

Consuls Safe On the 19th Inst

Conger's Message Confirmed by Dispatch Sent to Brussels.

British Press Skeptical as to the Truth of the Reports—
Pessimistic Views Expressed by the London Spectator—
Washington Well Satisfied That the Tidings Are
Correct—Allies' Losses at Pekin Over 1,000.

Washington, July 21.—The secretary of state yesterday received a telegram from Consul Fowler at Che Foo, dated the afternoon of the 20th, saying that he had received the following telegram from the governor of Shan Tung, dated at 10 o'clock:

"Received flying express from the Teung Li Yamen forwarding cipher telegram, dated July 18, from American minister at Pekin, which I have transmitted, and by which you will see that the newspaper accounts are entirely rumors."

The state department has also received a dispatch from Consul Fowler, dated July 20, in which he communicates the following message telegraphed to him that day by the governor of Shan Tung:

"I have just received definite information that the various ministers in Pekin are well and the Chinese authorities are devising measures for their rescue and protection."

This message is signed by Tuan, the ruler of the province.

CONFIRMATORY.
Brussels, July 20.—The Belgian consul at Shanghai sends the following dispatch under date of July 19: "The (the administrator of telegraphs) announces that the foreigners at Pekin were safe and sound July 19."

"An imperial decree, dated July 16, orders the Viceroy of Tien Tsin to appraise the damage caused by the troubles, and orders the local militia to repress the rebellion."

BRITISH PRESS SKEPTICAL.
London, Saturday, July 21, 4 a.m.—The Conger dispatch fails to carry conviction to the British press or public. Its genuineness is not disputed, for the Chinese must possess quite a number of these messages, which the ministers fruitlessly endeavored to get transmitted, from which they could easily select a non-committal dispatch to serve the required purpose. A slight ray of hope is admitted in the fact that both Mr. and Mrs. Conger are known to have been very friendly terms with the empress dowager, but the universal opinion here is that, if the dispatch is genuine, the date is falsified.

PESIMISTIC VIEW.
The Spectator says: "It matters little whether the danger of Prince Tuan is the reigning monarch. Both are devoted to the extermination of foreigners, and not one of the viceroys will dare oppose the anti-foreign policy. The plot has covered the whole empire. A Russian city, upon Russian ground, to be stormed will dare anything."

"Within a month the viceroys of the coast towns will have thrown off the mask, and the only safe place for Europeans will be on shipboard."

WASHINGTON HAPPY.
SATISFIED WITH THE NEWS.
Washington, July 20.—Two cablegrams bearing tidings of the unfortunate event in the British legation in Pekin were received yesterday. First came a short, sharp word from Consul General Goodnow, at Shanghai, to an officer of the state department. He gave notice that Minister Conger had at last been ordered to leave the legation. The words were on the way to the state department. Scarcely had the cheering news reached Secretary Hay, before Minister Wu came tearing down the asphalt street from his legation in his automobile, bearing in his own hand the precious message from Mr. Conger. Mr. Wu himself was ignorant of what he had in his hand, because the message was in the state department cipher, an apparently meaningless mass of figures and periods. The message, of which it is believed to have been sent from Pekin on the 18th inst., announced that the consul general of the British legation, under continued shot and shell from Chinese troops, and that only quick relief could prevent a massacre. After the work of translating the cipher into English had been completed, Secretary Hay took himself to the war department to convey the news to Secretary Root and to Secretary Long, who were together at the time.

PLEASED AND PROUD.
After a short consultation in Secretary Root's office, Secretary Long, upon emerging, said: "We are all very happy over the good tidings. I have hardly had time to think of the exact effect of the news on the situation, but it removes one of the great elements of doubt, and leaves us free to hope for the rescue of the foreigners in Pekin. It is a great victory for the state department of the United States. Every country in Christendom was employing every agency in its possession to obtain authentic news of the beleaguered ministers, and the United States is the first to give to the world authentic and absolutely reliable word direct from the place in which the beleaguered ministers are garisoned."

BELIEVED TO BE GENUINE.
Said the secretary: "I am of the opinion that outsiders could not have made use of our code, and, besides, the nature of the reply, with its strong appeal for immediate relief, is such as would not have been sent by anyone seeking to conceal a catastrophe to the foreigners in Pekin." As soon as the cablegram from Minister Conger had been translated at the state department it was sent to the White House, and transmitted to the president, who is at his home in Canton, Ohio.

