Ald. Will, of Windsor, was robbed of \$75 by a burglar Tuesday night. The cash was taken from a bureau in the owner's bedroom while the latter was asleep.

The Sandwich council will offer the Canada Brush Company free water and taxes for ten years if they decide to locate in the town on condition that half the men employed shall reside in Sandwich.

LAMBTON.

An old vest lay on the pavement crossing in front of the Belchamber House, Sarnia, the other day for about an hour. Passertby kicked and walked over it and it was ground in the dust by any number of buggies and wagons. Finally a farmer on a hayrack drove up and picked it up. He was greatly relieved at finding it, as in one of the pockets were about \$25, the proceeds of his day's business.

PERTH.

Thomas Aitcheson, a well-known Downie farmer, had an accident Tuesday, which resulted in a broken nose. He was hauling out manure when his team ran away. The tongue of the wagon fell from its fastening, and, sticking in the ground, caused Mr. Aitcheson to start skyward. His contact with the earth on his return caused the broken nose.

TO WARD OFF CONSUMPTION.

Proper Lung Development by Well Regulated Breathing or Great Value. I think it is evident, says Dr. T. J. Mays in the Century, that proper development and expansion of the lungs by means of woll-regulated breathing must be regarded as of the greatest value in the prevention and in the treatment of the inactive stages of pulmonary consumption. The more simple the method the more effective and practical will be the results which flow from it. Among the many exercises which are recommended for the purpose the following movements are very valuable. The arms, being used as levers, ere swung backward as far as possible on a level with the shoulders during each expiration. Or the hands are brought together in front on the same level during each expiration. Or the hands are brought together above the head while inspiring, and gradually brought down alongside the body while expiring. A deep breath must be taken with each inspiration and held until the arms are gradually moved forward or downward, or longer, in order to make both methods fully operative. A nother very serviceable chest exercise is to take a deep inspiration and, during expiration, in a loud voice count or sing as long as possible. A male person with a good chest capacity can count up to 60 or 80, while in a female, even with good lungs, this power is somewhat reduced. Practice of this sort will slowly develop the lungs, and the increased ability to count longer is a measure of the improvement going on within the chest, Or, again, the taking of six or eight full and deep breaths in succession every hour during wide jattention at the present time in connection with the prevention and the treatment of pulmonary consumption, and is another mode wherewith the ohest capacity can be decidedly improved. When air is breathed in this manner there is felt during each inspiration a gentle distension of the whole chest, while during expiration a feeling of emptiness is experienced.

Consumption is not a disease which originates in a day, but it is an outgrowth of mor Proper Lung Development by Well Regulated Breathing of Great Value.

Conscience, or What?

Conscience, or What?

"Conscience doth make cowards of us all," says the poet. But it is just so with the nerves. When a man's nerves are unstrung, through indigestion and torpid liver and impure blood, what wonder that he feels depressed and nervous! He starts at every little unexpected sound; is alraid of his own shadow, and feels like a fool. Let such a man go to the drug store and get a bottle of Dr. Pierce's Golden Medical Discovery, the great blood purifier and liver invigorator. This is the only blood purifier and liver invigorator. This is the only blood purifier and liver invigorator, and liver invigorator guarranteed to benefit or cure, or money will be promptly refunded. It cures Indigestion, or Dyspepsia, and from its wonderful blood purifying properties, conquers all skin and scalp discases, Salt-rheum, Tetter, Eczema and kindred ailments. All blood poisons, no matter of what name or nature, yield to its remedial influences.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy and general corrective, Dr. Thomas' Eclectric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruiss, cuts and sores succumb to its action.
