Fine Chinese Complexion

Massage Produces Wonderful Results for Oriental Women.

The exquisite complexion of the young Chinese women is due not to enamelling, as has been suspected,

but to careful manipulation of the

face done by expert masseuses.

They begin by a gentle pinching of

the cheeks between the tips of their

fingers, which lasts fully ten minutes;

then apply lotions on absorbent cot-

ton, then an unguent, and finish by

kneading the cheeks with an extreme

delicacy of touch, always proceeding

from the nose and commissures of the

lips towards the ears.

This is a harmless and physiologi-

cally correct process which can be

recommended in cases, rarer than

they should be, where the physician

is consulted concerning a faded or

otherwise unattractive complexion.

Fishermen Cast Away.

PROSPERO SENT FOR THEM.

Yesterday at 5.30 p.m. both the Col. Sec., Hon. R. Watson, and Mr. Piccott, Minister of Marine & Fisheries, had messages from Griquet to the effect that two fishermen had landed on White Island, an islet off the main land there and it was feared that if prompt measures were not taken for their rescue they might perish. The belief entertained by Mr. Piccott, whom the Telegram interviewed, was that the men had been out birding and that the slob ice was pressed in on the islet, the men in their boat were driven in with the ice and were compelled to land there. The ice was not firm enough to walk on or get their boat over the mainland and the pair were compelled to land there. Mr. Piccott immediately communicated with Bowring Bros. and had the Prospero, which was at Tilt Cove, immediately despatched to the rescue. It is not thought the men would have much food with them, and as it would take the ship 10 or 12 hours to get to them it is likely they spent the greater portion of the night exposed to the intensely cold weather and must have suffered great hardship.

Another Vessel Lost.

Nina L. Sinks in Mid-Atlantic.

Yesterday afternoon Hon. J. C. Crosbie had a wire from Sydney saying that the schr. "Nina L.", Capt. Kennedy, had been abandoned in mid-Atlantic and her crew of 6 hands, all told, had been taken off by the S. S. Ceatalac, and brought into that port. The "Nina L." which was 41 days on the run from Oporto to this port in ballast was abandoned on Tuesday the 12th inst. No particulars were given as to the cause of the accident, but Mr. Crosbie thinks she met the bad weather experienced by other ships on the Atlantic and was so badly smashed up that she sprang a leak and the crew were compelled to leave her. Her commander, Capt. Kennedy, is well known here and is a capable and efficient navigator. He and his crew should arrive here by the Invermore and cross country train. The "Nina L." was a new vessel and was insured.

Situation Grave.

Special to Evening Telegram.

LONDON, Dec. 19th.

The Teheran correspondent of the Times, commenting on the National Council's refusal to yield, says that the situation is extremely grave. Some change in Persian Sovereignty, he adds, seems inevitable. The Times in an editorial, defends the Foreign Office from the attacks of those opposing the Anglo-Russian agreement, with respect to Persia. The Times contends that the only alternative to the British policy of upholding the agreement is the employment of force, and adds that Persian independence is not worth the bones of a single British soldier.

If you have not yet made your selection of Christmas Perfumes, do so to-day. There are only three or four days left, and already our stocks of some perfumes are beginning to be depleted. Within the next two or three days most of the finest and most popular scents will be bought up and you may have to accept something less choice. We would therefore urge all intending purchasers to come early.

To-Day's News.

CHICAGO, Ill., To-day.

The high cost of living question is finding a partial solution by the exclusion of the Beef Trust from competing for English Army contracts, and the anticipated general boycotting of the products of the States Trusts by the English public. The packers fear that Russia, Germany, Italy, France and Japan will follow the precedent, and that meats and their by-products will take a decided slump, and that workmen will be the triumphant winners with stock-raisers of the country and not the packers, holding the small end of the horn. This opinion was expressed yesterday by the Packers and Board of Trade men.

Stories of cannibalism in Africa are told by missionaries who have arrived here. Rev. Mr. and Mrs. Currie of Toronto, who have been stationed in the Portuguese Province of Angola on the West Coast of Africa, tell of having been surrounded by man-eating natives. "We were making a 14 months trip into the interior," explained Dr. Currie, "when armed cannibals surrounded us and made preparations to serve us up for Christmas dinner. It looked pretty serious for a time, but I called the Chief over and finally talked him out of his intention of eating Mrs. Currie and myself. It ended by the cannibals giving us a pig and native beer."

Death of Miss Madelene Hogan.

"Swift to its close ebbs out life's little day," are words which seem fitting, indeed, regarding the death of the late Madeline Hogan, eldest daughter of Dr. William and Mrs. Hogan, of St. Mary's, which occurred at the residence of her aunt, Mrs. Dwyer, 132 Bond Street, on Monday morning.

The deceased had been ailing for three years, and at times hope for her recovery were entertained, but despite all that the best medical skill and the loving care of devoted parents and relatives could do, the final summons came, and at 2 a.m. Monday she breathed forth her pure soul with calm Christian resignation which is the reward of a good and virtuous life. A short time before her death, her grandmother, Mrs. Parker, whose favorite grandchild the deceased was and to whom she was devotedly attached, had her removed to St. John's in the hope that the change might prove beneficial to her health, or if death was inevitable she might be near her to the end. During her illness she was extremely patient, and at times reconciled to the will of her Creator. She had only attained the age of 19 years—years of preparation for death which was peaceful and painless, and met with Christian fortitude and resignation.

The funeral which took place this afternoon was largely attended, and the numerous floral offerings, emblematic of the pure soul that had gone to its reward, evidenced the esteem in which the deceased was held by her late associates and friends. To the bereaved parents, family and relations our sincere and heartfelt sympathy we extend, and trust that the prospect of meeting their loved one before the "Great White Throne" will assuage their grief and afford consolation to their sorrowing hearts.

The Mary Whalen Arrives

Not long since we referred to a report about that the schr. Mary Whalen, owned by Patten & Forsey, of Grand Bank, was missing on her voyage from Oporto. We learn from Mr. J. B. Foote that the vessel arrived at Grand Bank Sunday. Mr. Foote says that she was not out as long as at first reported and made the run in 45 days. He believes that the schooner had a hard time of it and must have received some damage. She is a 3 masted vessel of 125 tons.

Attacked Friend.

Delegate Frank Woods of the Firemen's Union, recently extended the hand of friendship to a foreign fireman who left his ship and was stranded here. Mr. Woods took him to his house and kept him but the man only showed ingratitude. While under the influence yesterday he started a quarrel in the house and threatened to break the furniture. Officers Faraday and Blundon were sent for and arrested the man.
