THE ADVERTISER, London.

-By the action of the Lendon City Council last night, in voting a guarantee of \$500 to those engaged in bringing the full regiment of the Fortyeighth Highlanders to London on 24th May, an unusually brilliant celebration of her Majesty's birthday is this year guaranteed to citizens and to the western public generally. With the Forty-eighth Highlanders, the Seventh Battalion and the Twenty-second (Elgin) Battalion will appear, and there can be no doubt that the citizens of London and many thousands of visitors will thoroughly enjoy the brilliant military spectacle. The Forty-eighth Highlanders will be headed by their famous pipe band.

-The farmers of Ontario are taking out 190 chattel mortgages a day. The "N. P." may be making a few monopolists rich, but that is not the effect of high taxation for the farmers.

-Ald. Leonard, of London, Eng., says the women workers in his boot and shoe factory average 22s. 6d. (over \$5 50) a week in wages. How is that for free trade England?

-What will the Dominion Government do with the discredited Martini-Metford rifles which it bought and now finds useless for the purposes of the militia? It seems to be a needless

I believe the great mass of the people do not believe that the way to alleviate distress is to impose taxation. The idea is illogical, and cannot commend itself to any reasonable mind .-Hon. Alex. Mackenzie in 1877.

-In future it will be legal for anyone In Ontario to contract to work from 7 o'clock in the morning till 16 o'clock at night. Dinner hour can be from 12 to 13 o'clock. Such is the general effect of legalizing the 24-hour mode of reckoning days effected by Sir Oliver Mowat's bill now before the Legisla-

-In Great Britain the nabeb who keeps a liveried servant has to pay a tax for him. This does not seem to be a great injustice. A liveried servant is a luxury. But in Canada the high tax advocates, who defend the upholding of rings and monopolies, which enable a few men to become millionaires at the expense of the masses, regard the tax on the British "flunky" as an intolerable outrage! Assuredly this is straining at a gnat and swallowing a camel!

-If you desire to have good health, and to have your family in the same condition, be devising means to clean up the winter accumulation of garbage in your back yard. The ideal municipality will provide means for a weekly removal of every inch of waste filth from the premises of every taxpayer, and the cost to the collective community will not be as much as has now to be incurred in a semi-annual cleaning up. When may we expect London to reach the altitude of an ideal municipality? Why not work toward it?

-It is becoming somewhat common among N. P. declaimers to abuse old England or adhering to free trade. What would they have England do— put a duty on imported Canadian wheat, butter and cheese?—Manitoba

That is really what the Canadian

fortunately their nostrum has no attraction for the British people. They read history, and know that class laws are always hurtful to the masses. Who in England wants the dark days of the '30's and '40's back?

WHY McCORMICK DID NOT COME. The Sarnia Canadian, in its anxiety to make it appear that the N. P. is the saving salt of Canadian industries, alleged a few weeks ago that the McCor-mick Company, of Chicago, declined to erect works in Canada because they feared the policy of a tariff for revenue only would be adopted by the people, and the enterprise would not pay without protection. This little fiction did no live long. The McCormicks did not build because they arranged with the Cossitt Manufacturing Company to manufacture their implements; and as to the question whether it would pay to build under a 15 or 20 per cent tariff, instead of a 30 per cent tariff, the fact is that prior to making arrangements with the Cossitts, the McCormicks had shipped hundreds of their machines to Canada, where they were sold in spite of the duty.—Sarnia Observer.

By the way, the Cossitt Manufacturing Company is a Liberal concern, who built up a manufacturing industry in Canada long before a N. P. "tariff" was heard of, and will continue to manufacture after the class law is repealed.

TRADE OUTLOOK OVER THE BORDER.

The trade news from the United States is encouraging. According to Mr. Henry Clewes, of New York, a shrewd financial authority, it is "conceded in all markets that prices have touched bottom; and that lays a basis for buying which has not existed for the last two years. Manufacturers have pretty generally reached a stage at which they can afford to produce at the current scale of prices, though perhaps with strictly moderate profits; and the consequence is an increase of orders, and preparations for a materially enlarged production. In all branches of the iron trade, excepting perhaps steel rails, there is a very distinct improvement in business; which is the more gratifying because that industry is always accepted as the truest indication of the state of business at large. The cotton goods trade has entered on a healthier stage, and with the rise in raw cotton, fabrics are advancing in price. The woolen trade shows a better demand; but the manufacturers are held in some restraint by fears of the trades unions demanding an advance in wages. In articles of domestic consumption, such as groceries, etc., there is a steady improvement of demand; which shows that the consumptive ability of the people is on the increase. In brief, the trade of the country generally affords evidence of a resumption of natural conditions, but on an exceptionally low scale of prices, which seems likely to prove more or less permanent "

ONTARIO'S MINERAL RICHES. Mr. A. Blue, director of the Ontario Bureau of Mines, has issued statistics of the sale and lease of mining lands and of the production of minerals in Ontario for 1894. In all, 40 patents for the purchase of lands were issued, 29 of which were in the Rainy River dis-

trict. The acres covered by these were 3,271, and the receipts \$7,646. Sixty-six leases were taken out, of which 48 were for the Rainy River district, the receipts being \$6,488 78. The total revenue for mining lands last year was

The returns of the mineral production for last year are interesting. There was a decrease in the value of the productions when comparel with 1893 from \$6,-120,753 to \$6,088,758. The hands employed in 1894 numbered 6,075, against 7,162, and the wages paid were reduced from \$1,935,590 to \$1,840,289. This is not as it should be in a comparatively undeveloped country like ours. We need increased markets. In the mineral industries of the Province, the following are the number of employes and the wages paid last year:

