22	15,265	"	25.00
24	113,258	"	25.00
26	16,839	"	25.00

J. T. WALSH, Treasurer.

Quiet Prevails at Sydney

But Troops Still Pouring in—40,000 London Dock Workers on Strike—"Free State is Now Established Definitely," Says Governor Healey.

IRELAND TRANQUIL

LONDON, July 5. "Ireland to-day is as tranquil as Great Britain," said Timothy Healey, Governor-General of the Irish Free State, in an interview with the Daily Express prior to his return to Ireland last evening, after conversation with the Imperial authorities over Irish affairs. "The Free State is now established definitely, despite the internal assaults that have been made since the Governor-General said he added that no peace had been established the Government was preoccupied with how to terminate the situation in which to its sorrow it found itself, still holding ten thousand Irishmen prisoners. The Government's purpose, Mr. Healey said, was to release these prisoners as rapidly as possible without exposing the public to a recurrence of disorder and they were now being freed at the rate of three hundred weekly.

LONDON DOCK WORKERS STRIKE

LONDON, July 4. An official dock strike, involving nearly 40,000 men, is causing considerable inconvenience, especially in handling food supplies of a perishable nature.

REINFORCEMENTS POURING INTO SYDNEY

Sydney, July 5. Reinforcements for military guards were on duty in Cape Breton strike area on their way this afternoon by special trains from points as far west as Winnipeg, and recruiting for Provincial Police units is progressing in Halifax and other places, while unofficial reports emanated from Halifax to-day that the Militia could be mobilized if available, permanent forces proved incapable of coping with the situation in Cape Breton. Quiet has reigned among the ten thousand miners and steel workers during the past twenty-four hours and military occupation of the trouble centres is proceeding. Brigadier General Thacker, O.C. military district, No. 6, arrived in Sydney this morning inspecting operations of troops and will probably remain to personally supervise their activities in Cape Breton.

ALL QUIET AT SYDNEY

SYDNEY, July 5. (By Canadian Press Staff Correspondent)—Throughout to-day and until a late hour to-night the Cape Breton strike area was so quiet one might almost hear the proverbial pin drop. Steel helmeted soldiers guarded the property of the British Empire Steel Corporation at Sydney and mounted policemen roamed about the streets in the vicinity of the plant, but the residents of the affected district kept indoors for the most part and no outward incident developed. To-night the band of H.M.S. Wistaria, anchored off the Royal Cape Breton Yacht Club, played gaily to the evident enjoyment of hundreds lining the shore. Inspection of the colliery districts this afternoon revealed like conditions to those prevailing in Sydney. At Glace Bay a baseball match drew a slim attendance. The miners for the most part stayed about their own doorsteps and the streets were practically deserted. Only at Dominion No. 2, the heart of the colliery district, supplying as it does the electrical energy required to operate the ventilating systems of the nine other mines, was there evidence of the struggle. Here the plant is being picketed by 250 strikers, working in four relays on six-hour shifts. Earlier in the present strike coal cars were dumped on instructions of the pickets but to-day there was no interference of this nature and food supplies for officials operating the machinery required to protect the property, were permitted to enter.

GERMAN GOVERNMENT TO DEPRECATE SABOTAGE

BERLIN, July 5. The German Government is expected to issue forthwith a statement deprecating sabotage and all forms of active resistance in the Franco-Belgian occupied territory.

DANGEROUS DERELICT DESTROYED

HALIFAX, July 5. A radio message to the agent for the Marine and Fisheries Department here, received this afternoon via Cape Race, reports the sinking by an ice patrol ship of a dangerous derelict

bearing distinctly the name of Lunenburg as the halting port, but with the schooner's name almost effaced; but it was thought to be "F. W. Lunenburg." The message also reported finding an unidentified man's body on the surface after the hull had gone down. No record has been discovered in Lunenburg of among the Marine Insurance offices of a schooner of the name given.

TRAIN WRECK IN ENGLAND

Huddersfield, Eng., July 5. Six persons were killed, including two railway guards, and seven injured in a train wreck at Disgle, near here, to-day.

LEEDS, July 5.

The Manchester express, drawn by two engines, collided with an engine outside a tunnel while riding at full speed. The crash piled up a mass of wreckage from which doctors and nurses and ambulance men recovered the bodies of six dead and seven badly injured.

