tait-Brassey match yesterday in the O.R.A. matches at Long Branch, which have just been concluded, Capt. Neill of the B.C. cadets, won \$3; also \$3 in the Mackenzie match.

Should Be Stopped. Young ladies are complaining bitterly about the insulting and insinuating remarks that are often made at them by some young men who gather on Jubilee Terrace in the evenings. The police should put a stop to the practice.

New License Board. The new License Board held a meeting in the Mayor's Office yesterday evening and it was decided that those who are supposed to take out licenses and have not done so will be advised to do so at once or be summoned to the police court. The board visited a number of restaurants and boarding houses and found them in first-class condition.

Crops Will Be Average In Two Big Provinces

(Special to the COURIER) EDMONTON, Aug. 23.—After a trip of eight hundred miles through Saskatchewan and Alberta, I am in a position to say that the crops in the vicinity will be about the average, wheat probably 23 bushels average to the acre. All danger of frost is past since full moon last night. It looks, too, as though the rain, which has been prevalent here, has ceased. Brilliant weather here today. Saw many fields which will go over 40 bushels an acre. Bankers and merchants here are very optimistic over outlook. The depression in the west is rapidly disappearing, and prospects for a good fall and winter trade are excellent.

Lord Haldane Is a Unique Englishman

High Chancellor Sails for Canada—He Has a Terrible Fear of Newspaper Reporters.

[Canadian Press Despatch] LONDON, Aug. 23.—Lord Haldane, high chancellor of England sailed on the Lusitania to-day to deliver the opening address at the American Bar Association meeting in Montreal. He spent the last day in England in considerable discomfort. Although he has taken the regal suite on the Lusitania, Lord Haldane and his sister were compelled to live in a tiny room ten feet square yesterday, because the remainder of the house had been surrendered to decorators. Their humble chop however, was quite in accordance with Lord Haldane's ideas. Although he was earning enormous fees at the English bar, he had the strongest objection to paying more than 25 cents for dinner at the House of Commons, while to-day with a salary of \$30,000 in addition to a large private fortune nothing grieves him more than being compelled to buy a new suit of clothes. In fact the necessity for this has been the sole fly in the ointment as regards his American trip. Lord Haldane refuses to be interviewed. He says it is against the wishes of King George, and deprecates the attitude of Lloyd-George, who is always accessible to reporters.

BUILDING THE HADDAWAY HOME

Two Hundred Dollars Subscribed—More Money Needed.

Up to date \$204 has been subscribed towards the \$600 required to build the house known as the Haddaway house, which is being built by the members of the building trades for the widow and family of the late John Haddaway. The house is partly completed, and it is the desire of those in charge to have the building complete before the cold weather. The members of the building trades are doing the work in their spare time. Messrs. Harris, Cook & Co. are the treasurers, and subscriptions left with the company will be much appreciated.

A number of motor parties are being arranged to spend Labor Day and the week end at Caledon Club.

CONFESSED THAT HE SHOT YOUNG PICKELL

Detroit Police Follow Up Murder by Rounding Up Gang of Young Desperadoes - A Deliberate Crime.

DETROIT, Aug. 23.—I was with 'Lefty' Ginnis when he purchased the gun that was used in killing Watchman Pickell at the Aluminum Castings plant last Monday night, said Gus Liske, 18 Pollard street, to Assistant Prosecutor Tomes yesterday afternoon. Ginnis was Liske's roommate at the latter's home. They had been friends for some time, and neither had a steady job. At the time the watchman was killed Ginnis was driving a truck. Liske said yesterday that his roommate asked him to go down to a hardware store Monday afternoon and help him pick out a revolver, which he wanted for protection, as he was in the habit of returning home late at night. The two went to Burstein's hardware store, Russell street and Gratiot avenue, where Ginnis purchased a gun and a box of cartridges. Liske claims that he did not accompany Ginnis to the castings plant where the killing of the watchman took place. Warrants charging breaking and entering have been issued against Fory Opra, Leo Hemple, Mike Oshetski and Joseph Janzewski. The prosecutors say that the four men carried away 19 pigs of aluminum from the Aluminum Castings plant four nights before the watchman was assaulted.

Ginnis, lying on his bed in St. Mary's hospital, yesterday morning declared Pickell shot him three times, twice in the shoulder and once in the hip, before he returned to the fire. Three of those arrested in connection with the death of Pickell were released yesterday. Story of the Confession. DETROIT, Aug. 23.—John Ginnis, 18 Pollard street, a pale-faced, sickly looking fellow, who claims to be only 18 years old, arrested on suspicion because of unexplained bullet wounds admitted shooting Watchman Herbert Pickell on Monday night, when questioned by the prosecutors this morning. "There were six of us in the gang and we had planned to haul off a good bunch of aluminum," said Ginnis. "We had carried out 40 pigs of the stuff and were ready to load it into a wagon when the watchman appeared. He ordered us to hold up our hands and we did. Then he told us to walk into the building. When we got near the door we ran into the building and tried to slam the door before he could get in. In the excitement several shots were fired and Pickell fell to the ground. I was shot twice through the arm and once in the right leg. As soon as we saw the watchman go down, we ran out and separated as quickly as possible. The bullet wounds pained me a good deal, but I was afraid to see a doctor for fear

New School Demanded By The Local Trustees

City Council Will Be Asked to Submit a By-Law in January - Boundary Matter Discussed.

At the Public School Board meeting held last evening in the city hall, it was decided to request the City Council to submit a by-law to the people for money to build a new school on the board's property in the vicinity of Rawdon street. It was stated by the secretary that when the grading and furnishing of the new Dufferin school had been completed the total cost would reach over \$63,000. The board was taken up and several changes made. A number of matters of a routine nature were also dealt with.

Transfer of Teachers.

Several communications were read from teachers and others who were dissatisfied with the locations of members of the staff. After an extended discussion it was decided to leave Miss Bell at Alexandra and Misses Annis and Pelling at King Edward—where they formerly taught. Miss Tench will be transferred to Ryerson from King Edward for the present, but it is fully expected that Landman's place will have to be used again this year owing to the crowded condition of the schools, in which case Miss Tench will be placed there, and a new teacher secured for Ryerson. Miss Annie Gillespie was transferred from Alexandra to Central. Miss Sickle filling the vacancy. Chairman Ryerson raised strong objection to the latter exchange, but it passed the board. Mrs. Cullver will act as supply teacher. Boilers at Ryerson. A report from Inspector Stewart re the condition of the boilers at Ryerson school was read. He criticized their condition severely. The matter will be finally dealt with at a later meeting of the board.