Bara reme ?		
	Employes.	Wages
Stone	854	\$336,7
Sand and gravel	175	61,650
Drain tile and co	575	108,000
brick Pressed brick, root	2.375	388,000
terra cotta	209	95,400
Sewer pipe	56	23,000
Pottery	160	47,000
Gypsum and calcined	plaster 36	9,500
Salt	135	43,350
Natural rock cement	63	13,020
Portland cement	105	31,858
Nickel, Copper, cobalt	655	311.719
Gold	92	38,032
Petroleum	486	279,930
Natural gas	99	53,130
Of notural man 1	ero con autho	Cook

marketed, representing a value of \$204,-179. The total quantity of petroleum produced was 34,912,360 gallons. Of illuminating oil, 14,349,472 gallons, valued at \$1,337,040, was produced; of lubricating oil, 3,817,181 gallons, valued at \$242,-688; of all other oils, 10,632,141, valued at \$343,416. The paraffine wax yielded 2,-754,300 pounds, valued at \$152,467, and the value of the fuel product, which in the early days was regarded as useless, was last year \$71,326.

INSANITY OF GENIUSES.

Herr Max Naudau, a German philosopher, has written a book in which he attempts to prove that most of the great geniuses of the present generation have been, or are. insane. In this category he includes John Ruskin, Oscar Wilde, Swinburne, Rossetti, Maeterlinck. Wagner, Ibsen and Walt Whitman. It is said that lunatics always believe everybody but themselves insane, and Herr Naudau, by his sweeping charges of lunacy, raises a suspicion of his own sanity.—Boston

FOREIGNERS FAVORED. Let a protectionist visit an implement factory. He will find one warehouse full of machines destined for foreign wheat fields. on which the terrific iron and steel duties will be remitted: another full of machines intended for Ontario and Manitoba, on which those duties have to be paid to the last cent. with the manufacturer's profit on them added. How can he say that this is a square deal for the farmer in Canada, and a proper working high tax advocates strongly urge, but out of the theory common to both pol-

itical parties of Canadian interest first, last and all the time?—Toronto Globe. LONDON SCHOOL MATTERS

VIEWED ABROAD. London's Board of Education has decided against free text books and also against the establishment of a fifth form in connection with the public schools. The first of these questions is merely one of economy. "Free text books" is a misnomer: the children pay for them, and in most cases the fund thus raised is greater than necessary, It is found also to be cheaper for the children, because books are better cared for, and often one text book serves for two or more pupils. As to the fifth form, it seems to us that the congested state of some of the collegiate insti-tutes might thus be relieved where there is plenty of public school accommodation.—Hamilton Times.

# AN OLD LADY'S STORY,

A Sufferer for Years from Kidney and Liver Troubles.

Lost Her Appetite and Suffered from Hearty.

Scotland is the name of a pretty little village in the county of Brant, twelve miles from Brantford. One of the oldest residents of the village is Mrs. Mary Bowman, widow of the late James Bowman, and to say that she is known to every person in the community and to RES THE WORST PAINS in from one many outside the county is but stating a simple fact. A reporter of the Expositor, who recently had occasion to a simple fact. A reporter of the Expositor, who recently had occasion to visit the village, was informed that Mrs. Bowman is another of the numerous army of sufferers made well by the use of Dr. Williams' Pink Pills, and in the Back, Chest or Limbs, was the first and is the only interviewed her with a view to getting.

New Powman is now interviewed the most excruciating in the stops the stops the stops the most excruciating in the stops instantly stops the most excruciating allays inflammation and cures Congeswhether of the Lungs, Stomach, Bowels, er glands or organs, by one applicationals to a teaspoonful in half a tumbler of will in a few minutes cure Cramps, as, Sour Stomach, Heartburn, Nervous-Sleeplessness, Sick Headache, Diarrhea, htery. Colic, Flatulency, and all internal nearly 72 years of age, but from all appearances is enjoying the best of health and bids fair to see more years than the allotted three score and ten. Her story can best be given in her own words. She said: "I had been afflicted with liver and kidney complaint for many years past and a year and this many years past, and a year ago this spring I was nearly used up and was barely able to do anything. The symptoms of my trouble were lameness in the back and soreness all through the body. I had a kind of neuralgia in my head nearly all the time, and had completely lost my appetite. For relief I had tried many remedies, but they were had tried many remedies, but they were of no assistance, and I continued to be troubled with these severe pains. One day a lady friend urged me to try Dr. Williams' Pink Pills, and I purchased a couple of boxes. While taking these my appetite returned, and my lameness did not bother me so much. I then purchased seven more boxes and continued taking them, and continually felt an the Liver and Digestive Organs. The improvement, and by the time I had tand best medicine in the world for the Improvement, and by the time I had used up the pills I was enjoying better health than I had done for years, and I am now entirely free from aches and pains. I know that Dr. Williams' Pink Pills are a grand medicine, and I have recomended them to many of my friends," Mrs. Bowman is so well known that no person wil for a moment doubt the statements she makes as to the great benefit she has found from DYSPEPSIA. the great benefit she has found from

Five Men Killed and Others Badly In-

woburn, Mass., April 1.—The boiler in Loring & Jones' leather factory exploded this morning, tearing out the burying in the ruins at least a dozen men. The following were killed: Austin Clements, foreman, Patrick Lally, Patrick Mc-Gonigle, Frank McMahon, — Patterson, DAPO Of the injured the night watchman, I CREAT Octavio Saunders, appears to be in the IDOO REMEDY worst condition.