MURDERERS OF JAMES WILL BE TRIED

OTTAWA, July 5. The ship Arctic is leaving again for the Arctic Circle on July 8, from Quebec. J. G. Craig, an engineer of the International Boundary Commission, is in charge of the expedition formed for the purpose of carrying supplies to two Royal Canadian Mounted Police posts and also to establish a new post at the north end of Ellesmere Island, at Cape Sabine. A party of surveyors, naturalists and engineers are going for the purpose of investigating the natural resources of the Canadian far North. Capt. Bernier will again be in command of the ship. The Arctic will carry the machinery of Justice North. Among the passengers will be Judge L. A. Rivet, of Montreal, F. X. Biron, Crown Counsel, Leopold Toller, Defence Counsel, and other court officials and interpreters. They will proceed to Pond's Inlet to try a number of held there by the Royal Mounted Police on a charge of murdering Robert James, a native of Newfoundland, at Cape Crawford, Baffin Land, in 1920. About 40 people will go North on the Arctic.

Of Interest to Tourists.

CASH'S TOBACCO STORE IS NOW READY FOR THE TOURIST TRADE.

The man from England or the United States or any other country when visiting our City, will find his favorite brand of Cigars, Cigarettes, Tobacco and other Requisites at Our Store. Election Sweepstake.

The lottery for the awarding of \$500.00, first prize in St. Patrick's Election Sweep, took place last night in the Convent School. The drawing was held under the direction of Messrs. W. A. Thompson, Thos. Curran, P. Mansfield, Augustus Lester and Alex. Stewart. The lottery covered 70,000 numbers, and after two hours drawing Mr. Thos. Curran brought up the lucky number, 68,465. The party holding the corresponding ticket will be awarded the prize.

To the cooked pulp from a quart of gooseberries add 1½ cupsful of sugar, 2 beaten eggs, and the juice of one-half lemon. Stir over fire until the eggs are creamy color with spinach juice, chill, and serve with whipped cream.

Two in Council of Twelve

Interesting Facts in Connection With Sir Frederic Fraser's Golden Jubilee.

Sir Frederic Fraser, who recently celebrated his Golden Jubilee as Superintendent of the Halifax School for the Blind and who was honored with a complimentary address by Lieutenant-Governor Grant, Premier Armstrong and Chairman George S. Campbell, and received several presentations, has a most interesting family history, and has had the unique distinction of having had two grandfathers in the famous Council of Twelve.

Sir Frederic is the son of the late Dr. Benjamin DeWolf Fraser, who resided and practised his profession in Windsor, N.S., for over 50 years. His paternal grandfather was Hon. James Fraser, a member of the old "Council of Twelve", whose residence was at the corner of Bell's Lane and Water Street, Halifax. His maternal grandfather was Hon. Joseph Allison, who served in both branches of the Legislature of Nova Scotia, and who resided at "Brookside", M. Dwyer. His paternal great-grandfather was Alex. Fraser, who emigrated from Farnhill, Scotland, and was the first to establish the lumber industry on the Miramichi, near Newcastle, N.B. His maternal great-grandfather was Hon. C. R. Prescott, of Halifax and Cornwallis, also at one time a member of the "Council of Twelve."

The old Council of Twelve, who were the rulers of the Province in 1820, was composed of the following: Hon. Sampson Salter Blowers, President; Rt. Rev. Lord Robert, Bishop of Nova Scotia; Hon. Michael Wallace, Charles Hill, Richard J. Unisack, Charles Morris, T. N. Jeffrey, James Stewart, John Black, Braxton Halliburton, James Fraser, Hibbert Binney, Rupert D. George, Secretary. Sir Frederic came to Halifax as a young man 60 years ago, founded the School for the Blind with a half dozen pupils, and has made it the wonderful institution it is to-day.

A. Milne Fraser, of Halifax, is a brother of Sir Frederic—Acadian Recorder.

Newfoundlander Makes Good.

Mr. J. R. Chate, formerly of the Anglo-American Telegraph Company of this city, has succeeded in making an honorable position for himself in Telegraphic Engineering. Mr. Chate left here last April in connection with the re-opening of the Western Cable Station, and since then he has been appointed to the important position of Chief Electrician and Assistant Superintendent at Canzo. He is a brother of Mr. Wm. Chate of the Railway Despatching Office, this city, and a son of Sergt. Chate of the Constabulary. Mr. Chate is now visiting the Cable Office at Heart's Content.

SAINTS DEFEAT IRISH.

(Morning News.)

