Daily Investment News

Canadian Disbursements and an offer.

Some statistics compiled by the Financial Post of Canada illustrate convincingly the huge amount of Canadian interest and dividend disbursements payable from the first of the month to the end of the year.

Thirty-eight millions is the total given for disbursements by all Canadian companies whose securities are listed on the various Canadian exchanges. But this figure does not include the doubtless quite large payments of the smaller unlisted Canadian companies. Nor does it embrace the payments of those companies listed on Canadian exchanges deriving their revenue from outside sources, and whose capital is largely held in Canada.

Maritime investors will enjoy a goodly share of these disbursements, and it is to them that this investment house offers its seasoned services. A copy of our October "Investment Offerings" would be a good thing to send for now.

MINARD'S LINIMENT CURES GARTER IN COWS.

A Little Meanness is the Cause of Real Misery.

Editor Evening Telegram.

Mr. Editor.—A few days ago a certain business man in this city said to me that it is not right for me or any other man to criticize any member of our Government, it is not safe to destroy public confidence in our representatives.

Mr. Editor, it occurs to me it is always wise to tell the truth. The idea that certain things must be kept from the public is a false and a dangerous idea. There is nothing in this country of any importance except the public. There is no little class of wise beings that should be considered superior to the general public. This country is the general public, and every truth concerning the Government should be revealed to the country's owners, the general public. My friend is mistaken in his idea that the honest politician objects to just criticism of the politician that is not honest; the honest politician is glad to see the dishonest one exposed and sent to jail. It means an end of his power for harm.

The great majority of politicians will rejoice when the truth is told bluntly about one unworthy who held a seat in the Executive Council. An honest man does not want this class of a man "protected or shielded"; it would not be a compliment to such an honest man to shield or to treat as his equal a man unworthy of a seat. My friend need not feign that the truth will do harm. It is the one force that will solve our problems and establish real honest Government by the people in this country. As the light of the sun destroys disease and its germs, killing the most virulent in a few hours, so the light of truth destroys injustice, dishonesty and all the germs of political disease.

Bear in mind the fact that the one great power here is the public, and that there is no truth, good or bad, that should under any circumstances be withheld from the public.

R. W. STRONG.

Special to Evening Telegram.

WASHINGTON, To-day.

The first complication with the foreign Government over the new tariff law came when Germany lodged a protest with the State Department against interpretation in favour of American ships of five per cent. preferential clause in Underwood Simmons Statute. The German Government does not suggest how the uncertainty that has arisen over the ambiguity of this clause should be settled, but the protest was interpreted as a suggestion that she will ask that the clause be submitted to arbitration. If construction of it by this country is thought to infringe her Treaty rights in any way it is feared that the German protest is merely a forerunner of many other complications with foreign nations, on account of this clause of Tariff Bill. France already has served notice that she will retaliate if French vessels are discriminated against, but France is on a different footing from Germany and most of the other European countries, because she has no treaty guaranteeing equal treatment in this respect. The entire difficulty has arisen through the failure of Democratic Legislators to make their meaning clear.

The "Affidavit" Man.

Editor Evening Telegram.

Dear Sir.—I would like, for the edification of myself and others interested, if Sir E. P. would kindly explain the mystery of the monosyllabic known as Duffy's Affidavit, and if this is Duffy of Cabot Street, of oil contract fame. There must be some mystery about this individual or the affidavit. For with Sir E. P. and Timber Don he is making good. What of the oil contract, dredge supplying, Poor House, timber claims, etc. He seems to be one of importance. Party. It is common rumor that he owns a great tract of territory on Labrador. And why all this? His service seems invaluable to Morris over whom he appears to hold some kind of hypnotic influence. I would ask Sir Edward to explain why the people's property is sacrificed in such a manner and why this mysterious power wielded by this (Morris) affidavit man; or is it the affidavit and not the man. There are rumors afloat of dirty work in which this individual Duffy, has taken a very prominent part. It must be pleasing to him and his colleagues, for he (Duffy) surpasses all other heeler and is Morris's devoted man Friday.

Sir E. P. Morris please explain. For well I know you can.
Please clean up the mystery of the Affidavit man.

"HOW TO MAKE WORK A PLEASURE AND PASTIME."

"A MOST INTERESTING LETTER."

Following is a copy of letter received from Mr. John Whalen, Cape Broyle:—"Please ship me at once by schooner 'at Messrs. Goodridge & Sons' wharf 'one 6 H. P. FRASER engine with 'kerosene adapter. My son-in-law, 'Mr. John Dalton, of this place, has been running a 6 H. P. FRASER on 'kerosene oil all summer with so much 'satisfaction that, although I am 'seventy-two years old and have given 'up fishing since I was sixty-five, I 'have decided to try it again, as the 'number of times I was out with Mr. 'Dalton this summer proved to me that 'fishing with a FRASER engine is 'more of a pleasure and pastime than 'work. My son-in-law's engine ran all 'the summer on kerosene without the 'least trouble. I have spoken to a

"great many fishermen from Nova Scotia, who were at Cape Broyle this summer, they all said the same of the 'FRASER, that it is the favorite engine with the Nova Scotia fishermen 'and the only engine they know of to 'use kerosene satisfactorily.

"Yours very truly,

The Boy Who Loves His Mother.

She sat on the porch in the sunshine.

As I went down the street—A woman whose hair was silver.

And the boy who kisses his mother Is every inch a man.

I heard a step behind me, And the sound of a merry laugh.

And I knew the heart it came from Would be like a comforting staff

In the time and hour of trouble. Hopeful and brave and strong.

One of the hearts to lean on, When we think all things go wrong.

I turned at the click of the gate-latch, And met his manly look;

A face that gives one pleasure, Like the pulse of a pleasant book.

It told of a steadfast purpose, Of a brave and daring will.

A face with a promise in it, That God grant the years fulfill.

He went up the pathway singing, I saw the woman's eyes

Grow bright with a wordless welcome, As sunshine warms the skies.

"Back again, sweetheart mother."