TWO IMPORTANT FACTS.
The state department is satisfied of two facts: First, that Mr. Conger was alive on the 18th inst. This date is supplied by Consul-General Goodnow; in the second place, it still remains the opinion that the Chinese Imperial Government is not encouraging, but is assisting the Boxer movement, though some Chinese troops may have joined insurgents.

State department officials do not accept the conclusions reached by some of the London officials that Minister Conger's dispatch is an old one, which has been interpreted by Chinese officials. It is further pointed out, in support of the authenticity of Mr. Conger's message, that the bombardment of which he speaks did not begin, according to all accounts, until July 6, although the legations had been besieged and attacked prior to that time, but not with artillery.

NOW FOR RELIEF.
Secretary Hay has transmitted Minister Conger's cable to all our ambassadors abroad, and has instructed them to urge the respective governments to which they are accredited to co-operate in the immediate relief of Pekin.

Secretary Long has sent the following message to the minister of the United States at Tien Tsin: "Conger telegraphs that he is under fire in British legation, Pekin. Use and urge every means possible for immediate relief—Long."

As was anticipated, the Japanese Government has given its cheerful assent to the application of the United States Government for permission to land armed troops and military supplies at Nagasaki in transit to Taku, China. The Japanese authorities have assured the United States Government that they will facilitate the movement of American troops and supplies as much as possible.

MR. WU TING FANG.
The Chinese minister, Mr. Wu Ting Fang, was today a center of official and personal congratulation over the great service he has performed for the American government and the American people in opening up communication between United States Minister Conger and Washington, and in sweeping aside a mass of horrible reports as to wholesale massacres of our officials and others. The Chinese legation was in a state of jubilation today.

INTENSE RELIEF.
Minister Wu's personal feelings over the receipt of the message are those of intense relief, following a long period of extreme depression.

Mr. Wu is personally acquainted with the taotai of Shanghai, who forwarded the message for him and got back the answer, and the minister regards him as one of the most irrefragable and high-minded in all China. Aside from being able to get the message itself, Minister Wu is greatly gratified at the opportunity he has to serve the American government, and in this way to establish the good faith which the Chinese authorities, as represented by him, are seeking to deal with the situation. It is appreciated that the crisis is still acute, but at least the mystery as to Minister Conger has been penetrated.

Tien Tsin.
ALLIES' CASUALTIES HEAVY.
London, July 21.—The Daily Express has received the following from Tien Tsin, dated July 18: The casualties of the allies in the three days' fighting between the Chinese and the allies in the Tien Tsin district of Tien Tsin exceeded 1,000.

It is now certain that there were several Russians and Frenchmen fighting on the Chinese side. The Chinese killed their own women wholesale to prevent them falling into the hands of the Russians.

Yesterday the whole native city was in flames, and the stench of the burning thousands of corpses was unpleasantly horrible.

Among the incidents of the fighting on July 13 was the precipitate flight of 500 French troops from Annam. They had been ordered to hold an important point, but on being charged by the Chinese with the bayonets the entire detachment bolted panic-stricken.

The Russians killed all the Chinese wounded in revenge for the Pekin massacre.

FRAGMENTS.
Marines to the number of 125 will leave the Charleston navy yard Sunday for China.

Gen. Joe Wheeler is said to have asked the war department to assign him to duty in China.

Li Hung Chang declares the edict recalling him to Pekin was due to the emperor's and not to Tuan.

BRAVE MAN'S LAST WORDS.
New York, July 21.—"Keep up the firing," were the last words spoken by Col. Liscum, according to a Cee Foo cable to the Herald. The correspondent says:

"The 9th Regiment and other Americans, with the Japanese, advanced against a flanking fire, but were forced to lie in the mud all day, unable to help their wounded, and compelled to drink canal water. They could not drive the foe, or charge, or do anything except fire a few rounds. The American hospitals at Tien Tsin are crowded and surgeons are needed."

PLUCKY JAPS.
The Japanese were the heroes of the battle, fighting with remarkable bravery. They charged through the breach and fought the Chinese hand to hand. Their conduct after the battle was equally good. Fifty guns were captured by the allies.

WHY GO LIMPING and whining about your corns, when a 25 cent bottle of Holloway's Corn Cure will remove them? Give it a trial, and you will not regret it.

SHOES MADE EASY.
Sprinkle "Foot Elm" in a new shoe and it feels as comfortable as an old one. Sprinkle it in an old one and it feels as cool and easy as a slipper. It relieves the inflammation and soreness of chafed, swollen and sweating feet.