Notwithstanding the steady down-pour of rain previous to the game, at 7.30 Referee Quick called the above teams together. Owing to the threatening weather there was only a small attendance. The rainfall made the field uncomfortable for the player and spectator alike, but the ball was put in motion, and in less than forty seconds, through Elton, probably the fastest goal ever scored on St. George's Field was recorded for the Saints. Elated at their success, so early in the game, the Saints kept up a bombardment on the Irish goal and inside of ten minutes Hopkins sent in number two. This woke the Irish up and they strained every muscle to try and work the leather west, but to no avail. Higgins and Power played a splendid defence, considering the condition of the ball, but the Irish forwards seemed to lack their old time vigour. The back division of the Saints taking advantage of this and with long drives kept the ball in the mouth of the Irish goal and just before half-time sounded, Sawyers, with a well directed shot, sent in No. 3. Saints, 2 goals; I.R.S., 0.

After a rest of five minutes and

with a good breeze, which sprang up after the rain ceased, in their favor, the Irish supporters were hopeful of big things from their team, but they were doomed to disappointment. Having the ball in enemy territory is one thing, but scoring is a different matter. The Irish lads were shooting for goal for probably ten minutes, but there was "nothing doing." Then Barnes cleared, passed to Foster, who immediately sent the leather to Hopkins, who in turn sent it along the wing to Sawyers. After a pretty run West Sawyers centred and Hopkins sent the ball in the net numbering No. 4. The Irish, now with sure defeat staring them in the face, tried hard to keep down the score and the play became a series of long drives between both back divisions, which resulted in numerous "offs." Just before full time, Eddie Phelan sent in a "scorcher," beating the Saints goal-keepers. No further scoring was done and the game ended Saints, 4 goals; I.R.S., 1 goal.

Personal.

Mr. Hubert W. Halley, son of Mr. George H. Halley, who has been to Barbadoes on a health trip, returned by the schooner Inspiration yesterday. Mr. Halley benefitted very much by the trip, and is now feeling better than ever.

Woman's Charm.

A GIFT OF THE GODS.

It may be their beauty, their own; it may be their beauty, their figure, their wit, or their intelligence, each and all of which serve as an attraction. But often we see a woman who cannot be said to have any claims to "beauty," but who, nevertheless, attracts the men. She may be even "plain" (a woman's expression usually), but still you will see a crowd about her. Why is it? How does she do it?

Even among the children we sometimes notice a child who has not been classified as "lovely," but who seldom fails to attract the visitors, both young and old.

The power of attraction, an unseen power, which is often such a valuable asset to the "plain" woman, is rather internal than external, mental than corporeal—a kind of personality, which, when possessed by the "plain" woman, far outweighs her loss of "beauty," and the possession of which is the envy of her sister endowed by the fancies from her birth with beauty of body or figure only.

Beauty is "a gift of the gods," we are told, but the happy possessor of it should balance it by a gift herself that of being able to forget it, or, at

all events, to enhance its value by obtaining that charm of personality which attracts and which lasts all through life.

This charm of personality is a desire to help, to feel that one is of some use in the world—a longing to please, a feeling of sympathy; a charm which so radiates around the possessor of it that one never for a moment thinks of "beauty," and the "human form divine" in relation to her. One forgets to criticize her face or figure, and thinks only of that soothing spell which is cast over us as we approach the possessor of this mystic charm—a feeling that we are in the presence of a woman—a good woman—whose influence is far more likely to remain with us than the mere charm of superficial beauty, which, as the years roll by, may fade away.

Happily, charm does not depend upon beauty of face or form, though one suspects that it does, in no small degree, upon beauty of character."

SCHL. INSPIRATION ARRIVES.

Schl. Inspiration, Capt. W. Kennedy, 23 days from Barbados, arrived in port yesterday morning, all well. She has a full cargo of molasses for Jas. Baird Ltd. Capt. Kennedy reports fine weather all the way across.

Why Libby's Milk is Especially rich in butter fat

Libby's Milk is known as the milk that good cooks use because it is so rich in butter fat. 7½ teaspoons in every 16 oz. can! It has this high percentage because, first, it comes from selected herds in the finest dairy sections of the country, where men specialize in raising cows that give exceptionally rich milk. Then right there, we remove more than half the moisture, making it double rich.

Thousands of women are using this richer milk. You will find it gives the very richness you want in all your cooking. Get a can; try it to-day in one of your specialties.

Write for free recipe folder.

Upon request, we will gladly send you one of our new folders containing recipes sent us by good cooks who use Libby's Milk.
