THE POET PHILOSOPHER.

The backbone of winter is often degried by people who huddle around the fireside; whenever old Boreas kicks up his heels they send up a package of lachrymose spiels and sigh for a country where snow isn't found, where roses and lilies will bloom the year round. WINTER But I love a country with all kinds of snows, where Winter

has whiskers clear down to his toes, where blizzards cavort and the icicles cling all over your features till thawed in the spring. For cold is a tonic that braces you up and makes you as gay as an unlicensed pup; it fills you with ardor to do hefty things; the healthy man likes it and dances and sings. A wind whocping down from the white Greenland hills is better than any one's cottonwood pills, while languorous zephyrs will-fill you with bile and make it hard labor to burble and smile. There's energy, health and a solace in cold! The backbone of winter is better than

### **Wedding Bells** at Bell Island.

A very pretty wedding was solemnized at the Church of England, Bell Island on Monday, February 12th, when Mr. Algernon Tucker, son of Mr. was supported by Mr. Richard Tuck-er, her brother. The bride looked extremely handsome as she entered the church leaning on the arm of her brother, Mr. B. Churchill, who acted as father giver. The groom's present to the bride was a handsome gold bracelet, and to the bridesmaid, a silver brooch. The ceremony was performed by the Rev. Mr. Steed, and although the service was of a private nature, several spectators witnessed the happy event. After the service was concluded both having solemnly pled-ged themselves to become man and wife "till death us do part," the happy couple, as well as their immediate relatives, boarded the attending sleighs, and after an enjoyable sleigh drive to the mines, drew up at the future home of the bride and groom.

### **BOVRIL** IS ALL BEEF.

Questions we are often asked.

-What is the sediment at the bottom of a cup of Bovril? .—That is a valuable portion of the nourishment, and should never be left.

Q.—Are you serious when you say that Bovril is more nourishing than ordi-nary Meat Extract or Home-made Beef Tea? A .- Certainly! and we have for year

offered large rewards to anyone who can prove the contrary. Q.-But can you prove your state A.—Yes -from the pen of Baron Liebig himself, who told the world that the

man who managed to get the nour-ishing, as well as the stimulating pro-perties of Beef in a liquid form, would produce something far better than Liebig's Extract, and would be a public benefactor. -And you have done this? -Yes. By a special process, the entire nutritious constituents of prime

ox beef are separately treated, pul-verised and added to specially-pre-pared Meat Extract, and that is Bovril. Don't experiment with artificial imita-ions of dubious quality (which are dear at any price) when such a tried and proven nutritious food beverage "made