DR. W. A. PIPER HONORED Banquet Tendered Him by the Brethren of Leamington Lodge, A. F. and A. M.

[Leamington Post.]

On Friday night the brethren of Leamington Lodge, A. F. and A. M., and of King Cyrus Chapter, gave a banquet at the Omaha in honor of Mr. Bro. W. A. Piper, who is soon to take his departure for London. The spacious dining room was very handsomely decorated, while the tables were gems of art. An elegant spread of several courses was served—in fact, the proprietors, by their efforts, seemed desirous of doing all honor to the brethren, and particularly to the guest of the evening, Dr. Piper. About 30 sat down and remained at the table until after midnight.

The toast list was long and the responses were very good indeed. The replies of Dr. Hillier, A. T. Bole, and Mr. Crasswell were particularly good. Few men have left the town who enjoyed in so eminent a degree the love, respect and affection of the brethren. Dr. Piper, for the past twelve years he has been one of the leading citizens in every forward movement, and universal regret is everywhere expressed at the thought of his leaving the town which he has helped so much to develop. Before opening in London the doctor will take a short special course in Chicago. The banquet given on Friday will be supplemented in a few days by one given by the town. It is felt that too much honor cannot be given one so universally loved. He was a friend to all, generous, courteous and agreeable, and the citizens intend to give him a hearty send-off on Monday evening next.

The following is the toast list: W. C. Coulson, first principal of King Cyrus Chapter, acted as chairman in a very efficient manner. Morris' Orchestra supplied excellent music: The Queen and the Craft—Responses as usual.

Grand Lodge of Canada and Grand Chapter, R. Peters, Windsor, and Dr. R. Hillier.

King Cyrus Chapter and Leamington Lodge—James Greenhill and William Irwin.

Visiting Brethren—Bro. J. E. Culbertson.

Guest of Evening—A. T. Bole; W. A. Piper very happily replied.

OLD SOL AS DRESS REFORMER

Passing of the Tall Hat and Frock Coat.

Even Royalty Discards Usual Forms of Dress

London Hospitals Crowded With Cases of Sunstroke—American Invasion of the Metropolis—Touching Incident at Windsor Castle.

[Special London Cable Letter.]
London, July 21.—"We are requested to state," said the Times on Thursday, "that the tall hat and frock coat, which hitherto had been recognized as the costume for Sandown Park, on the occasion of the royal visit, may be dispensed with tomorrow and Saturday in favor of straw hat and other costume more suited to the present tropical weather." A few days of intense heat have done more to break down the established traditions of England than would a dozen reform bills. Long established rules of state, social, business and police etiquette have been swept to the winds.

PREVALENCE OF SUN STROKES.
In a land where a few years ago sunstroke was almost unknown, the hospitals are now crowded with cases of that description.

For the first time in the history of parliament one of the front bench members, Mr. Herbert Gladstone, has appeared at St. Stephens wearing a straw hat, to the amazement of the members of the house. Royalty, driven to desperation by the scorching weather England has ever known, and obliged to appear at public functions, has completely

DISCARDED THE USUAL FORMS OF DRESS.
Lord Ronald Gower's annual letter to the Times, inveighing against the tall hat, instead of being a useless protest, this week voices public opinion with remarkable unanimity. Well-known men of fashion are frequently to be seen at the West End wearing white duck or flannel trousers, with immaculate frock coats and silk hats. This latitude of dress extends also to servants. Be-powdered flunkies, thick with gold lace, may be seen galloping in the boxes wearing sailor hats, white flannel trousers, and fashionable nurses have given up the hot veil and bonnet in favor of light straw headgear. In brief, the metropolis of the world, with its countless arbitrary forms of dress and decoration, has in the short space of a week been turned topsy-turvy, and has become as free and easy as a Haitian village at the height of summer.

SERIOUS PHASE OF THE MATTER.
The serious phase of the matter is the rapidly increasing death rate and the prophesied continuation of the hot wave. The people never tire of pointing out how utterly inadequate are the provisions to deal with the present conditions. Ice is a luxury obtainable by the rich only, and by them in limited quantities. For the poor there is no alleviation, not even the opportunity to bathe. The idea of flooding the heated streets has not yet dawned upon England's municipality. The supply of facilities at the London hospital, to deal with the heat prostration is absurdly inadequate. Hence it is small wonder that business is practically suspended and social functions are cut by the rich only, and by them in limited quantities. For the poor there is no alleviation, not even the opportunity to bathe. The idea of flooding the heated streets has not yet dawned upon England's municipality.
