RIOT AT VANCOUVER

ORIENTAL QUARTER RAIDED AND MUCH DAMAGE DONE.

Several Men Rurt in Street Fighting— Police Make Seven Arrests—Lieut.— Governor Dunsmuir Burned in Effigy.

Vancouver, B. C., Sept. 8.—The campaign against Oriental labor has taken a new and sinister turn in this city. Last evening a gang of the men from Bellingham, across the border, in the State of Washington, the town from which the Hindus were recently driven, came to Vancouver and organised a parade with the intention of making trouble. There were some thirty of them, and, reinforced by a large number of hoodiums, they proceeded to the Chinese and Japanese quarter and began to raid the stores and assault the Orientals.

tals.

Property was damaged and many people stabbed and otherwise injured, while it taxed the efforts of the police force and the entire fire brigade to keep th mob from burning up the Chinese and Japanese quarters. Several arrests were made after a stremous time between the mob and the officers who took the men.

League held a parade and a meeting, but the men. League held a parade and a meeting, but the same held a parade and a meeting, but the same held a parade and the principals hint at or suggest anything of the kind, but, on the contrary, counselled moderation in any action that might be taken to secure legislation to exclude the Orientals and keep this a white man's country.

man's country.

At the last session of the Legislature Lieut-Governor Dunsmuir vetoed the bill introduced by the present Attorney General to enforce the Natal Act in British Columbia.

bill introduced by the present Attorney-General to enforce the Natal Act in British Columbia.

In commemoration of this last night Mr. Dunsmuir was burned in effigy at the conclusion of the parade. At the meeting a resolution was passed to ask the Dominion Government to allow this bill to become law, and another resolution was also passed asking Premier Me-Bride to explain certain indefinite charges made against him by a Liberal paper, to the effect that he was a party to the disallowance of this bill by an arrangement with Ottawa. It was after that the mob stormed Chinatown, deliberately amashing windows in all the stores. Street orators gathered crowds who even swarmed up telegraph poles. Lines of police stretched across the street had all they could do to keep the mob from again entering the Chinese quarters. As there had been threats of burning, the fire brigade was ready with hose to use this method if necessary to keep the white men back. While the speaking was going on the music of breaking glass was acclaimed with joyful yells by hoodlums.

Then the mob broke loose on Howell street a few blocks away in another direction, where the Japanese reside. Here windows were broken also, but the Japanese, with bottles and boards, attacked their assailants. Several people were injured in the counter-attacks.

At the C. P. R. wharves a dozen Japs were thrown into the water, but were rescued. Three white men were stabbed by Japs, and two others cut with broken bottles. A newspaper man going home was held up by a Jap, and when the latter was taken to the police station a search revealed a murderous-looking knife. All night bands of armed Japs walked the streets, keyed to a high pitch by the excitement and bent on revenge. They were restrained, however.

It was a coincidence that Mr. Ishii,
the Imperial envoy of the Japanese Government, sent to investigate the whole
question of immigration, arrived last
night on his mission. His Worship the
Mayor expressed keen regret that such
a riot should have taken place, and the
morning paper, the News-Advertiser, editorially points out that this occurrence
will do more harm to the cause of exclusion than anything else. No one but
thinks those who took part were the

The Chinese and Japanese met tonight to discuss measures for self-protection. Much disquiet is felt in the city
regarding the arrival of the teamer
Monteagie here on Wednesday with
Orientaus on board. It is freely stated
in labor circles that not one will be allowed to land, even if force is necessary to prevent landing.

Vancouver, Sept. S.—Having arrived at Vancouver at 11 p. m. on Sept. 7 I found that during the early part of the evening there was held a domenstration of the anti-Japanese and Corean Leagues. About 9 p. m. a number of rowdies, numbering 50 to 60, marched into the section of the city where the stores kept by the Japanese and Chinese are, and threw stones, breaking considerable glass. Following this attack there came another one, this time the number being increased to about 500. The fronts of several stores were broken. So far as I can ascertain only one Japanese was wounded. The city police force did its best, but there is hardly any hope of relief in that direction. Consul Morikawa is staying at the seat of the disturbance trying to impress upon the city police to extend their protection over the Japanese residents, and at the same time to suppress the utmost excitement of the Japanese was core, but on the city police of the intermediate.

Toronto, Sept. 9.—Several prominent citizens of Vancouver, B. C., who are at present in Toronto, were seen last evening with regard to the anti-Oriental demonstration in Vancouver on Saturday night, and all were unanimously of the opinion that the demonstration would have a bad effect on the question of Oriental immigration.

day night, and all were unanimously of the opinion that the demonstration would have a bad effect on the question of Oriental immigration.

