His Honor also made reference to the endeavor, on the part of the delightful." ago "there was a more profitable market for stock than there exists the presence of three professionals—Mr. Fessenden, Miss Kellogg, and Miss Holmes, of Boston. to-day, caused in part by the large Among the prize winners in the consumption by the troops then state the name of Mr. A. C. Atkinson, of the manufacturing department we notice the made of Mr. A. C. Atkinson, of the Honorable Members in Kent to Albert and those bordering on the Society purchased four, at \$25, \$24, \$27, \$27. St. John river, would turn their attention to this new and important exportation.

The following description of the new Exhibition building (which was DEAR ADVOCATE.designed by Messrs. Croft and Camp,

The external dimensions of the building are 75x200 feet, with a central transept on either side 20x75. Externally the design is Italian, with bold, projecting cornices, airy gables and minarets, and a lofty, grand central convex tower. The height of the latter from the main floor to the top of the deck is one hundred feet. The main room is a fine-ly illuminated, clear story, 46x200 feet, and has an elevation above the aisle roofs of 18 feet; height of nave, 54 feet. The internal arrangements are complete and ample, and will afford a convenient space, for a grand exhibition. The main floor's total area—75x 100 feet—is supplemented by a gallery 16 feet wide, extending around the entire building, a distance of 550 feet, which is rendered accessible by four grand staircases, and will afford a fine promenade, commanding delication in the cycle of the central transept on matters which may prove of interest to many. One always prominent feature in the eyes of the traveller over the highways and byeways of the country is the CONDITION OF THE ROADS, and as far as our own County is concerned, the supervisors are to be congratulated upon the excellent condition of the roads as far as their jurisdiction extends in this direction. Very soon after the Country of Gloucestelle by four grand staircases, and will afford a fine promenade, commanding delication in the eyes of the traveller over the highways and byeways of the country is the "CONDITION OF THE ROADS," and as far as our own County is concerned, the supervisors are to be congratulated upon the excellent condition of the roads as far as their jurisdiction extends in this direction. Boston, Oct. 9 .- The most shocking

railroad accident in this State for several years occurred last evening at

near the Alantic Station in Quincy,

about seven miles from this city, to an

excursion train of 22 cars, containing ,000 persons returning to this city

from the boat race at Silver Lake.

Five cars were smashed and 18 persons killed. About twenty-five had

their limbs broken or received inter-

nal injuries of a less serious character.

The cause of the accident remains in

doubt, some claiming that it was

caused by a misplaced switch, and

the engine. Among the killed is Pat-

rick Regan, who was beaten in the

boat-race at Silver Lake, and among

the wounded is J. Flynn, City Councilman, and G. G. Kimball, of the Associated Press Office of this city.
