Unfortunately you have not taken so much trouble with Phoebe as you have with me," she added, stooping to inhale the fragrance of the flower beside her plate; "you must make allowance for us both, but especially for her." 'Phoebe Owen, Mr. Keith," said Miss Trent, turning to Royden, who sat beside her, "is the only one of Mr. Myddelton's relations whom you do not

"Except?" Mr. Keith echoed, inter-

At home he is talked of only with horror and contempt. When I mention him, even myself, it is simply in utter bewilderment."

For a moment she read his face with a frank, gentle gaze, and then she drop-ped her eyes again and answered, very

"I can see that you know why." Please don't bring up that horrible and detestable story again," exclaimed Theodora, with a well-feigned shudder; we are not hardened to it by hearing it perpetually, as Honore says she does

"No, Mr. Myddelton's murder is not quite a perpetual topic of conversation, even at the Larches, Theodora," said Honore, speaking fearlessly, though her beautiful eyes had a great wistfulness

"Mr. Keith," remarked Miss Trent, to change effectually the subject of con-versation, "what a splendid horse you were riding today, and how tired he From where had you ridden?" "From home."

Theodora glanced up with a start. One word or look of encouragement from him, and she could ask the question to which she longed to hear the "Where is your home?" But there came no word or smile of encouragement, however slight, and she was fain to content herself with having achieved her primary object, and turned her guest's attention from a name which she would have given much to be able to expunge from the family

Yet had Theodora quite succeeded, after all? She had shown her hatred of the subject; Mrs. Trent had skillfully withdrawn from it; Hervey had langiudly ignored it; Honore Craven had blushed with a keen sense of pain or shame in mentioning it; yet no sooner had the servants left the room than this dreaded topic was uppermost once more, and even handled by each one of the little group with an apparent in-difference. Was it because Gabriel Myddelton was now spoken of only as oid Myddelton's nephew, and not as a friend or relation of anyone present? Or was it because there was one strong will present, which, without evidence of its power, could lead where it chose, and chose thus?

"If I am really to go with you to Abbotsmoor," Royden said, "I must first hear the entire story of old Myddelton's murder, or what interest will there be for me in the place, Miss Trent, will

"I suppose I must, if you ask me," she answered, smiling; "but it is a very horrible story to tell, and I am not sure that I shall be able to get through it.