Mr. R. G. Macpherson, M. P. for Vancouver, was about to leave for Ottawa, and was seen at the station before taking the train. "I am very sorry it happened," he said, "as such action will not be tolerated in any British country. Such action will do a lot of harm, and will retard us in the steps we are taking at Ottawa to have the Oriental immigration stopped. We need the sympathy of the East, but this affair will cause people to say that Vancouverites are not able to govern or control themselves. Just why they molested the Chinese and wrecked Chinatown, I am unable to say, for of all the Orientals, the Chinese are the most desirable. Of course, I am not in favor of Oriental immigration of any kind, and have always been opposed to it, but those Orientals who are in the country to-day should be protected Something must be done to stop the influx of Japanese. The Chinese problem was overcome by the head tax of \$500, and we are now endeavoring to check the influx of the Japanese.

An elder brother had told him that he was born twenty years after the date of his (the elder brother's) entry on the stage of life, and, as the brother was 48, Cook had presumed that the span of his life totalled 28 summers. He was remanded for sentence.

Startling Shades.

London, Sept. 8.—The editor of the Tailor and Cutter, the recognized authority in matters of English masculine dress, outlines the men's fashions for the coming winter. It says that the success of the introduction of green tweed has induced manufacturers to prepare other colors, such as light blue, bright brown, and various shades of purple and green. If these should be generally adopted, the streets would become radiant with many rainbow hues.

The latest style of evening dress is a swallow-tail coat made of blue cloth, with a velvet collar. The novelties of the winter will be a double-breasted jacket, for which the King has set the fashion. It is cut rather long, and made to define the figure at the waist.

PREMIER OF BRITAIN'S BIRTHDAY

The fact that Sir Henry Campbell-Bannerman, who celebrated his seventy-first birthday in this city, is not only Premier, but also Father of the House of Commons, invites comparison with the ages of other Prime Ministers of the past, says Tit-Bits. Mr. Balfour will be only fifty nine on the twenty-fifth of the present month, at which age, curiously enough. Mr. Gladstone first succeeded to the premiership. It was not until nearly thirty-years later that the "G. O. M." passed away, and broke the record which had been held by Lord Sidmouth, who died at the age of more than eighty-six. Other

London, Sept. 8.—The constroversy over the marriage laws, which was started by the passage of the deceased-wife's sister act, has received a sensational impetus from the announcement that the See of Rome has imposed greater severity of the marriage law upon Catholies. It is published officially in the Tablet.

Hitherby when a Catholic was married, either in a Protestant church or in a registry office, the church held that the marriage was sinful and sacrilegious, but it recognized it as valid and binding and acknowledged that the parties were truly man and wife. Paris, Sept. 8.—A ray of hope for a possible solution of the vexing Moroccan problem came from the Moorish Empire last night in the shape of an announcement that the tribesmen were ready to negotiate for peace. Vice-Ad miral Philbert confirms this news in an official cablegram stating that a delegation from the warring Arabs had asked General Drude for an armistice pending a scttlement of peace terms. The armistice was to have expired to-day, but the result is not yet known. No great expectations are based upon this announcement for there is some suspicion that the filter mive may be a trick of the Moors to gen the forcements.

Tangier, Septi 7.—Events in Morocco are marching on with great rapidity. Yesterday both the Sultans, Abdul Azic and Minai Hafig, were reported to be leaving the rival capitals, Fez and Morocco City, at the head of armies which had been levied in hot haste, which may decide within a fortnight the destiny of Morocco'a monarchy. The in mediate objective of these forces is the ancient city of Rabat, the prior possession of which probably would have an important if not decisive bearing upon the struggle for supremacy.

Toronto, Sept. 9.—The fire inquest on the recent epidemic of fires which attacked the Dovercourt district was closed on Saturday at the City Hall. Provincial Detective Inspector Rogers conducted the inquiry, assisted by acting Crown Attorney Monahan.

Ross Palmeter, the man who is under arrest on suspicion of being concerned in the matter, was present, accompanied by his solicitor, Mr. S. H. bradford.

A number of residents were examined, one of them, William Wilson, of Dixie, a brother-in-law of Palmeter, having to be repeatedly cautioned by Inspector Rogers, owing to his obstinate attitude under examination.

The most important witness was David Burke, Palmeter's next door neighbor, who asserted that when he wished to break open the door of Palmeter's house when it was on fire and endeavor to save some of the furniture, Palmeter restrained him, saying, "It is insured, let it go."

Luspector Rogers will report to the Clerk of the Peace of the county on the inquest.
