The ideal top shirt for him for fall and winter wear. Reg. \$1.80. Fri., Sat. \$1.67.

matters were disposed of: The Secretary Public Works Department wrote asking if Council would undertake the repairs of Quidi Vidi Road "Bouleyard" near Government Oil Store. His Department was will-

ing to bear the expenses of the re-pairs. The City Engineer is to give an estimate of the cost of the work. W. H. Jackman applied for the expipes on Mundy Pond Road. Mr. Jackman is to be written that the Council recognizes that this locality is one where water and sewerage should be placed, but that it is not within the power of the Council to undertake this work at present, nor is the season of the year suitable.

Bowring Bros. Ltd., applied for

At the City Hall.

The Municipal Council held its regular weekly session last evening. The Mayor presided, and Councillors Morris, Brownrigg, Mullaly, Ayre and

Vinnicombe were present. After the reading of minutes, etc., the following

permission to instal an eight horse-power motor and planer in their carpenter shop, Southside. Application was granted.

The Solicitor reported that in the matter of the right of way east of Cochrane Street, he was of opinion that the remedy was in the hands of private citizens. If it is a public right of way, any member of the public can abate the obstruction by cutting down

C. R. Thomson asked for plan of his ground, "Sudbury," as he wished to reply to a number of applications for building lots. The plan will be prepared.

C. J. Chaplin asked that the grating in front of his door, Spencer St., be attended to. This matter was referred to the Sanitary Supervisor to find out the nature of the complaint. James Murdock wrote that it is not his clients' intention to build just yet on the Topsail road. The street line was required so that a concrete wall might be built and trees planted to beautify the locality. It was ordered the street line be given, and the Secretary was authorized to treat with the owners as to the taking over of the necessary land.

Mrs. Anderson, Quidi Vidi Road, wrote, complaining of a building recently erected near her house. As this is a private matter, she will have to consult her Solicitor. Ernest H. Wills was permitted to

repair house, Gower Street, subject to the City Engineer's direction. Plan of house for S. R. Oakley, Topsail Road, was granted.

Imperial Tobacco Co. requested permission to erect a galvanized iron addition to their factory, Flavin St. Plan passed. The Sanitary Supervisor reported a

number of gulleys attended to during the week. He also said there were a number of horses at the stables that required to be sold. It was ordered the matter be left in the hands of the

The Health Officer submitted his weekly report of the number of cases of infectious diseases in the city. Road Inspector Neville reported on the bad condition of the bridge, Blackhead Road, and also the bridge on the South Side Road, near Cous-

ens'. The Board of Works will be asked to give attention to these matters, The Sanitary Inspector reported on a number of houses in bad repair throughout the city. It was ordered the owners be written to have these houses put in repair.

The City Engineer reported that the old decking, Dillon's Bridge, was taken up; grading Barnes' Road commenced; work in connection with the water service for Church of England Orphanage begun; old intake pipe, Windsor Lake, was taken up; sewerage on Barter's Hill practically completed, and some other minor matters. It was ordered that the City Parks be closed at 6 o'clock p.m., commence

ing Monday, Oct. 14.

After disposing of some routine business and passing pay rolls, bills, etc., the meeting adjourned.

G.F.S. Rooms.

The Girls' Friendly-Society new Recreation Rooms at Central Teachers' Home, were opened last night for the first time, and had those who have contributed and helped the good cause along, been present, they would have felt more than repaid at the sight of the happy faces and the sounds of merriment which greeted them every-where. Despite the rain there was a large attendance, and a hot cup of tea was provided for everyone, the general verdict being that "it was just like home." The recreation rooms will be open every night from 7-10 and girls of all denominations will be welcome and can partake equally of the sick fund and library. The new rooms include a library, which is used twice a week for reading and writing classes, a recreation room and a work-room, where on Thursday nights patriotic work is done, also a kitchen and cloak room. The need of such rooms is very apparent and supplies a badly felt want, particularly for those coming from outside the city.

As the Soldier Died.

An incident illustrative of the noble freedom from religious narrowness and bigotry which marks the men of the Allied armies at the front is related in a paper in Upper Canada. "During the fierce fighting along the Yser a Jewish rabbi stumbled upon a dying soldier-a Catholic. By signs the soldier made known his needs for the last sacrament. But no priest was near and the man was fast nearing the Valley of the Shadow. The rabbi -all honor to him-took two small twigs, fastened them together in the form of a cross, and held them to the dying man's lips" Whatever his own faith, who could fail to be moved by such an incident or miss its nobility And what blessing to Canada if when the men come home from war they bring into our nation's life the spirit which the incident has typified! It is one of the tragic things that so often we forget that the one God rules all and loves all though there be many ways of worshipping Him .- (Ex.)

BLACK SILK FRINGE-The very CHILDREN'S COPPUROY newest out for dress trimming VELVET and girdles; easy to attach, wide lace-like top, good quality DRESSES. black silk fringe.
