

WITH THE SOLDIERS

NOTES OF THE 125TH.
 Officer of the day: Lieut. Oxtoby. Next for duty, Major Shultis; subaltern of the day, Lieut. Wallace; next for duty, Lieut. Verity.
 A comparison of company and regimental conduct sheets, also of guard reports and minor offence reports was held last evening in the orderly room.
 A meeting of the sergeants of the battalion was held last evening in the armories.
 A muster roll of the battalion is being taken on the market this morning. Extract from camp orders: Subsistence allowance officers, N.C.O.'s, and men of C.E.F. attending courses outside of their own district. It has been brought to notice that, in many cases, officers, N.C.O.'s, and men attend certain courses, other than the schools provided for under Militia Order 31, of 1910, in a district other than the one in which their unit is stationed, and that District Paymasters are not quite certain by whom they should be paid. In such cases, the subsistence allowance is payable in the District where the course is held, on the certificate of the officer in charge, and on the recommendation of the officer commanding the district. The pay and field pay will continue to be paid on their own unit's pay sheets. The fact that an officer, N.C.O. or man is proceeding away to any such course should be published in Part 2 orders.

NOTES OF THE 215TH.
 Lieut. Col. Cockhutt has returned after a short holiday and is busy at

the battalion headquarters once more. The present strength of the battalion is 261.
 An excellent programme of moving pictures and music has been arranged for Saturday night's concert.
 A military scribe and dance is being given to-night at the Burford armory by the ladies of that place, the proceeds of the affair to be devoted to the Burford recruiting league.
 As a result of the large number of Armenians who have joined the battalion, an Armenian platoon is being formed. By thus keeping them together, under an instructor of their own nationality, it is expected that excellent results will be obtained from these men.
 Under the direction of Major Snider, a musical club is being organized in the battalion.
 An Alford Junction was the scene of a very enthusiastic meeting last night, at which the speakers were Captain Richardson, Captain McKegney, and O-M. Serat; Taylor; moving pictures were shown by Mr. Goodwin of the Y.M.C.A., and several recruits are expected as the result of the meeting. It is becoming evident that the farmers are beginning to realize their duty, and that recruiting is improving in the country districts.
 Wilfred G. Hart, son of Dr. Hart, attested and was sworn in this morning.
 Excellent progress is being made with the battalion band, some 17 members having been already obtained. A band committee consisting of Capt. Andrews, Capt. Muter and Lt. G. E. F. Sweet has been appointed.

Inspection of Grace Church Lads' Brigade

Major Wayling Put Boys Through Manoeuvres on Tuesday.

On May 2nd, Grace Church Lads' Brigade were inspected by Major Wayling, Government Inspector of Cadets.
 After a minute inspection of books, stores, etc., which he considered most satisfactory, the company was put through squad, company, platoon and signalling drill by Sgt.-Major Frank Riley, who is now practically in command, five instructors and three other officers having enlisted for active service.
 The inspection officer congratulated the Captain, Rev. C. Paterson-Smythe on their steadiness and military manner. Sgt.-Major Riley handled the company.
 Twenty-eight boys were on parade, fourteen wearing marksmen's badges, fourteen second-class and 4 third-class shots.
 The inspection officer gave great credit to Musketry Inspector Causland for his very able tuition, and said he hoped the boys would make a good showing in the Imperial Service Trophy to be shot for May 24.
 The following promotions were made: Sergt. F. Hall to Quartermaster-Sergt.; Corp. N. Causland to Sergt.; Pte. N. Moore to Lance Corporal; Pte. R. Hall to Lance Corporal.

DAVID WEBSTER JR. CHIEF ENGINEER AT WATERWORKS

Appointed to New Position At Meeting of Commissioners Yesterday
MR. WEBSTER SR. TO BE RETAINED Will Act in Advisory Capacity for Five Years At \$500 Per Annum

A meeting of the Board of Water Commissioners was held yesterday at the City Hall at 3.30 p.m. Those present were: His Worship, Mayor G. Montgomery, Chairman John Fair and A. G. Montgomery, Secretary.
 The minutes of the meeting of April 6th were read and confirmed.
COMMUNICATIONS.
 The secretary read the following communications: From Chipman and Fowler regarding pump installation at the Waterworks, dated April 8th, 24th, 25th, May 1st and 2nd. The Turbine Equipment Company, dated April 8th, From Prof. R. W. Angus, B.A.Sc., regarding pump tests dated April 12th, 15th, 20th, 21st, 22nd, and 3rd. All of which were ordered to be received and filed.
RESOLUTIONS.
 Moved by A. G. Montgomery, seconded by John Fair: That the secretary advise the Turbine Equipment Company, Prof. Angus and Chipman and Fowler that the commissioners desire each to attend a meeting of the board, May 15th at 3 p.m., and be prepared to give definite information regarding the pumps lately installed here. Carried.
 Moved by A. G. Montgomery, seconded by John Fair: That there be obtained from the Parks board commissioners about 500 soft maple trees of suitable size to transplant at a nominal price not to exceed 15c, each to trees 6 to less in diameter than one inch, that they be transported on that portion of the Water Works property and at such a distance apart as the commissioners may decide on the work to be done at once under the supervision of the mover by the Water Works employees, and that a committee of the board interview the Parks board at their meeting to-night. Carried.
 For the last two years construction work costing over a quarter of a million dollars and the installation of new pumps has been carried on by the commission. The work consisted of changing and laying new pipes, mains and other work in connection with additional pumping house, building new well, new intake, screen house and water supply galleries with the hot water system. In order to have this work done with efficiency and economy, an assistant engineer was retained in addition to the regular pumping engineer to carry out the plans and specifications of the new work. The construction work being finished an assistant engineer is no longer required.
 Mr. David Webster has been connected with the waterworks for nearly forty years and it was thought he should still be retained in some capacity. His salary at present is \$2,000 a year, plus an electric room house, free fuel, light and heat and water. The board decided that the best thing to be done was to appoint a chief engineer at \$3,000 a year and in addition the present extras given to Mr. Webster, and to retain Mr. Webster as an advisory engineer for five years at \$500 per annum in view of his long and faithful services.
 It was, therefore, moved by A. G. Montgomery and seconded by John Fair: That David L. Webster Jr., be appointed chief engineer of the waterworks at \$3,000 per year with free use of the present house at the Water Works, free fuel, light, heat and water from June 1st, 1916, payable monthly. That the present chief engineer be retained for five years in an advisory capacity at \$500 per annum payable monthly. Carried.
 Commissioner A. G. Montgomery gave notice that at the next regular meeting of the board that he would introduce a resolution dealing with the duties pertaining to the different departments of the water works system, regulating the salaries and wages and hours of employment.
 A list of accounts was passed.
